53-9-101. Short title. This part may be cited as "The Crime Victims Compensation Act of Montana".

History: En. 71-2601 by Sec. 1, Ch. 527, L. 1977; R.C.M. 1947, 71-2601.

53-9-102. Legislative purpose and intent. It is the intent of the legislature to provide a method of compensating those persons within the state who are innocent victims of criminal acts, including acts of international terrorism, as defined in 18 U.S.C. 2331, that are committed outside of the United States against a resident of this state, and who suffer bodily injury or death and those innocent citizens of this state who are injured or killed in a state that does not have a crime victims compensation program that covers out-of-state residents injured or killed in that state. To this end, it is the legislature's intention to provide compensation for injuries suffered as a direct result of the criminal acts of other persons and to coordinate victims' assistance programs.

History: En. 71-2602 by Sec. 2, Ch. 527, L. 1977; R.C.M. 1947, 71-2602; amd. Sec. 1, Ch. 354, L. 1991; amd. Sec. 1, Ch. 397, L. 1991; amd. Sec. 7, Ch. 186, L. 1997.

53-9-103. Definitions. As used in this part, the following definitions apply:

(1) "Claimant" means any of the following claiming compensation under this part:

(a) a victim;

(b) a dependent of a deceased victim; or

(c) an authorized person acting on behalf of any of them.

(2) "Collateral source" means a source of benefits, other than welfare benefits, or advantages for economic loss otherwise compensable under this part that the claimant has received or that is readily available to the claimant from:

(a) the offender;

(b) the government of the United States or any agency thereof, a state or any of its political subdivisions, or an instrumentality of two or more states, unless the law providing for the benefits or advantages makes them excess or secondary to benefits under this part;

(c) social security, medicare, and medicaid;

(d) workers' compensation;

(e) wage continuation programs of any employer;

(f) proceeds of a contract of insurance payable to the claimant for loss that was sustained because of the criminally injurious conduct;

(g) a contract, including an insurance contract, providing hospital and other health care services or benefits for disability. A contract in this state may not provide that benefits under this part are a substitute for benefits under the contract or that the contract is a secondary source of benefits and benefits under this part are a primary source.

(h) a crime victims compensation program operated by the state in which the victim was injured or killed that compensates residents of this state injured or killed in that state; or

(i) any other third party.

(3) "Criminally injurious conduct" means conduct that:

(a) occurs or is attempted in this state or an act of international terrorism, as defined in 18 U.S.C. 2331, committed outside of the United States against a resident of this state;

(b) results in bodily injury or death; and

(c) is punishable by fine, imprisonment, or death or would be so punishable except that the person engaging in the conduct lacked capacity to commit the crime under the laws of this state; however, criminally injurious conduct does not include conduct arising out of the ownership, maintenance, or use of a motor vehicle unless the bodily injury or death occurred during the commission of an offense defined in Title 45 that requires the mental state of purposely as an element of the offense or the injury or death was inflicted by the driver of a motor vehicle who is found by the office, by a preponderance of the evidence, to have been operating the motor vehicle while under the influence, as that term is defined in 61-8-401; or

(d) is committed in a state without a crime victims compensation program that covers a resident of this state if the conduct meets the requirements in subsections (3)(b) and (3)(c).

(4) "Dependent" means a natural person who is recognized under the law of this state to be wholly or partially dependent upon the victim for care or support and includes a child of the victim conceived before the victim's death but born after the victim's death, including a child that is conceived as a result of the criminally injurious conduct.

(5) "Office" means the office of victims services established in 2-15-2016.

(6) "Victim" means a person who suffers bodily injury or death as a result of:

(a) criminally injurious conduct;

(b) the person's good faith effort to prevent criminally injurious conduct; or

(c) the person's good faith effort to apprehend a person reasonably suspected of engaging in criminally injurious conduct.

(1) Except as otherwise provided in this section, compensation may not be awarded unless the claim is filed with the office within 1 year after the day the criminally injurious conduct occurred causing the injury or death upon which the claim is based. Compensation in cases involving sexual offenses against minors may not be awarded unless the claim is filed with the office within 1 year after the day the criminally injurious conduct was reported to a law enforcement agency or an agency of the state responsible for provision of child welfare services, or within 1 year after the day the victim reaches 18 years of age, whichever occurs last. The time for filing a claim may be extended by the office for good cause shown.

(2) Compensation may not be awarded to a claimant who is the offender or an accomplice of the offender or to any claimant if the award would unjustly benefit the offender or accomplice.

(3) Compensation may not be awarded unless the criminally injurious conduct resulting in injury or death was reported to a law enforcement officer. The report must be made within 72 hours after its occurrence, except in a case involving a sexual offense against a minor or when the office finds there was good cause for the failure to report within that time.

(4) In order to be entitled to benefits under this part, a claimant shall fully cooperate with all law enforcement agencies and prosecuting attorneys in the apprehension and prosecution of the offender causing the criminally injurious conduct. The office, upon finding that the claimant or victim has not fully cooperated with appropriate law enforcement agencies or prosecuting attorneys, may deny or reconsider and reduce an award of compensation.

(5) Compensation otherwise payable to a claimant must be reduced or denied to the extent the compensation benefits payable are or can be recouped from collateral sources.

(6) Persons serving a sentence of imprisonment or residing in any other public institution which provides for the maintenance of the person are not entitled to the benefits of this part.

(7) Compensation may be denied or reduced if the victim contributed to the infliction of death or injury with respect to which the claim is made. Any reduction in benefits under this

subsection must be in proportion to what the office finds to be the victim's contribution to the infliction of death or injury.

53-9-128. Compensation benefits. (1) A claimant is entitled to weekly compensation benefits when the claimant has a total actual loss of wages due to injury as a result of criminally injurious conduct. During the time the claimant seeks weekly benefits, the claimant, as a result of the injury, must have no reasonable prospect of being regularly employed in the normal labor market. The weekly benefit amount is 66 ⅔% of the wages received at the time of the criminally injurious conduct, subject to a maximum of one-half the state's average weekly wage as determined in 39-51-2201. Weekly compensation payments must be made at the end of each 2-week period. Weekly compensation payments may not be paid for the first week after the criminally injurious conduct occurred, but if total actual loss of wages continues for 1 week, weekly compensation payments must be paid from the date the wage loss began. Weekly compensation payments must continue until the claimant has a reasonable prospect of being regularly employed in the normal labor market.

(2) The claimant is entitled to be reimbursed for reasonable services by a physician or surgeon, reasonable hospital services and medicines, and other treatment approved by the office for the injuries suffered due to criminally injurious conduct. Unless expressly requested by the claimant, benefits may not be paid under this subsection until the claimant has been fully compensated for total wage loss benefits as provided in subsection (1) or (7).

(3) (a) The dependents of a victim who is killed as a result of criminally injurious conduct are entitled to receive, in a gross single amount payable to all dependents, weekly benefits amounting to 66 ⅔% of the wages received at the time of the criminally injurious conduct causing the death, subject to a maximum of one-half the state's average weekly wage as determined in 39-51-2201. Weekly compensation payments must be made at the end of each 2-week period.

(b) Benefits under subsection (3)(a) must be paid to the spouse for the benefit of the spouse and other dependents unless the office determines that other payment arrangements should be made. If a spouse dies or remarries, benefits under subsection (3)(a) must cease to be paid to the spouse but must continue to be paid to the other dependents as long as their dependent status continues.

(4) Reasonable funeral and burial expenses of the victim, not exceeding $3,500, must be paid if all other collateral sources have properly paid expenses but have not covered all expenses.

(7) (a) A person who has suffered injury as a result of criminally injurious conduct and as a result of the injury has no reasonable prospect of being regularly employed in the normal labor market and who was employable but was not employed at the time of the injury may in the discretion of the office be awarded weekly compensation benefits in an amount determined by the office not to exceed $100 per week. The claimant must be awarded benefits as provided in subsection (4).

(8) Except for benefits paid under subsections (3), (5), and (7)(b) or other benefits paid when the victim is killed as a result of criminally injurious conduct, amounts payable as weekly compensation may not be commuted to a lump sum and may not be paid less frequently than every 2 weeks.

(9) (a) Subject to the limitations in subsection (9)(c), the spouse, parent, child, brother, or sister of a victim who is killed as a result of criminally injurious conduct is entitled to reimbursement for mental health treatment received as a result of the victim's death.

(b) Subject to the limitations in subsection (9)(c), the parent, brother, or sister of a minor who is a victim of criminally injurious conduct involving a sexual offense and who is not entitled to receive services under Title 41, chapter 3, is entitled to reimbursement for mental health treatment received as a result of that criminally injurious conduct.

53-9-132. Subrogation. (1) If a claimant seeks compensation under this part and compensation is awarded, the office is entitled to full subrogation against a judgment or recovery received by the claimant against the offender or a collateral source arising from the criminally injurious conduct committed by the offender for all compensation paid under this part. The office's right of subrogation is a first lien on the judgment or recovery. If the claimant does not institute the action against the offender or collateral source within 1 year from the date the criminally injurious conduct occurred, the office may institute the action in the name of the claimant or the claimant's personal representative.

(2) If the claimant institutes the action, the office shall pay a proportional share of costs and attorney fees if it recovers under its subrogation interest.

(3) If the office institutes the action in the name of the claimant or the claimant's personal representative and the recovery is in excess of the amount of compensation paid to the claimant and costs incurred by the office in pursuit of the action, the excess must be paid to the claimant.

(4) If a judgment or recovery includes both damages for bodily injury or death for which the office has paid compensation under this part and damages for which the office has not paid compensation, then the office's subrogation interest applies only to that proportion of the judgment or recovery for which it has paid compensation. In a civil action in a court of this state arising out of criminally injurious conduct, the judge, on timely motion, shall direct the jury to return a special verdict indicating separately the amounts of the various items of damages awarded. A claimant may not make recoveries against the offender or collateral source in such a way as to avoid and preclude the office from receiving its proper subrogation share as provided in this section. The office shall release its lien provided for in subsection (1) upon receipt of its subrogation share.

Part 3
Telecommunications Services

53-19-301. Legislative findings and declaration. (1) The legislature finds and declares that many Montana citizens have physical disabilities and are unable to use traditional telecommunications equipment and services without assistance. These citizens constitute a substantial and valuable resource within the United States and the state of Montana, and this segment of our population needs access to telecommunications services in order to function as contributing and productive members of our society.

(2) The legislature further finds and declares that the role of telecommunications in our world today is inestimable. Telecommunications is the primary vehicle of commerce and industry, the means to convey and receive information and knowledge, and the way that we connect with others on a personal as well as business level. Telecommunications gives people independence and self-sufficiency, and it provides goods and services, human contact, and fellowship.

(3) The legislature further finds that access to telecommunications services should be provided to persons who have disabilities not only for their own sake but for the benefit of society at large. Access to telecommunications services would enhance the business and personal lives of persons with disabilities, and its availability to persons with disabilities would be an investment of benefit to all of Montana.

(4) Consistent with the findings stated in subsections (1) through (3), the legislature finds it appropriate to provide persons with disabilities access to telecommunications services by creating a program to make specialized telecommunications equipment and services available to persons with disabilities.

History: En. Sec. 1, Ch. 669, L. 1989; amd. Sec. 2, Ch. 396, L. 1997; amd. Sec. 62, Ch. 472, L. 1997.

The term includes but is not limited to text telephones (TTY), amplifiers, signaling devices, puff-blow devices, electronic artificial larynx devices, telebraille, equipment for the mobility-impaired, and hearing screening equipment.

(7) "Telecommunications relay service" means a service that permits full and simultaneous communication between those using specialized telecommunications equipment and those using conventional telephone equipment.

(8) "Telephone access line" means the telephone exchange access line or channel or wireless service that provides the customer of a local exchange company with access to the telecommunications network to effect the transfer of information.

53-20-131. Placement in nonstate facility. (1) Consistent with other provisions of this part, a person admitted to a residential facility under this part for a period of more than 30 days may be committed by the court to the custody of friends or next of kin residing outside the state or transferred to an out-of-state facility for the habilitation of persons who are persons with developmental disabilities if the out-of-state facility agrees to receive the person. Such a commitment or transfer may not be for a longer period of time than is permitted within Montana. If the person is indigent, the expense of supporting him in an out-of-state facility and the expense of transportation must be borne by the state of Montana.

(2) The transfer of persons admitted to a residential facility out of Montana under the provisions of this part or into Montana under the laws of another jurisdiction must be governed by the provisions of the Interstate Compact on Mental Health.

53-20-132. Court-ordered placement in community-based services prohibited. Nothing in this part may be construed as authorizing the placement of and delivery of services to persons with developmental disabilities in community-based services by court order. Placement of persons in community-based services is governed by 53-20-209.

History: En. Sec. 1, Ch. 417, L. 1987; amd. Sec. 15, Ch. 381, L. 1991; amd. Sec. 21, Ch. 255, L. 1995.

53-20-133. Residential facility screening team — referral by court — membership — rules. (1) When the district court receives a petition for commitment to a residential facility under this part, the court, prior to proceeding, shall refer the respondent to the residential facility screening team for screening to determine whether placement and habilitation in a residential facility are appropriate for the respondent.

(2) A court may not commit a respondent to a residential facility under 53-20-125, 53-20-128, or 53-20-129 unless the residential facility screening team determines that placement and habilitation in a residential facility are appropriate for the respondent.

(3) The residential facility screening team may not determine that placement and habilitation in a residential facility are appropriate on an extended basis unless the residential facility screening team determines that the respondent is seriously developmentally disabled.

(4) The residential facility screening team shall provide the court and the county attorney with the social and placement information relied upon by the residential facility screening team in making its determination.

(5) For purposes of this part, the department of public health and human services shall adopt rules providing for the membership and terms of the members of the residential facility screening team and setting forth the criteria and procedures to govern the determinations made by the residential facility screening team.

53-20-141. Denial of legal rights. (1) Unless specifically stated in an order by the court, a person admitted to a residential facility for an extended course of habilitation does not forfeit any legal right or suffer any legal disability by reason of the provisions of this part, except insofar as it may be necessary to detain the person for habilitation, evaluation, or care.

(2) Whenever a person is admitted to a residential facility for a period of more than 30 days for an extended course of habilitation, the court ordering the admission may make an order stating specifically any legal rights that are denied the respondent and any legal disabilities that are imposed on him. As part of its order, the court may appoint a person to act as conservator of the respondent's property. Any conservatorship created pursuant to this section terminates upon the conclusion of the admission if not sooner terminated by the court. A conservatorship or guardianship extending beyond the period of the admission may not be created except according to the procedures set forth under Montana law for the appointment of conservators and guardians generally.

(3) A person who has been admitted to a residential facility pursuant to this part must, upon the termination of the admission, be automatically restored to all of his civil and legal rights that may have been lost when he was admitted. However, this subsection does not affect any guardianship or conservatorship created independently of the admission proceedings according to the provisions of Montana law relating to the appointment of conservators and guardians generally. A person who leaves a residential facility following a period of evaluation and habilitation must be given a written statement setting forth the substance of this subsection.

53-20-142. Rights while in residential facility. Persons admitted to a residential facility for a period of habilitation shall enjoy the following rights:

(1) Residents have a right to dignity, privacy, and humane care.

(2) Residents are entitled to send and receive sealed mail. Moreover, it is the duty of the facility to foster the exercise of this right by furnishing the necessary materials and assistance.

(3) Residents must have the same rights and access to private telephone communication as patients at any public hospital except to the extent that the individual treatment planning team or the qualified mental retardation professional responsible for formulation of a particular resident's habilitation plan writes an order imposing special restrictions and explains the reasons for the restrictions. The written order must be renewed monthly if any restrictions are to be continued.

(4) Residents have an unrestricted right to visitation except to the extent that the individual treatment planning team or the qualified mental retardation professional responsible for formulation of a particular resident's habilitation plan writes an order imposing special restrictions and explains the reasons for the restrictions. The written order must be renewed monthly if restrictions are to be continued.

(5) Residents have a right to receive suitable educational and habilitation services regardless of chronological age, degree of retardation, or accompanying disabilities.

(6) Each resident must have an adequate allowance of neat, clean, suitably fitting, and seasonable clothing. Except when a particular kind of clothing is required because of a particular condition, residents must have the opportunity to select from various types of neat, clean, and seasonable clothing. The clothing must be considered the resident's throughout the resident's stay in the facility. Clothing, both in amount and type, must make it possible for residents to go out of doors in inclement weather, to go for trips or visits appropriately dressed, and to make a normal appearance in the community. The facility shall make provision for the adequate and regular laundering of the residents' clothing.

(7) Each resident has the right to keep and use the resident's own personal possessions except insofar as the clothes or personal possessions may be determined by the individual treatment planning team or the qualified mental retardation professional to be dangerous either to the resident or to others.

(8) Each resident has a right to a humane physical environment within the residential facility. The facility must be designed to make a positive contribution to the efficient attainment of the habilitation goals of the resident. To accomplish this purpose:

(a) regular housekeeping and maintenance procedures that will ensure that the facility is maintained in a safe, clean, and attractive condition must be developed and implemented;

(b) pursuant to an established routine maintenance and repair program, the physical plant must be kept in a continuous state of good repair and operation so as to ensure the health, comfort, safety, and well-being of the residents and so as not to impede in any manner the habilitation programs of the residents;

(c) the physical facilities shall meet all fire and safety standards established by the state and locality. In addition, the facility shall meet the provisions of the life safety code of the national fire protection association that are applicable to it.

(d) there must be special facilities for nonambulatory residents to ensure their safety and comfort, including special fittings on toilets and wheelchairs. Appropriate provision must be made to permit nonambulatory residents to communicate their needs to staff.

(9) Residents have a right to receive prompt and adequate medical treatment for any physical or mental ailments or injuries or physical disabilities and for the prevention of any illness or disability. The medical treatment must meet standards of medical practice in the community. However, nothing in this subsection may be interpreted to impair other rights of a resident in regard to involuntary commitment for mental illness, use of psychotropic medication, use of hazardous, aversive, or experimental procedures, or the refusal of treatment.

(10) Corporal punishment is not permitted.

(11) The opportunity for religious worship must be accorded to each resident who desires worship. Provisions for religious worship must be made available to all residents on a nondiscriminatory basis. An individual may not be compelled to engage in any religious activities.

(12) Residents have a right to a nourishing, well-balanced diet. The diet for residents must provide at a minimum the recommended daily dietary allowance as developed by the national academy of sciences. Provisions must be made for special therapeutic diets and for substitutes at the request of the resident, the resident's parents, guardian, or next of kin, or the responsible person appointed by the court in accordance with the religious requirements of any resident's faith. Denial of a nutritionally adequate diet may not be used as punishment.

(13) Residents have a right to regular physical exercise several times a week. It is the duty of the facility to provide both indoor and outdoor facilities and equipment for exercise. Residents have a right to be outdoors daily in the absence of contrary medical considerations.

(14) Residents have a right, under appropriate supervision, to suitable opportunities for the interaction with members of the opposite sex except when the individual treatment planning team or the qualified mental retardation professional responsible for the formulation of a particular resident's habilitation plan writes an order to the contrary and explains the reasons for the order. The order must be renewed monthly if the restriction is to be continued.

(1) A person admitted to a residential facility may be photographed upon admission for identification, medical, habilitative, and administrative purposes of the facility. 53-20-145. Right to be free from unnecessary or excessive medication. Residents have a right to be free from unnecessary or excessive medication. Medication may not be administered unless at the written order of a physician. The individual treatment planning team and the attending physician are responsible for all medication given or administered to a resident. The use of medication may not exceed standards of use that are advocated by the United States food and drug administration. Notation of each individual's medication must be kept in his medical records. A pharmacist or a registered nurse shall review monthly the record of each resident on medication for potential adverse reactions, allergies, interactions, contraindications, rationality, and laboratory test modifications and shall advise the physician of any problems. Medications must be reviewed quarterly by the attending or staff physician. At least monthly, an attending physician shall review the drug regimen of each patient on psychotropic medication. All prescriptions must be written with a termination date that may not exceed 90 days. Medication for newly admitted residents must be reviewed and reordered as necessary upon admission and then every 30 days for the first 90 days. Medications may not be used as punishment, for the convenience of staff, as a substitute for a habilitation program, or in quantities that interfere with the resident's treatment program. Nothing in this section may be interpreted to relieve a physician or other professional or medical staff person from any obligation to adequately monitor the medication of a resident, with due consideration to the nature of the medication, the purpose for which it is given, and the condition of the resident.

53-20-146. Right not to be subjected to certain treatment procedures. (1) Residents of a residential facility have a right not to be subjected to unusual or hazardous treatment procedures without the express and informed consent of the resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and legal counsel. Proposed procedures must first have been reviewed and approved by the mental disabilities board of visitors before consent is sought.

(2) Physical restraint may be employed only when absolutely necessary to protect the resident from injury or to prevent injury to others. Mechanical supports used to achieve proper body position and balance that are ordered by a physician are not considered a physical restraint. Restraint may not be employed as punishment, for the convenience of staff, or as a substitute for a habilitation program. Restraint may be applied only if alternative techniques have failed and only if the restraint imposes the least possible restriction consistent with its purpose. Use of restraints may be authorized by a physician, a developmental disabilities professional, or a qualified mental retardation professional. Orders for restraints must be in writing and may not be in force for longer than 12 hours. Whenever physical restraint is ordered, suitable provision must be made for the comfort and physical needs of the resident restrained.

(3) Seclusion, defined as the placement of a resident alone in a locked room for nontherapeutic purposes, may not be employed. Legitimate "time out" procedures may be used under close and direct professional supervision as a technique in behavior-shaping programs.

(4) Behavior modification programs involving the use of noxious or aversive stimuli must be reviewed and approved by the mental disabilities board of visitors and may be conducted only with the express and informed consent of the affected resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and with legal counsel. These behavior modification programs may be conducted only under the supervision of and in the presence of a qualified mental retardation professional who has had proper training.

(5) A resident may not be subjected to a behavior modification program that attempts to extinguish socially appropriate behavior or to develop new behavior patterns when the behavior modifications serve only institutional convenience.

(6) Electric shock devices are considered a research technique for the purpose of this part. Electric shock devices may be used only in extraordinary circumstances to prevent self-mutilation leading to repeated and possibly permanent physical damage to the resident and only after alternative techniques have failed. The use of electric shock devices is subject to the conditions prescribed by this part for experimental research generally and may be used only under the direct and specific order of a physician and the superintendent of the residential facility.

53-20-147. Right not to be subjected to experimental research. (1) Residents of a residential facility have a right not to be subjected to experimental research without the express and informed consent of the resident, if the resident is able to give consent, and of the resident's parents or guardian or the responsible person appointed by the court after opportunities for consultation with independent specialists and with legal counsel.

(2) The proposed research must have been reviewed and approved by the mental disabilities board of visitors before consent may be sought. Prior to approval, the board shall determine that the research complies with the principles of the statement on the use of human subjects for research of the American association on mental deficiency and with the principles for research involving human subjects required by the United States department of health and human services for projects supported by that agency.

53-20-148. Right to habilitation. (1) Persons admitted to residential facilities have a right to habilitation, including medical treatment, education, and care suited to their needs, regardless of age, degree of retardation, or disabling condition. Each resident has a right to a habilitation program that will maximize the resident's human abilities and enhance the resident's ability to cope with the environment. Every residential facility shall recognize that each resident, regardless of ability or status, is entitled to develop and realize the resident's fullest potential. The facility shall implement the principle of normalization so that each resident may live as normally as possible.

(2) Residents have a right to the least restrictive conditions necessary to achieve the purposes of habilitation. To this end, the facility shall make every attempt to move residents from:

(a) more to less structured living;
(b) larger to smaller facilities;
(c) larger to smaller living units;
(d) group to individual residences;
(e) segregated from the community to integrated into the community living;
(f) dependent to independent living.

(3) Within 30 days of admission to a residential facility, each resident must have an evaluation by appropriate specialists for programming purposes.

(4) Each resident must have an individualized habilitation plan formulated by an individual treatment planning team. This plan must be implemented as soon as possible, but no later than 30 days after the resident's admission to the facility. An interim program of habilitation, based on the preadmission evaluation conducted pursuant to this part, must commence promptly upon the resident's admission. Each individualized habilitation plan must contain:

(a) a statement of the nature of the specific limitations and the needs of the resident;

(b) a description of intermediate and long-range habilitation goals, with a projected timetable for their attainment;

(c) a statement of and an explanation for the plan of habilitation for achieving these intermediate and long-range goals;

(d) a statement of the least restrictive setting for habilitation necessary to achieve the habilitation goals of the resident;

(e) a specification of the professionals and other staff members who are responsible for the particular resident's attaining these habilitation goals;

(f) criteria for release to less restrictive settings for habilitation, based on the resident's needs, including criteria for discharge and a projected date for discharge.

(5) As part of the habilitation plan, each resident must have an individualized postinstitutionalization plan that includes an identification of services needed to make a satisfactory community placement possible. This plan must be developed by the individual treatment planning team that shall begin preparation of the plan upon the resident's admission to the facility and shall complete the plan as soon as practicable. The parents or guardian or next of kin of the resident, the responsible person appointed by the court, if any, and the resident, if able to give informed consent, must be consulted in the development of the plan and must be informed of the content of the plan.

(6) In the interests of continuity of care, one qualified mental retardation professional shall whenever possible be responsible for supervising the implementation of the habilitation plan, integrating the various aspects of the habilitation program, and recording the resident's progress as measured by objective indicators. The qualified mental retardation professional is also responsible for ensuring that the resident is released when appropriate to a less restrictive habilitation setting.

(7) The habilitation plan must be reviewed monthly by the qualified mental retardation professional responsible for supervising the implementation of the plan and must be modified if necessary. In addition, 6 months after admission and at least annually thereafter, each resident must receive a comprehensive psychological, social, habilitative, and medical diagnosis and evaluation and the resident's habilitation plan must be reviewed and revised accordingly by the individual treatment planning team. A habilitation plan must be reviewed monthly.

(8) Each resident placed in the community must receive transitional habilitation assistance.

(9) The superintendent of the residential facility, or the superintendent's designee, shall report in writing to the parents or guardian of the resident or the responsible person at least every 6 months on the resident's habilitation and medical condition. The report must also state any appropriate habilitation program that has not been afforded to the resident because of inadequate habilitation resources.

(10) Each resident, the parents or guardian of each resident, and the responsible person appointed by the court must promptly upon the resident's admission receive a written copy of and be orally informed of all the above standards for adequate habilitation, the rights accorded by 53-20-142, and other information concerning the care and habilitation of the resident that may be available to assist them in understanding the situation of the resident and the rights of the resident in the facility.

53-20-161. Maintenance of records. (1) Complete records for each resident must be maintained and must be readily available to persons who are directly involved with the particular resident and to the mental disabilities board of visitors. All information contained in a resident's records must be considered privileged and confidential. The parents or guardian, the responsible person appointed by the court, and any person properly authorized in writing by the resident, if the resident is capable of giving informed consent, or by the resident's parents or guardian or the responsible person must be permitted access to the resident's records. Information may not be released from the records of a resident or former resident of the residential facility unless the release of the information has been properly authorized in writing by:

(g) the superintendent of the residential facility or the superintendent's designee as custodian of a resident under the age of majority for whom there is no parent or legal guardian; or

(h) the superintendent of the residential facility or the superintendent's designee as custodian of a resident of that facility whenever release is required by federal or state law or department of public health and human services rules.

(2) Information may not be released by a superintendent or the superintendent's designee as set forth in subsection (1)(f), (1)(g), or (1)(h) less than 15 days after sending notice of the proposed release of information to the resident, the resident's parents or guardian, the attorney who most recently represented the resident, if any, the responsible person appointed by the court, if any, the resident's advocate, if any, and the court that ordered the admission. If any of the parties so notified objects to the release of information, they may petition the court for a hearing to determine whether the release of information should be allowed. Information may not be released pursuant to subsection (1)(f), (1)(g), or (1)(h) unless it is released to further some legitimate need of the resident or to accomplish a legitimate purpose of the facility that is not inconsistent with the needs and rights of the resident. Information may not be released pursuant to subsection (1)(f), (1)(g), or (1)(h) except in accordance with written policies consistent with the requirements of this part adopted by the facility. Persons receiving notice of a proposed release of information must also receive a copy of the written policy of the facility governing release of information.

(3) These records must include:

(a) identification data, including the resident's legal status;

(b) the resident's history, including but not limited to:

(i) family data, educational background, and employment record;

(i) a medication history and status;

(j) a summary of each significant contact by a qualified mental retardation professional with a resident;

(k) a summary of the resident's response to the resident's habilitation plan, prepared by a qualified mental retardation professional involved in the resident's habilitation and recorded at least monthly. Wherever possible, the response must be scientifically documented.

(l) a monthly summary of the extent and nature of the resident's work activities and the effect of the activity upon the resident's progress in the habilitation plan;

(m) a signed order by a qualified mental retardation professional or physician for any physical restraints;

All resident care workers who have not had prior clinical experience in a residential facility for habilitation of persons with developmental disabilities must be given suitable orientation training. 53-20-164. Resident labor. The following rules govern resident labor:

(1) A resident may not be required to perform labor that involves the operation and maintenance of the facility or for which the facility is under contract with an outside organization. Privileges or release from the facility may not be conditioned upon the performance of labor covered by this provision. Residents may voluntarily engage in such labor if the labor is compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(2) A resident may not be involved in the care (feeding, clothing, bathing), training, or supervision of other residents unless he:

(a) has volunteered;

(b) has been specifically trained in the necessary skills;

(c) has the humane judgment required for such activities;

(d) is adequately supervised; and

(e) is reimbursed in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(3) Residents may be required to perform vocational training tasks that do not involve the operation and maintenance of the facility, subject to a presumption that an assignment of longer than 3 months to any task is not a training task, provided the specific task or any change in task assignment is:

(a) an integrated part of the resident's habilitation plan and approved as a habilitation activity by the qualified mental retardation professional and the individual treatment planning team responsible for supervising the resident's habilitation; and

(b) supervised by a staff member to oversee the habilitation aspects of the activity.

(4) Residents may voluntarily engage in habilitative labor at nonprogram hours for which the facility would otherwise have to pay an employee, provided the specific labor or any change in labor is:

(a) an integrated part of the resident's habilitation plan and approved as a habilitation activity by the qualified mental retardation professional and the individual treatment planning team responsible for supervising the resident's habilitation;

(b) supervised by a staff member to oversee the habilitation aspects of the activity; and

(c) compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(5) If a resident performs habilitative labor that involves the operation and maintenance of a facility but due to physical or mental disability is unable to perform the labor as efficiently as a person not so physically or mentally disabled, then the resident may be compensated at a rate that bears the same approximate relation to the statutory minimum wage as his ability to perform that particular job bears to the ability of a person not so afflicted.

(6) Residents may be required to perform tasks of a personal housekeeping nature, such as the making of one's own bed.

(7) Deductions or payments for care and other charges may not deprive a resident of a reasonable amount of the compensation received pursuant to this section for personal and incidental purchases and expenses.

(8) Staffing must be sufficient so that the facility is not dependent upon the use of residents or volunteers for the care, maintenance, or habilitation of other residents or for income-producing services. The facility shall formulate a written policy to protect the residents from exploitation when they are engaged in productive work.

53-21-124. Detention of respondent pending hearing or trial — jail prohibited. (1) The court may not order detention of a respondent pending the hearing unless requested by the county attorney and upon the existence of probable cause for detention. Counsel must be orally notified immediately. Counsel for the respondent may then request a detention hearing, which must be held immediately.

(2) In the event of detention, the respondent must be detained in the least restrictive setting necessary to ensure the respondent's presence and ensure the safety of the respondent and of others as provided in 53-21-120.

(3) If the respondent is detained, the respondent has the right to be examined additionally by a professional person of the respondent's choice, which may not depend on the respondent's ability to pay, and the respondent must be informed of this right. Unless objection is made by counsel for the respondent, the respondent must continue to be evaluated and treated by the professional person pending the hearing.

(4) A respondent may not be detained in a jail or other correctional facility pending a hearing or trial to determine whether the respondent should be committed to a mental health facility.

53-21-126. Trial or hearing on petition. (1) The respondent must be present unless the respondent's presence has been waived as provided in 53-21-119(2), and the respondent must be represented by counsel at all stages of the trial. The trial must be limited to the determination of whether or not the respondent is suffering from a mental disorder and requires commitment. At the trial, the court shall consider all the facts relevant to the issues of whether the respondent is suffering from a mental disorder. If the court determines that the respondent is suffering from a mental disorder, the court shall then determine whether the respondent requires commitment. In determining whether the respondent requires commitment and the appropriate disposition under 53-21-127, the court shall consider the following:

(a) whether the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) whether the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) whether, because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; and

(d) whether the respondent's mental disorder, as demonstrated by the respondent's recent acts or omissions, will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(2) The standard of proof in a hearing held pursuant to this section is proof beyond a reasonable doubt with respect to any physical facts or evidence and clear and convincing evidence as to all other matters. However, the respondent's mental disorder must be proved to a reasonable medical certainty. Imminent threat of self-inflicted injury or injury to others must be proved by overt acts or omissions, sufficiently recent in time as to be material and relevant as to the respondent's present condition.

(3) The professional person appointed by the court must be present for the trial and subject to cross-examination. The trial is governed by the Montana Rules of Civil Procedure. However, if the issues are tried by a jury, at least two-thirds of the jurors shall concur on a finding that the respondent is suffering from a mental disorder and requires commitment. The written report of the professional person that indicates the professional person's diagnosis may be attached to the petition, but any matter otherwise inadmissible, such as hearsay matter, is not admissible merely because it is contained in the report. The court may order the trial closed to the public for the protection of the respondent.

(4) The professional person may testify as to the ultimate issue of whether the respondent is suffering from a mental disorder and requires commitment. This testimony is insufficient unless accompanied by evidence from the professional person or others that:

(a) the respondent, because of a mental disorder, is substantially unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety;

(b) the respondent has recently, because of a mental disorder and through an act or an omission, caused self-injury or injury to others;

(c) because of a mental disorder, there is an imminent threat of injury to the respondent or to others because of the respondent's acts or omissions; or

(d) (i) the respondent's mental disorder:

(A) has resulted in recent acts, omissions, or behaviors that create difficulty in protecting the respondent's life or health;

(B) is treatable, with a reasonable prospect of success;

(C) has resulted in the respondent's refusing or being unable to consent to voluntary admission for treatment; and

(ii) will, if untreated, predictably result in deterioration of the respondent's mental condition to the point at which the respondent will become a danger to self or to others or will be unable to provide for the respondent's own basic needs of food, clothing, shelter, health, or safety. Predictability may be established by the respondent's relevant medical history.

(5) The court, upon the showing of good cause and when it is in the best interests of the respondent, may order a change of venue.

53-21-127. Posttrial disposition. (1) If, upon trial, it is determined that the respondent is not suffering from a mental disorder or does not require commitment within the meaning of this part, the respondent must be discharged and the petition dismissed.

(2) If it is determined that the respondent is suffering from a mental disorder and requires commitment within the meaning of this part, the court shall hold a posttrial disposition hearing. The disposition hearing must be held within 5 days (including Saturdays, Sundays, and holidays unless the fifth day falls on a Saturday, Sunday, or holiday), during which time the court may order further evaluation and treatment of the respondent.

(3) At the conclusion of the disposition hearing and pursuant to the provisions in subsection (7), the court shall:

(a) commit the respondent to the state hospital for a period of not more than 3 months; or

(b) commit the respondent to a community facility or program or to any appropriate course of treatment, which may include housing or residential requirements, for a period of not more than 6 months.

(4) Except as provided in subsection (3)(b), a treatment ordered pursuant to this section may not affect the respondent's custody or course of treatment for a period of more than 3 months.

(5) In determining which of the alternatives in subsection (3) to order, the court shall choose the least restrictive alternatives necessary to protect the respondent and the public and to permit effective treatment.

(6) The court may authorize the chief medical officer of a facility or a physician designated by the court to administer appropriate medication involuntarily if the court finds that involuntary medication is necessary to protect the respondent or the public or to facilitate effective treatment. Medication may not be involuntarily administered to a patient unless the chief medical officer of the facility or a physician designated by the court approves it prior to the beginning of the involuntary administration and unless, if possible, a medication review committee reviews it prior to the beginning of the involuntary administration or, if prior review is not possible, within 5 working days after the beginning of the involuntary administration. The medication review committee must include at least one person who is not an employee of the facility or program. The patient and the patient's attorney or advocate, if the patient has one, must receive adequate written notice of the date, time, and place of the review and must be allowed to appear and give testimony and evidence. The involuntary administration of medication must be again reviewed by the committee 14 days and 90 days after the beginning of the involuntary administration if medication is still being involuntarily administered. The mental disabilities board of visitors and the director of the department of public health and human services must be fully informed of the matter within 5 working days after the beginning of the involuntary administration. The director shall report to the governor on an annual basis.

(7) Satisfaction of any one of the criteria listed in 53-21-126(1) justifies commitment pursuant to this chapter. However, if the court relies solely upon the criterion provided in 53-21-126(1)(d), the court may require commitment only to a community facility or program or an appropriate course of treatment as provided in subsection (3)(b), and may not require commitment at the state hospital.

(8) In ordering commitment pursuant to this section, the court shall make the following findings of fact:

(a) a detailed statement of the facts upon which the court found the respondent to be suffering from a mental disorder and requiring commitment;

(b) the alternatives for treatment that were considered;

(c) the alternatives available for treatment of the respondent;

(d) the reason that any treatment alternatives were determined to be unsuitable for the respondent;

(e) the name of the facility, program, or individual to be responsible for the management and supervision of the respondent's treatment;

(f) if the order includes a requirement for inpatient treatment, the reason inpatient treatment was chosen from among other alternatives; and

(g) if the order includes involuntary medication, the reason involuntary medication was chosen from among other alternatives.

53-21-128. Petition for extension of commitment period. (1) (a) Not less than 2 calendar weeks prior to the end of the 3-month period of commitment to the state hospital or the period of commitment to a community facility or program or a course of treatment provided for in 53-21-127, the professional person in charge of the patient at the place of commitment may petition the district court in the county where the patient is committed for extension of the commitment period unless otherwise ordered by the original committing court. The petition must be accompanied by a written report and evaluation of the patient's mental and physical condition. The report must describe any tests and evaluation devices that have been employed in evaluating the patient, the course of treatment that was undertaken for the patient, and the future course of treatment anticipated by the professional person.

(b) Upon the filing of the petition, the court shall give written notice of the filing of the petition to the patient, the patient's next of kin, if reasonably available, the friend of respondent appointed by the court, and the patient's counsel. If any person notified requests a hearing prior to the termination of the previous commitment authority, the court shall immediately set a time and place for a hearing on a date not more than 10 days from the receipt of the request and notify the same people, including the professional person in charge of the patient. If a hearing is not requested, the court shall enter an order of commitment for a period not to exceed 6 months.

(c) Procedure on the petition for extension when a hearing has been requested must be the same in all respects as the procedure on the petition for the original 3-month commitment except the patient is not entitled to trial by jury. The hearing must be held in the district court having jurisdiction over the facility in which the patient is detained unless otherwise ordered by the court. Court costs and witness fees, if any, must be paid by the county that paid the same costs in the initial commitment proceedings.

(d) If upon the hearing the court finds the patient not to be suffering from a mental disorder and requiring commitment within the meaning of this part, the patient must be discharged and the petition dismissed. If the court finds that the patient continues to suffer from a mental disorder and to require commitment, the court shall order commitment as set forth in 53-21-127(3). However, an order may not affect the patient's custody for more than 6 months. In its order, the court shall describe what alternatives for treatment of the patient are available, what alternatives were investigated, and why the investigated alternatives were not found suitable. The court may not order continuation of an alternative that does not include a comprehensive, individualized plan of treatment for the patient. A court order for the continuation of an alternative must include a specific finding that a comprehensive, individualized plan of treatment exists.

(2) Prior to the end of the period of commitment to a community facility or program or course of treatment, a respondent may request that the treating provider petition the district court for an extension of the commitment order. The petition must be accompanied by a written report and evaluation of the respondent's mental and physical condition, an updated treatment plan, and a written statement by the respondent that an extension is desired. The extension procedure must follow the procedure required in subsections (1)(b) through (1)(d).

(3) Further extensions under subsection (1) or (2) may be obtained under the same procedure described in subsection (1). However, the patient's custody may not be affected for more than 1 year without a renewal of the commitment under the procedures set forth in subsection (1), including a statement of the findings required by subsection (1).

53-21-129. Emergency situation — petition — detention. (1) When an emergency situation exists, a peace officer may take any person who appears to have a mental disorder and to present an imminent danger of death or bodily harm to the person or to others into custody only for sufficient time to contact a professional person for emergency evaluation. If possible, a professional person should be called prior to taking the person into custody.

(2) If the professional person agrees that the person detained is a danger to the person or to others because of a mental disorder and that an emergency situation exists, then the person may be detained and treated until the next regular business day. At that time, the professional person shall release the detained person or file findings with the county attorney who, if the county attorney determines probable cause to exist, shall file the petition provided for in 53-21-121 through 53-21-126 in the county of the respondent's residence. In either case, the professional person shall file a report with the court explaining the professional person's actions.

(3) The county attorney of a county may make arrangements with a federal, state, regional, or private mental facility or with a mental health facility in a county for the detention of persons held pursuant to this section. If an arrangement has been made with a facility that does not, at the time of the emergency, have a bed available to detain the person at that facility, the person may be transported to the state hospital for detention and treatment as provided in this part. This determination must be made on an individual basis in each case, and the professional person at the local facility shall certify to the county attorney that the facility does not have adequate room at that time.

(4) However, before a person is transferred to the state hospital under this section, the state hospital must be notified prior to transfer and shall state that a bed is available for the person.

53-21-130. Transfer or commitment to mental health facility from other institutions. (1) A person who is in the custody of the department for any purpose other than treatment of severe mental illness may not be transferred or committed to a mental health facility for more than 10 days unless the transfer or commitment is effected according to the procedures set out in this part. However, proceedings for involuntary commitment may be commenced in the county of the mental health facility where the person is, in the county of the institution from which the person was transferred to the mental health facility, or in the county of the person's residence. Notice of a transfer must be given immediately to the assigned counsel at the mental health facility and to the parents of minors, guardians, friends of respondent, or conservators.

(2) A person who is in the custody of the department of corrections may be transferred for placement in a mental health facility for a period of up to 10 days, subject to the approval of the mental health facility. A placement in excess of 10 days must be performed according to the procedures for voluntary admission or involuntary commitment as provided in this part. Proceedings for involuntary commitment may be commenced in the county of the mental health facility where the person is placed or in the county of the correctional facility from which the person was transferred. 53-21-131. Appeal procedure. Appellate review of any order of short-term evaluation and treatment or long-term commitment may be had by appeal to the supreme court of Montana in the manner as other civil cases, except that the appeal may be taken at any time within 90 days of the actual service of the written notice of the right to appeal required by 53-21-114 or within 90 days after discharge, whichever is later. 53-21-132. Cost of examination and commitment. (1) The cost of precommitment examination, detention, treatment, and taking a person who is suffering from a mental disorder and who requires commitment to a mental health facility must be paid by the county in which the person resides at the time that the person is committed. The sheriff must be allowed the actual expenses incurred in taking a committed person to the facility, as provided by 7-32-2144.

(2) The county of residence shall also pay all precommitment expenses, including transportation to a mental health facility, incurred in connection with the detention, examination, and precommitment custody of the respondent. However, the county of residence is not required to pay costs of treatment and custody of the respondent after the respondent is committed pursuant to this part. Precommitment costs related to the use of two-way electronic audio-video communication in the county of commitment must be paid by the county in which the person resides at the time that the person is committed. The costs of the use of two-way electronic audio-video communication from the state hospital for a patient who is under a voluntary or involuntary commitment to the state hospital must be paid by the state. The fact that a person is examined, hospitalized, or receives medical, psychological, or other mental health treatment pursuant to this part does not relieve a third party from a contractual obligation to pay for the cost of the examination, hospitalization, or treatment.

(3) The adult respondent or the parent or guardian of a minor shall pay the cost of treatment and custody ordered pursuant to 53-21-127, except to the extent that the adult or minor is eligible for public mental health program funds.

(4) A community service provider that is a private, nonpublic provider may not be required to treat or treat without compensation a person who has been committed.

53-21-133. Transfer to nonstate facilities. (1) If a person is committed under the provisions of this part and is eligible for hospital care or treatment by an agency of the United States and if a certificate of notification from such agency showing that facilities are available and that the person is eligible for care or treatment therein is received, the court may order the person to be placed in the custody of the agency for hospitalization. The chief officer of any hospital or institution operated by such an agency and in which a person is so hospitalized shall be vested with the same powers as the superintendent of the state hospital with respect to detention, custody, transfer, conditional release, or discharge of the person. Jurisdiction shall be retained in the appropriate courts of this state to inquire into the mental condition of persons so hospitalized and to determine the necessity for continuance of their hospitalization.

53-21-139. Crisis intervention programs. (1) The department shall, subject to available appropriations, establish crisis intervention programs. The programs must be designed to provide 24-hour emergency admission and care of persons suffering from a mental disorder and requiring commitment in a temporary, safe environment in the community as an alternative to placement in jail.

(2) The department shall provide information and technical assistance regarding needed services and assist counties in developing county plans for crisis intervention services and for the provision of alternatives to jail placement.

(3) The department may provide crisis intervention programs as:

(a) a rehabilitative service under 53-6-101(3)(j); and

(b) a targeted case management service authorized in 53-6-101(3)(n).

53-21-140. Use of two-way electronic audio-video communication. (1) For purposes of this chapter, a hearing that is conducted by the use of two-way electronic audio-video communication, allowing all of the participants to be observed and heard by all present, is considered to be a hearing in open court.

(2) Whenever the law requires that a respondent or patient in any of the hearings provided for in subsection (3) be present before a court, this requirement may, in the discretion of the court, be satisfied either by the respondent's or patient's physical appearance before the court or by two-way electronic audio-video communication. The audio-video communication must operate so that the respondent or patient, the respondent's or patient's counsel, and the judge can see each other simultaneously and converse with each other, so that the respondent or patient and the respondent's or patient's counsel can communicate privately, and so that the respondent or patient and counsel are both present during the two-way electronic audio-video communication. A respondent or patient may request that counsel from the board of visitors be present, for consulting purposes only, if the respondent or patient is located at the state hospital.

(3) At the discretion of the court, the following hearings may be conducted through two-way electronic audio-video communication:

(a) the initial hearing provided for in 53-21-122;

(b) the detention hearing provided for in 53-21-124;

(c) the trial or hearing on a petition provided for in 53-21-126;

(d) a hearing on posttrial disposition as provided for in 53-21-127;

(e) a hearing on the extension of a commitment period as provided for in 53-21-128;

(f) a hearing on rehospitalization of a person conditionally released from an inpatient treatment facility as provided for in 53-21-197;

(g) a hearing on an extension of the conditions of release as provided for in 53-21-198.

(4) This section does not abrogate a person's rights under 53-21-115, 53-21-116, or 53-21-117. A respondent or patient, the respondent's or patient's counsel, and a friend of the respondent or patient, if any, must be informed of these rights prior to a hearing by two-way electronic audio-video communication in lieu of a hearing in person. A respondent or patient or the respondent's or patient's counsel and a friend of the respondent or patient, acting together, may waive any of the rights, as provided under 53-21-119.

(5) If a respondent or patient, the respondent's or patient's counsel, or the professional person object to two-way electronic audio-video communication in lieu of a hearing in person, the court may not allow a two-way electronic audio-video communication.

53-21-141. Civil and legal rights of person committed. (1) Unless specifically stated in an order by the court, a person involuntarily committed to a facility for a period of evaluation or treatment does not forfeit any legal right or suffer any legal disability by reason of the provisions of this part except insofar as it may be necessary to detain the person for treatment, evaluation, or care. All communication between an alleged mentally ill person and a professional person is privileged under normal privileged communication rules unless it is clearly explained to the person in advance that the purpose of an interview is for evaluation and not treatment.

(2) Whenever a person is committed to a mental health facility for a period of 3 months or longer, the court ordering the commitment may make an order stating specifically any legal rights which are denied the respondent and any legal disabilities which are imposed on him. As part of its order, the court may appoint a person to act as conservator of the respondent's property. Any conservatorship created pursuant to this section terminates upon the conclusion of the involuntary commitment if not sooner terminated by the court. A conservatorship or

guardianship extending beyond the period of involuntary commitment may not be created except according to the procedures set forth under Montana law for the appointment of conservators and guardians generally. In the case of a person admitted to a program or facility for the purpose of receiving mental health services, an individual employed by or receiving remuneration from the program or facility may not act as the person's guardian or representative unless the program or facility can demonstrate that no other person is available or willing to act as the person's guardian or representative.

(3) A person who has been committed to a mental health facility pursuant to this part is automatically restored upon the termination of the commitment to all of his civil and legal rights which may have been lost when he was committed. This subsection does not affect, however, a guardianship or conservatorship created independently of the commitment proceedings according to the provisions of Montana law relating to the appointment of conservators and guardians generally. A person who leaves a mental health facility following a period of evaluation and treatment shall be given a written statement setting forth the substance of this subsection.

(4) A person committed to a mental health facility prior to July 1, 1975, enjoys all the rights and privileges of a person committed after that date.

(1) Patients have a right to privacy and dignity.

(2) Patients have a right to the least restrictive conditions necessary to achieve the purposes of commitment. Patients must be accorded the right to appropriate treatment and related services in a setting and under conditions that:

(a) are the most supportive of the patient's personal liberty; and

(b) restrict the patient's liberty only to the extent necessary and consistent with the patient's treatment need, applicable requirements of law, and judicial orders.

(3) Patients shall have the same rights to visitation and reasonable access to telephone communications, including the right to converse with others privately, except to the extent that the professional person responsible for formulation of a particular patient's treatment plan writes an order imposing special restrictions. The written order must be renewed after each periodic review of the treatment plan if any restrictions are to be continued. Patients shall have an unrestricted right to visitation with attorneys, with spiritual counselors, and with private physicians and other professional persons.

(4) Patients shall have an unrestricted right to send sealed mail. Patients shall have an unrestricted right to receive sealed mail from their attorneys, private physicians and other professional persons, the mental disabilities board of visitors, courts, and government officials. Patients shall have a right to receive sealed mail from others except to the extent that a professional person responsible for formulation of a particular patient's treatment plan writes an order imposing special restrictions on receipt of sealed mail. The written order must be renewed after each periodic review of the treatment plan if any restrictions are to be continued.

(5) Patients have an unrestricted right to have access to letter-writing materials, including postage, and have a right to have staff members of the facility assist persons who are unable to write, prepare, and mail correspondence.

(6) Patients have a right to wear their own clothes and to keep and use their own personal possessions, including toilet articles, except insofar as such clothes or personal possessions may be determined by a professional person in charge of the patient's treatment plan to be dangerous or otherwise inappropriate to the treatment regimen. The facility has an obligation to supply an adequate allowance of clothing to any patients who do not have suitable clothing of their own. Patients shall have the opportunity to select from various types of neat, clean, and

seasonable clothing. Such clothing shall be considered the patient's throughout his stay at the facility. The facility shall make provision for the laundering of patient clothing.

(7) Patients have the right to keep and be allowed to spend a reasonable sum of their own money.

(8) Patients have the right to religious worship. Provisions for such worship shall be made available to all patients on a nondiscriminatory basis. No individual shall be required to engage in any religious activities.

Patients have a right to be outdoors at regular and frequent intervals in the absence of contrary medical considerations.

(10) Patients have the right to be provided, with adequate supervision, suitable opportunities for interaction with members of the opposite sex except to the extent that a professional person in charge of the patient's treatment plan writes an order stating that such interaction is inappropriate to the treatment regimen.

(11) Patients have a right to receive prompt and adequate medical treatment for any physical ailments. In providing medical care, the mental health facility shall take advantage of whatever community-based facilities are appropriate and available and shall coordinate the patient's treatment for mental illness with his medical treatment.

(12) Patients have a right to a diet that will provide at a minimum the recommended daily dietary allowances as developed by the national academy of sciences. Provisions shall be made for special therapeutic diets and for substitutes at the request of the patient or the friend of respondent in accordance with the religious requirements of any patient's faith. Denial of a nutritionally adequate diet shall not be used as punishment.

(13) Patients have a right to a humane psychological and physical environment within the mental health facilities. These facilities shall be designed to afford patients with comfort and safety, promote dignity, and ensure privacy. The facilities shall be designed to make a positive contribution to the efficient attainment of the treatment goals set for the patient. In order to assure the accomplishment of this goal:

(a) regular housekeeping and maintenance procedures which will ensure that the facility is maintained in a safe, clean, and attractive condition shall be developed and implemented;

(b) there must be special provision made for geriatric and other nonambulatory patients to assure their safety and comfort, including special fittings on toilets and wheelchairs. Appropriate provision shall be made to permit nonambulatory patients to communicate their needs to the facility staff.

(c) pursuant to an established routine maintenance and repair program, the physical plant of every facility shall be kept in a continuous state of good repair and operation in accordance with the needs of the health, comfort, safety, and well-being of the patients;

(d) every facility must meet all fire and safety standards established by the state and locality. In addition, any hospital shall meet such provisions of the life safety code of the national fire protection association as are applicable to hospitals. Any hospital shall meet all standards established by the state for general hospitals insofar as they are relevant to psychiatric facilities.

(a) to be informed of the rights described in this section at the time of his admission and periodically thereafter, in language and terms appropriate to the patient's condition and ability to understand;

(b) to assert grievances with respect to infringement of the rights described in this section, including the right to have a grievance considered in a fair and timely manner according to an impartial grievance procedure that must be provided for by the facility; and

(c) to exercise the rights described in this section without reprisal and may not be denied admission to the facility as reprisal for the exercise of the rights described in this section.

(15) In order to assist a person admitted to a program or facility in the exercise or protection of the patient's rights, the patient's attorney, advocate, or legal representatives shall have reasonable access to:

(a) the patient;

(b) the program or facility areas where the patient has received treatment or has resided or the areas to which he has had access; and

(c) pursuant to the written authorization of the patient, records and information pertaining to the patient's diagnosis, treatment, and related services.

(16) A person admitted to a facility shall have access to any available individual or service that provides advocacy for the protection of the person's rights and that assists the person in understanding, exercising, and protecting his rights as described in this section.

(17) This section may not:

(a) obligate a professional person to administer treatment contrary to the professional's clinical judgment;

(b) prevent a facility from discharging a patient for whom appropriate treatment, consistent with the clinical judgment of a professional person responsible for the patient's treatment, is or has become impossible to administer because of the patient's refusal to consent to the treatment;

(c) require a facility to admit a person who has, on prior occasions, repeatedly withheld consent to appropriate treatment; or

(d) obligate a facility to treat a person admitted to the facility solely for diagnostic evaluation.

Such written order shall be effective for no more than 24 hours and must be renewed if restraint and isolation are to be continued. An inpatient facility that is furnished a copy of a mental health advance directive shall comply with the directive and shall make the directive a part of the individual's medical record.

(2) The directive may address any combination of the following subjects:

(a) who should be notified promptly in the event of the individual's admission to or treatment at the facility;

(b) a statement that once signed, a directive of which the facility is furnished a copy takes effect upon the determination of the lack of mental capacity by the treating mental health professional of the individual and remains in effect until:

(i) revoked by the individual, orally or in writing, at a time that the individual has the mental capacity to revoke the advance directive, as determined by the treating mental health professional;

(ii) the directive expires by its own terms; or

(iii) the individual dies;

(c) the signature of the individual; and

(d) the signature of two witnesses.

(4) (a) An individual may revoke a mental health advance directive provided that the mental health professional chosen by or provided for the individual determines in good faith that the individual has sufficient mental capacity to revoke the directive. The inpatient facility shall make a valid revocation a part of the individual's medical record.

(b) An advance directive is valid and enforceable only with respect to the matters provided for in subsection (2) even if the directive addresses subjects in addition to those provided for in this section.

(5) If an inpatient facility fails to act in accordance with a mental health advance directive of which the facility was furnished a copy, an individual who has executed the mental health

advance directive or who has the right to be notified or to visit the individual at the facility pursuant to a mental health advance directive has a cause of action against the facility for injunctive relief and reasonable costs and attorney fees incurred in bringing the action.

(d) "Mental capacity" means sufficient ability to make or communicate decisions regarding a need for treatment.

Privileges or release from the facility shall not be conditioned upon the performance of labor covered by this provision. Patients may voluntarily engage in such labor if the labor is compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(2) (a) Patients may be required to perform therapeutic tasks which do not involve the operation and maintenance of the facility, provided the specific task or any change in assignment is:

(i) an integrated part of the patient's treatment plan and approved as a therapeutic activity by a professional person responsible for supervising the patient's treatment; and

(ii) supervised by a staff member to oversee the therapeutic aspects of the activity.

(b) Patients may voluntarily engage in therapeutic labor for which the facility would otherwise have to pay an employee, provided the specific labor or any change in labor assignment is:

(i) an integrated part of the patient's treatment plan and approved as a therapeutic activity by a professional person responsible for supervising the patient's treatment;

(iii) compensated in accordance with the minimum wage laws of the Fair Labor Standards Act of 1938, 29 U.S.C. 206, as amended.

(3) If any patient performs therapeutic labor which involves the operation and maintenance of a facility but due to physical or mental disability is unable to perform the labor as efficiently as a person not so physically or mentally disabled, then the patient may be compensated at a rate which bears the same approximate relation to the statutory minimum wage as his ability to perform that particular job bears to the ability of a person not so afflicted.

(4) Patients may be required to perform tasks of a personal housekeeping nature, such as the making of one's own bed.

(5) Deductions or payments for care and other charges shall not deprive a patient of a reasonable amount of the compensation received pursuant to this section for personal and incidental purchases and expenses.

(2) A revocation of the patient's conditional release status under subsection (1) must be based on the testimony of the professional person responsible for the patient's case.

(3) If the court revokes the patient's conditional release status pursuant to subsection (1), a treatment plan must be updated or a new plan prepared for the patient as required by and within the time set forth in 53-21-162.

(4) Except as provided in 53-21-198, an order revoking the patient's conditional release status may not order hospitalization or impose other conditions of release that extend beyond the expiration date of the order committing the patient under 53-21-127 or 53-21-128.

History: En. Sec. 4, Ch. 541, L. 1985; amd. Sec. 33, Ch. 490, L. 1997.

53-21-198. Extension of conditions of release — hearing. (1) Conditions of release may be extended by the district court beyond the expiration date of the order committing the patient under 53-21-127 or 53-21-128, but in no case for longer than 2 years beyond that date, upon a showing by clear and convincing evidence that:

(a) continuation of the conditions of release is necessary to prevent the deterioration of the patient's mental disorder; and

(b) the deterioration will predictably result in the necessity of further inpatient care for the patient. Predictability may be established by the patient's medical history.

(2) Not less than 2 calendar weeks prior to the end of the period of detention ordered under 53-21-127 or 53-21-128 or the period of extension ordered under subsection (5) of this section, the professional person responsible for the patient's case may petition the court for extension of the conditions of release. The petition must be accompanied by a written report and evaluation of the patient's mental and physical condition. The report must describe any tests and evaluation devices that have been employed in evaluating the patient, the course of treatment that has been undertaken for the patient, and the future course of treatment anticipated by the professional person.

(3) Upon the filing of the petition, the court shall give written notice of the filing of the petition to the patient, the patient's next of kin, if reasonably available, the friend of respondent appointed by the court, if any, and the patient's counsel. If any person notified requests a hearing prior to the end of the period of detention ordered under 53-21-127 or 53-21-128, the court shall immediately set a time and place for a hearing on a date not more than 10 days from the receipt of the request and notify the same people, including the professional person in charge of the patient. If a hearing is not requested, the court shall enter an order extending the conditions of release for a period not to exceed 6 months.

(4) Procedure on the petition for extension is the same in all respects as the procedure for hearing on a rehospitalization petition pursuant to 53-21-197. However, in an extension proceeding, the finding required is that set forth in subsection (1) of this section. The hearing must be held in the district court for the county in which the patient is residing. Court costs and witness fees, if any, must be paid by the county that paid the same costs in the initial commitment proceeding.

(5) If upon the hearing the court finds that the showing required by subsection (1) has not been made, the conditions of release may not be extended. If the court finds that the required showing has been made, the court may extend the conditions of release as recommended by the professional person. In its order, the court shall describe what alternatives for treatment of the patient are available, what alternatives were investigated, and why the investigated alternatives were not considered suitable. The court may not order continuation of an alternative that does not include a comprehensive, individualized plan of treatment for the patient, as required by 53-21-162. A court order for the continuation of an alternative must include a specific finding that a comprehensive, individualized plan of treatment exists.

(6) Further extensions may be obtained under the same procedure described in this section. However, the patient's custody may not be affected for more than 1 year without a renewal of the extension under the procedures set forth in this section, including a hearing and a statement of the findings required by subsection (5). Extensions under this subsection may not extend the 2-year extension limitation provided in subsection (1).

(2) The mental health regions must be established under Title 35, chapter 2. Upon incorporation, a mental health region may enter into contracts with the department in order to carry out the department's comprehensive plan for mental health. These nonprofit corporations may not be considered agencies of the department or the state of Montana.

(3) Upon the establishment of the mental health regions, the county commissioners in each of the counties in the region designated as participating counties pursuant to subsection (8) shall appoint a person from their respective county to serve as a representative of the county on the regional mental health corporation board. In addition, unless the groups in subsections (3)(a) and (3)(b) are already represented, the board consists of three members-at-large who must be chosen according to the corporate bylaws, as follows:

Part 7
Mental Health Managed Care

53-21-701. Mental health managed care allowed — contract. (1) The department of public health and human services may contract with one or more persons for the management of comprehensive mental health services for medicaid recipients, as provided in 53-6-116, and for persons in households not eligible for medicaid with family income that does not exceed 160% of the federal poverty threshold or that does not exceed a lesser amount determined in the discretion of the department. The department shall determine whether or not a potential contractor that will serve medicaid enrollees is a managed care community network, as defined in 53-6-702, prior to entering into a contract and shall ensure that each contractor that qualifies as a managed care community network complies with the provisions of Title 53, chapter 6, part 7, for the medicaid portion of the program.

(2) A managed care system is a program organized to serve the mental health needs of recipients in an efficient and cost-effective manner by managing the receipt of comprehensive mental health care and services for a geographical or otherwise defined population of recipients through appropriate health care professionals. The management of mental health care services must provide for services in the most cost-effective manner through coordination and management of the appropriate level of care and appropriate level of services.

(3) The department may enter into one or more contracts with a managed health care entity, as defined in 53-6-702, for the administration or delivery of mental health services. These contracts may be based upon a fixed monetary amount or a capitated amount for each individual, and a contractor may assume all or a part of the financial risk of providing and making payment for services to a set population of eligible individuals if the contractor has complied with Title 53, chapter 6, part 7. The department may require the participation of recipients in managed care systems based upon geographical, financial, medical, or other factors that the department may determine are relevant to the development and efficient operation of the managed care systems. Any contract for delivery of mental health care services that includes hospitalization or physician services, or both, must include a provision that, prior to final award of a contract, a successful bidder that serves adults shall enter into an agreement regarding the Montana state hospital and the Montana mental health nursing care center that is consistent with 53-1-402, 53-1-413, and 90-7-312 and that includes financial incentives for the development and use of community-based services, rather than the use of the state institutional services.

(4) The department shall formally evaluate contract performance with regard to specific outcome measures. The department shall explicitly identify performance and outcome measures that contractors are required to achieve in order to comply with contract requirements and to continue the contract. The contract must provide for progressive intermediate sanctions that may be imposed for nonperformance. The contract performance evaluation must include a section concerning contract enforcement, including any sanctions imposed along with the rationale for not imposing a sanction when the imposition is authorized. The evaluation must be performed at least annually.

(3) The department shall establish the amount, scope, and duration of services to be provided under the program. Transfer to nonstate facilities, 53-21-133.

53-22-101. Enactment of compact. The Interstate Compact on Mental Health as contained herein is hereby enacted into law and entered into by this state with all other jurisdictions legally joining therein in the form substantially as follows:

The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

(1) "sending state" means a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent;

(2) "receiving state" means a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent;

(3) "institution" means any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency;

(4) "patient" means any person subject to or eligible, as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact;

(5) "aftercare" means care, treatment, and services provided a patient, as defined herein, on convalescent status or conditional release;

(6) "mental illness" means mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, the welfare of others, or of the community;

(7) "mental deficiency" means mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs but shall not include mental illness as defined herein; and

(8) "state" means any state, territory, or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(1) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement, or citizenship qualifications.

(2) The provisions of subsection (1) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this subsection shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

(3) No state shall be obliged to receive any patient pursuant to the provisions of subsection (2) of this article unless the sending state gives advance notice of its intention to send the patient, furnishes all available medical and other pertinent records concerning the patient, gives the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish, and unless the receiving state agrees to accept the patient.

(4) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(5) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(1) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive aftercare or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that aftercare in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such aftercare in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(2) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby and if the public safety would not be jeopardized thereby, the patient may receive aftercare or supervision in the receiving state.

(3) In supervising, treating, or caring for a patient on aftercare pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escapee in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact without interference.

Article VII

(1) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(2) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific arrangement for that purpose, arrange for a different allocation of costs as among themselves.

(3) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies, and officers of and in the government of a party state or between a party state and its subdivisions as to the payment of costs or responsibilities therefor.

(4) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency, or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(5) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a nonparty state relating to institutionalization, care, or treatment of the mentally ill or mentally deficient or any statutory authority pursuant to which such agreements may be made.

Article VIII

(1) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that, where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall, upon being duly advised of the new appointment and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances. In the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(2) The term "guardian" as used in subsection (1) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(1) No provisions of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(2) To every extent possible it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail, or lockup, but such patient shall with all expedition be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

(1) Each party state shall appoint a compact administrator who, on behalf of his state, shall act as general coordinator of activities under the compact in his state and who shall receive copies of all reports, correspondence, and other documents relating to any patient processed under the compact by his state either in the capacity of a sending or receiving state. The compact administrator or his duly designated representative shall be the official with whom other party states shall deal in any matter relating to the compact or any patient processed thereunder.

(2) The compact administrators of the respective party states shall have power to promulgate reasonable rules to carry out more effectively the terms and provisions of this compact.

Article XI

The duly constituted administrative authorities of any two or more party states may enter into supplementary agreements for the provision of any service or facility or for the maintenance of any institution on a joint or cooperative basis whenever the states concerned find that such agreements will improve services, facilities, or institutional care and treatment in the fields of mental illness or mental deficiency. No such supplementary agreement shall be construed so as to relieve any party state of any obligation which it otherwise would have under other provisions of this compact.

Article XII

This compact shall enter into full force and effect as to any state when enacted by it into law, and such state shall thereafter be a party thereto with any and all states legally joining therein.

Article XIII

(1) A state party to this compact may withdraw therefrom by enacting a statute repealing the same. Such withdrawal shall take effect 1 year after notice thereof has been communicated officially and in writing to the governors and compact administrators of all other party states. However, the withdrawal of any state shall not change the status of any patient who has been sent to said state or sent out of said state pursuant to the provisions of the compact.

(2) Withdrawal from any agreement permitted by Article VII(2) as to costs or from any supplementary agreement made pursuant to Article XI shall be in accordance with the terms of such agreement.

Article XIV

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

53-22-105. Court review. Before granting such approval, the court shall hold such hearings as it considers appropriate. General Provisions

53-24-101. Legislative purpose. It is the purpose of this chapter and the policy of this state to recognize chemical dependency as a problem affecting the health, safety, morals, economy, and general welfare of this state; to recognize chemical dependency as a problem subject to treatment; and to recognize the sufferer of chemical dependency as worthy of treatment and rehabilitation. It is the intent of this chapter to establish means whereby the appropriate resources of this state may be focused fully and effectively upon the problem of chemical dependency and utilized in implementing programs for the control and treatment of this problem.

The department shall adopt rules for acceptance of persons into the treatment program, considering available treatment resources and facilities, for the purpose of early and effective treatment of chemically dependent persons, intoxicated persons, and family members. In adopting the rules, the department must be guided by the following standards:

(2) A patient must be initially assigned or transferred to outpatient treatment unless found to require inpatient treatment.

(3) An individualized treatment plan must be prepared and maintained on a current basis for each person.

(4) Provision must be made for a continuum of coordinated treatment services so that a person who leaves a facility or a form of treatment will have available and use other appropriate treatment.

Each county shall also submit annual plan updates that include, at a minimum, allocation to approved programs of revenues generated by taxation on alcoholic beverages.

(2) The plan must have been approved by the board of county commissioners and must contain information regarding existing private and public chemical dependency programs

within the county. The plan must also contain information regarding the current and future needs of the county for the treatment, rehabilitation, and prevention of chemical dependency.

(3) The department shall approve or disapprove the countywide plan and annual updates. If the department disapproves a plan or update, the county may submit another plan or update to the department. In distributing funds to approved programs in a county, the department shall give consideration to the county plan.

Part 3
Treatment of Alcoholics and Intoxicated Persons

53-24-301. Treatment of the chemically dependent. (1) An applicant for voluntary admission or court-referred admission to an approved public treatment facility shall obtain confirmation from a licensed addiction counselor that the applicant is chemically dependent and appropriate for inpatient, freestanding care as described in the administrative rules. The department shall adopt rules to establish policies and procedures governing assessment, patient placement, confirmation, and admission to an approved public treatment facility. If the proposed patient is a minor or an incompetent person, the proposed patient, a parent, legal guardian, or other legal representative may make the application.

(2) Subject to rules adopted by the department, the administrator of an approved public treatment facility may determine who is admitted for treatment. If a person is refused admission to an approved public treatment facility, the administrator, subject to departmental rules, shall refer the person to an approved private treatment facility for treatment if possible and appropriate.

(3) If a patient receiving inpatient care leaves an approved public treatment facility, the patient must be encouraged to consent to appropriate outpatient or intermediate treatment. If it appears to the administrator of the treatment facility that the patient is chemically dependent and requires help, the department shall arrange for assistance in obtaining supportive services and residential facilities.

(4) If a patient leaves an approved public treatment facility, with or against the advice of the administrator of the facility, the department shall make reasonable provisions for the patient's transportation to another facility or to the patient's home. If the patient has no home, the patient must be assisted in obtaining shelter. If the patient is a minor or an incompetent person, the request for discharge from an inpatient facility must be made by a parent, legal guardian, or other legal representative or by the minor or incompetent, if the minor or incompetent person was the original applicant.

53-24-302. Involuntary commitment of alcoholics. (1) A person may be committed to the custody of the department by the district court upon the petition of the person's spouse or guardian, a relative, the certifying physician, or the chief of any approved public treatment facility. The petition must allege that the person is an alcoholic who habitually lacks self-control as to the use of alcoholic beverages and that the person has threatened, attempted, or inflicted physical harm on another and that unless committed is likely to inflict physical harm on another or is incapacitated by alcohol. A refusal to undergo treatment does not constitute evidence of lack of judgment as to the need for treatment. The petition must be accompanied by a certificate of a licensed physician who has examined the person within 2 days before submission of the petition unless the person whose commitment is sought has refused to submit to a medical examination, in which case the fact of refusal must be alleged in the petition. The certificate must set forth the physician's findings in support of the allegations of the petition. A physician employed by the admitting facility or the department is not eligible to be the certifying physician.

(2) Upon filing the petition, the court shall fix a date for a hearing no later than 10 days after the date the petition was filed. A copy of the petition and of the notice of the hearing, including the date fixed by the court, must be served on the petitioner, the person whose commitment is sought, the person's next of kin other than the petitioner, a parent or the person's legal guardian if the person is a minor, the administrator in charge of the approved public treatment facility to which the person has been committed for emergency care, and any other person the court believes advisable. A copy of the petition and certificate must be delivered to each person notified.

(3) At the hearing, the court shall hear all relevant testimony, including, if possible, the testimony of at least one licensed physician who has examined the person whose commitment is sought. The person has a right to have a licensed physician of the person's own choosing conduct an examination and testify on the person's behalf. If the person has no funds with which to pay the physician, the reasonable costs of one examination and testimony must be paid by the county. The person must be present unless the court believes that the person's presence is likely to be injurious to the person. The person must be advised of the right to counsel, and if the person is unable to hire counsel, the court shall appoint an attorney to represent the person at the expense of the county. The court shall examine the person in open court or, if advisable, shall examine the person in chambers. If the person refuses an examination by a licensed physician and there is sufficient evidence to believe that the allegations of the petition are true or if the court believes that more medical evidence is necessary, the court may make a temporary order committing the person to the department for a period of not more than 5 days for purposes of a diagnostic examination.

(4) If after hearing all relevant evidence, including the results of any diagnostic examination by the department, the court finds that grounds for involuntary commitment have been established by clear and convincing evidence, it shall make an order of commitment to the department. The court may not order commitment of a person unless it determines that the department is able to provide adequate and appropriate treatment for the person and that the treatment is likely to be beneficial.

(5) A person committed under this section must remain in the custody of the department for treatment for a period of 40 days unless sooner discharged. At the end of the 40-day period, the person must automatically be discharged unless before expiration of the period the department obtains a court order from the district court of the committing district for the person's recommitment upon the grounds set forth in subsection (1) for a further period of 90 days unless sooner discharged. If a person has been committed because the person is an alcoholic likely to inflict physical harm on another, the department shall apply for recommitment if after examination it is determined that the likelihood still exists.

(6) A person recommitted under subsection (5) who has not been discharged by the department before the end of the 90-day period must be discharged at the expiration of that period unless before expiration of the period the department obtains a court order from the district court of the committing district on the grounds set forth in subsection (1) for recommitment for a further period not to exceed 90 days. If a person has been committed because the person is an alcoholic likely to inflict physical harm on another, the department shall apply for recommitment if after examination it is determined that the likelihood still exists. Only two recommitment orders under subsections (5) and (6) are permitted.

(7) Upon the filing of a petition for recommitment under subsection (5) or (6), the court shall fix a date for hearing no later than 10 days after the date the petition was filed. A copy of the petition and of the notice of hearing, including the date fixed by the court, must be served on the petitioner, the person whose commitment is sought, the person's next of kin other than the petitioner, the original petitioner under subsection (1) if different from the petitioner for recommitment, one of the person's parents or the person's legal guardian if the person is a minor, and any other person the court believes advisable. At the hearing, the court shall proceed as provided in subsection (3).

(8) A person committed to the custody of the department for treatment must be discharged at any time before the end of the period for which the person has been committed if either of the following conditions is met:

(a) in case of an alcoholic committed on the grounds of likelihood of infliction of physical harm upon another, that the person is no longer in need of treatment or the likelihood no longer exists; or

(b) in case of an alcoholic committed on the grounds of incapacity and the need of treatment, that the incapacity no longer exists, further treatment will not be likely to bring about significant improvement in the person's condition, or treatment is no longer adequate or appropriate.

(9) The court shall inform the person whose commitment or recommitment is sought of the person's right to contest the application, be represented by counsel at every stage of any proceedings relating to the person's commitment and recommitment, and have counsel appointed by the court or provided by the court if the person wants the assistance of counsel and is unable to obtain counsel. If the court believes that the person needs the assistance of counsel, the court shall require, by appointment if necessary, counsel for the person regardless of the person's wishes. The person whose commitment or recommitment is sought must be informed of the right to be examined by a licensed physician of the person's choice. If the person is unable to obtain a licensed physician and requests examination by a physician, the court shall employ a licensed physician.

(10) If a private treatment facility agrees with the request of a competent patient or the patient's parent, sibling, adult child, or guardian to accept the patient for treatment, the department may transfer the patient to the private treatment facility.

(11) A person committed under this section may at any time seek to be discharged from commitment by writ of habeas corpus or other appropriate means.

(12) The venue for proceedings under this section is the place in which the person to be committed resides or is present.

(2) A person who appears to be incapacitated by alcohol must be taken into protective custody by the police and must be taken to an emergency medical service customarily used for incapacitated persons. The police, in detaining the person, are taking the person into protective

53-30-106. Excessive inmate population — confinement of inmates in other institutions. (1) If the inmate population of a correctional institution or system exceeds the emergency capacity for 30 consecutive days, the director of the department of corrections may declare that the emergency capacity has been exceeded and temporarily stop admissions to the institution or system. The director shall notify each sheriff and district court that new inmates will not be accepted by the department for admission into the institution or system until the inmate population is reduced to 95% or less of the emergency capacity. Persons committed to the department and persons sought to be admitted remain in the department's legal custody but must be kept in a detention center in the jurisdiction holding them. In the event the jurisdiction holding the inmate is at maximum capacity, the inmate may be placed in an available detention center in another jurisdiction. The department shall reimburse that jurisdiction for the cost of detention for the period beyond the normal time of delivery to a correctional institution administered by the department. Reimbursement must be at a rate mutually agreeable to the department and the jurisdiction holding the person. The rate must cover the reasonable costs of the holding jurisdiction. Expenses for medication, medical services, or hospitalization for persons confined in a detention center under this section must be paid by the department.

(2) The department may enter into contracts with the federal government, other states, or the commissioners of counties that have suitable detention centers for confining inmates committed to a correctional institution or system administered by the department, either because a correctional institution or system has exceeded its emergency capacity or because the department has no institution that is adequate for certain inmates.

(3) Within budgetary limits, the department may also enter into contracts with public or private corporations for the confinement of selected inmates if suitable programs have been established.

(3) A contract must specify the type and level of services to be provided by the contractor. The contract must provide that a private contractor may not:

(f) determine inmate eligibility for any form of release from a correctional facility; or

(g) use an inmate classification system unless it is approved by the department.

(4) Contracts may not exceed a term of 30 years and must contain provisions for renegotiation after 30 years. The provisions of 18-4-313 that limit the term of a contract do not apply to a contract authorized by this section.

(5) The contract must specify that the private correctional facility shall grant access to the legislative audit division or a person contracting with the legislative audit division for compliance auditing. The contractor shall provide access to all areas of the facility and to all records maintained onsite or offsite that pertain to all aspects of the facility, including but not limited to operation, financial, and inmate records.

(3) The provisions of this part are not intended to create a private or public cause of action for any person, partnership, corporation, or other entity, including any inmate housed within any private correctional facility or any inmate housed within the state of Montana.

History: En. Sec. 9, Ch. 511, L. 1997.

53-30-610. Restrictions on inmate movements. An inmate may not leave the secure premises of a private correctional facility except to comply with a court order, to receive medical care that is not available at the private correctional facility, or as part of a work program without the express written approval of the department. (2) If the department determines at any time that a private correctional facility does not conform to this part, applicable American correctional association and national commission on correctional health care standards, department rules, and contract requirements, the department shall notify the chief executive officer and the owner or operator, or both, of the private correctional facility. The notice must state the deficiencies and order that they be remedied within a specified period of time not to exceed 1 year. If the deficiencies are not remedied within that time, the department may hold a contested case hearing under Title 2, chapter 4, and if the department finds that suspension or revocation is warranted by nonconformance with this part, applicable American correctional association and national commission on correctional health care standards, department rules, and contract requirements, the department may suspend or revoke the facility's license.

(3) If a private correctional facility fails to comply with this part, applicable American correctional association and national commission on correctional health care standards, department rules, or contract requirements within the specified time period, the state may assume control of the facility for the purpose of protecting the inmates, facility staff, or the public. If the state assumes control of the facility, the department shall suspend payment for any services, and the department assumes the costs of assuming control.

(4) The department may assume emergency control of a private correctional facility if substantial violations exist that affect the life, health, or safety of the inmates, facility employees, or the public or that otherwise substantially impact the security of the private correctional facility.

(5) In the event that a contractor fails to comply with this part, applicable American correctional association and national commission on correctional health care standards, department rules, or contract requirements, the state may retain the option of purchasing or leasing the facility.

(6) If either the state or the contractor fails to renew a contract, the state may retain the option of purchasing or leasing the facility.

(7) If the state retains the option of purchasing or leasing the facility under subsections (5) and (6) of this section, because it requires the creation of state debt, the appropriation bill that funds the purchase of services from the facility must be treated in the same manner as a bill creating state debt and requires a vote of two-thirds of the members of each house of the legislature for passage.

Highway safety, Title 61, ch. 2.

60-1-101. Legislative findings. The legislature recognizes that safe and efficient highway transportation is of important interest to all of the people of the state and declares that:

(1) inadequate highways, roads, and streets obstruct the free flow of traffic, increase costs of motor vehicle operation, endanger the health and safety of the citizens of the state, depreciate property values, and impede generally the economic progress of the state;

(2) the problems of establishing and maintaining adequate highways, roads, and streets, eliminating congestion, reducing accident frequency, providing parking facilities, and taking all necessary steps to insure safe and convenient transportation are urgent;

(3) adequate and integrated systems of highways, roads, and streets are essential to the general welfare of the state;

(4) providing adequate highway facilities is a proper public use and purpose, and this title is necessary for the preservation of the public peace, health, and safety, for the promotion of the general welfare, and as a contribution to the national defense.

History: En. Sec. 1, Ch. 197, L. 1965; R.C.M. 1947, 32-2201; amd. Sec. 1, Ch. 23, L. 1979.

60-1-102. Legislative policy and intent. Consistent with the foregoing determinations and declarations, the legislature intends:

(1) to place a high degree of trust in the hands of those officials whose duty it is, within the limits of available funds, to plan, develop, operate, maintain, and protect the highway facilities of this state for present as well as for future use;

(2) to make the department of transportation custodian of the federal-aid and state highways and to impose similar responsibilities upon the boards of county commissioners with respect to county roads and upon municipal officials with respect to the streets under their jurisdiction;

(3) that the state shall have integrated systems of highways, roads, and streets and that the department of transportation, the counties, and municipalities assist and cooperate with each other to that end;

(4) to provide sufficiently broad authority to enable the highway officials at all levels of government to function adequately and efficiently in all areas of their respective responsibilities, subject to the limitations of the constitution and the legislative mandate hereinafter imposed.

Scenic-Historic Byways Program

60-2-601. Scenic-historic byways program — advisory council — expenditure of funds. (1) There is a scenic-historic byways program. The commission may designate roads to be included as part of the program and may add or delete roads from the program. The commission may not designate a road as a scenic-historic byway without the concurrence of the affected local governments and the agencies responsible for maintenance and operation of the road. A road or right-of-way across federal land that was granted by 43 U.S.C. 932 and recognized by 43 U.S.C. 1701 may be considered for inclusion in the program.

(2) Notwithstanding the provision of 2-15-122, the commission shall appoint an advisory council for the scenic-historic byways program.

(3) The advisory council is a technical oversight council composed of no more than 11 members who must have expertise in one or more of the subjects of tourism, visual assessment, Montana history, resource protection, economic development, transportation, or planning. One member of the advisory council must be a representative of the Montana chamber of commerce.

(4) The advisory council shall:

(a) assist the department and the commission in designing the program;

(b) review applications for nominating roads to the scenic-historic byways program; and

(c) recommend to the commission roads that should be included in or deleted from the scenic-historic byways program.

(5) The department, upon the direction of the commission, may expend any funds appropriated for or otherwise available to the scenic-historic byways program.

History: En. Sec. 2, Ch. 546, L. 1999.

60-2-602. Scenic-historic byways program — rules. (1) The department shall adopt rules to effectively administer the scenic-historic byways program. The rules must include the criteria that will be considered for designating a road for inclusion in the scenic-historic byways program.

(2) In developing the criteria, to be included in the rules, for designating a road for inclusion in the scenic-historic byways program, the advisory council, commission, and department shall specifically address:

(a) factors that allow each locality choosing to participate in or seeking participation in the scenic-historic byways program the opportunity to:

(i) enhance the experience of the traveling public;

(ii) stimulate or allow for economic development and new marketing strategies; or

(iii) preserve intrinsic resources for the benefit of future generations;

(b) a methodology by which a locality choosing to participate in or seeking participation in the scenic-historic byways program may participate in the national scenic byways program, described in section 1047 of Public Law 102-240;

(c) means by which a road may be excluded from designation as a scenic-historic byway by:

(i) an incorporated municipality for a road or segment of a road within its jurisdiction; or

(ii) a landowner for a road or segment of a road adjacent to the landowner's private property;

(d) factors to be considered in assessing the intrinsic, scenic, historic, recreational, cultural, archaeological, educational, or natural qualities of the road nominated for inclusion in the scenic-historic byways program;

(e) factors to be considered in a locality's corridor management plan, including that the plan:

(i) serves as a visioning tool to provide direction for enhancing and marketing the corridor, but not as a land management document, zoning tool or mandate, highway improvement scoping or prioritization document, or highway management document;

(ii) accommodates commerce and commercial vehicles and maintains a safe and efficient level of highway services;

(iii) protects private property rights, including assurances that the private property rights of a person who owns land adjacent to or visible from the road are not in any way diminished by the road being designated a scenic-historic byway or are accommodated through mutually agreeable compensation;

(iv) precludes the locality having adopted the corridor management plan from establishing goals or commitments outside the locality's jurisdiction; and

(v) has accommodated all jurisdictions affected or to be affected by the designation of a road as a scenic-historic byway; and

(f) procedures to ensure that localities choosing to participate in the scenic-historic byways program:

(i) may exclude from designation any segment of a highway that is inconsistent with the state's criteria for designating scenic-historic byways. Within an excluded segment, a locality may allow off-premises advertising in the form of billboards or painted signs, subject to applicable federal, state, or local laws.

(ii) may use signage recognized as exceptions or as information signs in all areas along a designated route, provided that the signage complies with 23 U.S.C. 131, Title 60, chapter 5, part 5, Title 75, chapter 15, part 1, and all applicable state or locally adopted rules, requirements, and restrictions.

60-3-201. Distribution and use of proceeds of gasoline dealers' license tax. (1) All money received in payment of license taxes under the Distributor's Gasoline License Tax Act, except those amounts paid out of the department of transportation's suspense account for gasoline tax refund, must be used and expended as provided in this section. The portion of that money on hand at any time that is needed to pay highway bonds and interest on highway bonds when due and to accumulate and maintain a reserve for payment of highway bonds and interest, as provided in laws and in resolutions of the state board of examiners authorizing the bonds, must be deposited in the highway bond account in the debt service fund established by 17-2-102. After deductions for amounts paid out of the suspense account for gasoline tax refunds, the remainder is allocated as follows:

(a) 9/10 of 1% to the state park account;

(b) 15/28 of 1% to a snowmobile account in the state special revenue fund;

(c) 1/8 of 1% to an off-highway vehicle account in the state special revenue fund; and

(d) 1/25 of 1% to the aeronautics revenue fund of the department of transportation under the provisions of 67-1-301.

(e) The remainder of the money must be used:

(i) by the department of transportation on the highways in this state selected and designated by the commission;

(ii) for collection of the license taxes; and

(iii) for the enforcement of the Montana highway code under Article VIII, section 6, of the constitution of this state.

(2) The department shall, in expending this money, carry forward construction from year to year, using the money expended in accordance with this title. Nothing in this title conflicts with Title 23, U.S.C., and the rules by which it is administered.

(3) The department may enter into cooperative agreements with the national park service and the federal highway administration for the purpose of maintaining national park approach roads in Montana.

(4) Money credited to the state park account in the state special revenue fund may be used only for the creation, improvement, and maintenance of state parks where motorboating is allowed. The legislature finds that of all the fuel sold in the state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 9/10 of 1% is used for propelling boats on waterways of this state.

(5) (a) Money credited to the snowmobile account may be used only to develop and maintain facilities open to the general public at no admission cost, to promote snowmobile safety, for enforcement purposes, and for the control of noxious weeds.

(b) Of the amounts deposited in the snowmobile account:

(i) 13% of the amount deposited must be used by the department of fish, wildlife, and parks to promote snowmobile safety and education and to enforce snowmobile laws. Two-thirds of the 13% deposited must be used to promote snowmobile safety and education and one-third of the 13% deposited must be used for the enforcement of snowmobile laws.

(ii) 1% of the amount deposited must be credited to the noxious weed management trust fund provided for in 80-7-811.

(c) The legislature finds that of all fuels sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 15/28 of 1% is used for propelling registered snowmobiles in this state.

(6) (a) Money credited to the off-highway vehicle account under subsection (1)(c) may be used only to develop and maintain facilities open to the general public at no admission cost, to repair areas that are damaged by off-highway vehicles, and to promote off-highway vehicle safety. Ten percent of the money deposited in the off-highway vehicle account must be used to promote off-highway vehicle safety. Up to 10% of the money deposited in the off-highway vehicle account may be used to repair areas that are damaged by off-highway vehicles.

(b) The legislature finds that of all fuel sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 1/8 of 1% is used for propelling off-highway vehicles in this state.

(7) Money credited to the aeronautics account of the department of transportation may be used only to develop, improve, and maintain facilities open to the public at no admission cost and to promote aviation safety. The legislature finds that of all the fuel sold in this state for consumption in internal combustion engines, except fuel for which refunds have been made, not less than 1/25 of 1% is used for propelling aircraft in this state.

60-3-205. Apportionment of state funds to primary highway system. (1) Prior to the beginning of each biennium, the commission, referring to highway sufficiency ratings developed by the department, shall designate a level of sufficiency considered adequate and a lesser level of sufficiency considered critical, both to be used to compute the apportionment of federal-aid highway funds for the primary highway system during the succeeding biennium.

(2) The department shall then compute the ratio:

(a) between the mileage rated below adequate sufficiency in each financial district and the total mileage rated below adequate sufficiency of the primary highway system in the state; and

(b) between the mileage rated at or below critical sufficiency in each financial district and the total mileage rated at or below critical sufficiency of the primary highway system in the state.

(3) The department, subject to the limitation provided in subsection (4), shall then distribute three-fourths of the available federal-aid highway funds for the primary highway system among the financial districts according to the ratios computed in subsection (2)(a) and one-fourth of the available federal-aid highway funds for the primary highway system among the financial districts according to the ratios computed in subsection (2)(b).

(4) A financial district may not receive more than one-third of the total funds available for the primary highway system in any biennium. If a financial district would receive more than one-third of the total funds available under the formula in subsection (3), its apportionment is limited to the one-third maximum and any excess funds that it would have received must be redistributed among the other districts according to the formula.

(5) (a) To the extent necessary to permit the orderly programming and construction of projects, the commission may transfer and obligate apportioned primary system funds for any project located on the federal-aid interstate or national highway systems within a financial district. The commission may transfer and obligate any amount of apportioned primary system funds to any other financial district if the financial district receiving primary system funds transfers an equal amount of federal-aid interstate or national highway system funds to the financial district from which the transfer originated. This transferred amount is in addition to the federal-aid interstate and national highway system funds that would have been obligated on these systems within the federal fiscal year of transfer.

(b) The intent of the provisions allowing transfers between financial districts is that a district may not receive less funding than the amount distributed by the formula of this subsection (5) and that a district may not transfer more than is received by virtue of this formula for a given federal fiscal year.

History: En. Sec. 4-309, Ch. 197, L. 1965; amd. Sec. 98, Ch. 316, L. 1974; amd. Sec. 2, Ch. 31, L. 1975; R.C.M. 1947, 32-2606; amd. Sec. 1, Ch. 412, L. 1983; amd. Sec. 13, Ch. 87, L. 1993; amd. Sec. 1, Ch. 177, L. 1999.

60-3-206. Apportionment of funds to secondary highway system. (1) Each fiscal year the department shall apportion at least 65% of the federal-aid highway funds allocated for the secondary highway system among the districts for capital construction needs. The remainder of the funds must be used by the department for secondary highway system pavement preservation. The proportion that each district receives is computed on the following basis:

(a) 30% in the ratio of land area in each district to the total land area in the state;

(b) 35% in the ratio of the rural population in each district to the total rural population in the state;

(c) 30% in the ratio of the rural road mileage in each district to the total rural road mileage in the state;

(d) 5% in the ratio of the rural bridge square footage in each district to the total rural bridge square footage in the state.

(2) To the extent necessary to permit orderly programming and construction of projects, obligations in a district may exceed the amount apportioned to that district if a majority of the boards of county commissioners of the counties in another district approve the donation of the extra amount. The amount of excess obligations must be deducted from future apportionments to that recipient district and returned to the donor district.

(3) For the purposes of this section, terms are defined as follows:

(a) "Capital construction" means a highway or bridge project undertaken to improve structural strength, increase capacity, or eliminate hazardous design features. A capital construction project may include paved or gravel road reconstruction and rehabilitation.

(b) "District" means the transportation commission districts identified in 2-15-2502.

(c) "Pavement preservation" means a project undertaken to extend the useful life of a paved road.

(d) "Rural bridge square footage" means the total square footage of all deck areas of structures 20 feet long or longer located on the roadways that are used to calculate rural road mileage as provided in subsection (3)(f).

(e) "Rural population" means the total population of all of the counties in a district as reported in the latest decennial federal census less the population in cities over 5,000 persons and their unincorporated fringe urban areas as determined by the department, using the latest decennial federal census.

(f) (i) "Rural road mileage" means all road mileage on roads functionally classified and approved by the transportation commission as major collectors or minor arterials, exclusive of road mileage on the primary highway system.

(ii) Road mileage within national parks or road mileage that lies within incorporated cities over 5,000 persons and their unincorporated fringe urban areas, whose population is determined by the department, using the latest decennial federal census, is not considered rural road mileage.

(iii) Rural road mileage reported by the road inventory of the department must be used in determining rural road mileage.

60-4-111. Acquisition of property for controlled-access facility. (1) The highway authorities of the state, counties, incorporated cities and towns, respectively, or in cooperation one with the other, may acquire private or public property and property rights for controlled-access highways or controlled-access facilities and service roads. Such rights may include rights of access, air, view, and light. They may be acquired by gift, devise, purchase, or condemnation, in the same manner as may now or hereafter be authorized by law for the acquisition of property or property rights in connection with highways, roads, and streets in their respective jurisdictions.

(2) A right-of-way is hereby given, dedicated, and set apart for controlled-access highways or controlled-access facilities through, over, upon, or across any county road and any street or alley intersecting a controlled-access highway. Acquisition of any county road, street, or alley for use as a controlled-access highway or controlled-access facility shall be deemed a superior

and more necessary public use and purpose than the public use or purpose to which such road, street, or alley has theretofore been dedicated.

60-5-101. Policy. The legislature declares it to be the policy of this state to facilitate the flow of traffic and promote public safety by controlling access to:

(1) highways included by the federal highway administration in the national system of interstate highways;

(2) throughways and intersections with throughways;

(3) such other federal-aid and state highways as shall be designated by the commission in accordance with the requirements set forth in this chapter.

History: En. Sec. 10-101, Ch. 197, L. 1965; amd. Sec. 152, Ch. 316, L. 1974; R.C.M. 1947, 32-4301; amd. Sec. 23, Ch. 23, L. 1979.

60-5-102. Definitions. When used in this chapter, the following definitions apply:

(1) "Arterial highway" means a state highway designated by agreement between the commission and the secretary of transportation as part of the federal-aid primary system and any highway so designated as a part of the federal-aid secondary system which has been constructed and is being used primarily for through traffic on a continuous route.

(2) "Controlled-access facility" means and includes streets, alleys, public roads, private roads, and ways of passage intersecting a controlled-access highway and real property contiguous to the right-of-way of a controlled-access highway.

(3) "Controlled-access highway" means those portions of an interstate highway, throughway, or throughway intersection which the commission designates for through traffic or other federal-aid or state highway over, from, or to which owners or occupants of abutting land or other persons have no easement of access or only a limited easement of access, light, air, or view. It also means those portions of spurs to the interstate highway system which the commission designates as unsafe or impeded by unrestricted access of traffic from intersecting streets or alleys or public or private roads or ways of passage.

(4) "Existing highway" means and includes highways, roads, and streets established, constructed, and in use on March 2, 1955. It does not include highways, roads, or streets, established, constructed, and in use after that date or highways, roads, or streets, or portions thereof relocated after that date.

(5) "Highway authorities" or "authority" means the entities in state, county, and municipal governments which have authority to construct, repair, and maintain highways, roads, and streets.

(6) "Interstate highway" means a highway included as a part of the national system of interstate highways.

(7) "Throughway" means a portion of an arterial highway constructed and used for carrying traffic partially or entirely around a town or city or a portion thereof.

(8) "Throughway intersection area" means an area within a radius of 300 feet from the point of intersection of the centerlines of a throughway and a public road, street, or highway.

60-5-103. Designation as controlled-access highway. (1) No portion of any interstate highway, throughway or throughway intersection, or other federal-aid or state highway shall be designated as a controlled-access highway unless the commission shall adopt a resolution so designating it. The resolution shall be adopted by the majority vote of the members in attendance at any regular or special meeting. In it, the commission shall find and determine that it is necessary and desirable that:

(a) the owners or occupants of the abutting land or other persons shall have no easement of access or only a limited easement of access, light, air, or view;

(b) the rights of or easements to access, light, air, or view be acquired by the state so as to prevent such portion of highway from becoming unsafe for or impeded by unrestricted access of traffic from intersecting streets, alleys, public or private roads, or ways of passage.

(2) The resolution shall contain a statement of the reasons for its adoption and shall set forth the location, distance, and termini of the portion of the highway designated as a controlled-access highway.

(1) Those authorities of the state, counties, and municipalities authorized to participate in construction and maintenance of highways may plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use. Each authority shall by resolution make the findings and determinations provided for in 60-5-103 in order to designate a highway as a controlled-access facility.

(2) The highway authorities of the state, counties, incorporated cities, and towns, respectively or in cooperation each with the other, may acquire private or public property and property rights for controlled-access highways or controlled-access facilities and service roads. The property rights may include rights of access, air, view, and light. The property and property rights may be acquired by gift, devise, purchase, or condemnation, as provided in Title 70, chapter 30, and chapter 4 of this title, for the acquisition of property or property rights in connection with highways, roads, and streets in their respective jurisdictions.

Evidence bearing on whether animals on the highway pose a significant hazard includes, without limitation, past accident records, the opinions of persons qualified by experience to evaluate the relative safety of road conditions, and the terrain around the road.

(2) "Livestock" means cattle, sheep, swine, horses, mules, and goats.

(3) A "low-hazard area" is a segment of the primary or secondary highway system passing through open range that is not a high-hazard area.

(4) "Open range" means those areas of the state where livestock are raised and maintained in sufficient numbers to constitute a significant part of the local or county economy and where livestock graze and move about generally unrestrained by fences.

60-7-103. Department to fence right-of-way through open range — exception. (1) Except as provided in subsection (3), the department shall fence the right-of-way of any part of a primary or secondary highway or a county road or bridge that is constructed or reconstructed after July 1, 1969, through open range where livestock present a hazard to the safety of the motorist. When a fence is constructed, adequate stock gates or stock passes, as necessary, must be provided to make land on either side of the highway usable for livestock purposes.

(2) The department shall erect a right-of-way fence in the high-hazard areas where fencing is warranted as promptly as possible, and the cost of the fence construction is an expenditure for the enforcement of federal-aid highway safety programs. Even if a right-of-way fence is determined to be unwarranted pursuant to subsection (3), gates, stock underpasses, water facilities, and cattle guards may be installed where necessary to enhance safety and to make the land on either side of the highway usable for livestock purposes or where a public right-of-way intersects the state highway.

(3) The department is not required to fence the right-of-way of a secondary highway through open range that passes through a county park, provided that:

(a) the department and the board of county commissioners:

(i) agree that the criteria listed in this subsection (3) have been adequately met; and

(ii) cooperate in developing an accident mitigation plan for the portion of the highway that will remain unfenced. The plan may include the speed limit established as provided in 61-8-309 or 61-8-310, how the criteria listed in this subsection (3) have been met, how the plan will be implemented, and any other issues related to minimizing accidents involving livestock and motor vehicles where a fence has not been erected.

(b) livestock grazing does not occur from Memorial Day to Labor Day;

(c) the speed limit established as provided in 61-8-309 or 61-8-310 is clearly posted and enforceable;

(d) warning signs indicating that livestock may be on the road are posted at regular intervals along the road and maintained during the months that livestock grazing occurs;

(e) livestock management practices, such as locating water and administering dietary supplements away from the road and developing grazing and herding plans that minimize the amount of time that livestock are on or near the road, are employed; and

(f) the unfenced portion of the road does not exceed 20 miles in length.

History: (1)En. Sec. 1, Ch. 311, L. 1969; amd. Sec. 2, Ch. 255, L. 1974; amd. Sec. 91, Ch. 316, L. 1974; Sec. 32-2426, R.C.M. 1947; (2)En. 32-2429 by Sec. 5, Ch. 255, L. 1974; Sec. 32-2429, R.C.M. 1947; R.C.M. 1947, 32-2426(1), 32-2429; amd. Sec. 2, Ch. 204, L. 2001.

Compiler's Comments

2001 Amendment: Chapter 204 at beginning of first sentence of (1) inserted exception clause and near middle of sentence substituted "a primary or secondary highway or a county road or bridge" for "the state highway system"; in first sentence of (2) before "fence" inserted "right-of-way" and substituted "the high-hazard areas where fencing is warranted" for "every high-hazard area" and at beginning of second sentence inserted "Even if a right-of-way fence is determined to be unwarranted pursuant to subsection (3)" and after "necessary" inserted "to enhance safety and"; inserted (3) concerning fencing along a secondary highway through open range that passes through a county park"; and made minor changes in style. 60-11-111. Identification and acquisition of railroad rights-of-way — identification of railroad lines for rehabilitation. (1) Identification of those railroad lines proposed for abandonment in the state of Montana that may have potential for local transportation service or future use as transportation corridors is necessary to determine the feasibility of acquisition by the state and to allow the state to negotiate for acquisition of those railroad lines or easements in the lines.

(2) Identification of those railroad branch lines in the state that may have potential for local rail freight transportation service is necessary to determine the feasibility of providing loans or grants to the owner or operator of the railroad line as provided in 60-11-120.

(3) The department of transportation:

(a) shall identify railroad rights-of-way in this state that may be abandoned and research the feasibility of acquisition by the state of Montana of those rights-of-way that may be abandoned;

(b) shall identify, under the state rail planning program, railroad branch lines that should be preserved for continued operation;

(c) may negotiate for and acquire easements in the rights-of-way or the railroad rights-of-way and attendant facilities identified pursuant to subsection (3)(a) and:

(i) hold all acquired lands in trust for transportation purposes; and

(ii) upon creation of an appropriate local authority, other than an agency of state government, shall transfer to the local authority all attendant facilities and all rights and responsibility to operate and maintain transportation services over the lands acquired in subsection (3)(c);

(d) shall cooperate with and assist persons representing recreational, transportation, and utility interests and other interested persons, including adjacent landowners, in acquiring ownership or easement of abandoned railbeds; and

(e) shall establish procedures, including the use of federal funds received for rail freight assistance programs under 49 U.S.C. 1654, for providing loans and grants under 60-11-120.

(4) Abandoned rights-of-way acquired and held in trust pursuant to subsection (3)(c)(i) must be administered by the department of natural resources and conservation, as prescribed in Title 77, until the land is needed for transportation purposes.

60-11-113 through 60-11-119 reserved.

60-11-120. Railroad and intermodal transportation facility loans and grants — authorization — eligibility. (1) Money appropriated by the legislature may be used by the department of transportation, after deducting the necessary costs and expenses for administering this section, to provide loans and grants for the preservation and continued operation of railroad branch lines identified in 60-11-111 and for the development and improvement of intermodal transportation facilities. Proceeds of all repayments of loans, including interest, made under this section must be deposited in the state general fund.

(2) An owner or operator of a railroad identified in 60-11-111(2) is eligible for a loan or grant under this section if the owner or operator:

(a) undertakes to repair, improve, or replace rail facilities to allow the continued operation of the railroad for local rail transportation service; and

(b) derives revenue from the continued operation of the railroad.

(3) A port authority created under Title 7, chapter 14, part 11, is eligible for a loan or grant under this section for the development or improvement of an intermodal transportation facility under this section if:

(a) the port authority is included in the state transportation planning process as described in 23 U.S.C. 135; and

(b) the intermodal transportation facility for which a loan or grant is sought is integrally related to the railroad transportation system of the state.

History: **En. Sec. 5, Ch. 541, L. 1993; amd. Sec. 49, Ch. 422, L. 1997.**

60-11-121. Legislative findings. (1) The legislature finds that it is in the interests of the state of Montana to preserve and encourage, whenever possible, Montana's railroad transportation infrastructure, especially:

(a) those railroads classified as Class III carriers under 49 CFR, chapter X, that operate mainly within the state; and

(b) those railroads within the state that are eligible for rail freight assistance programs under 49 U.S.C. 1654.

(2) The legislature further finds that:

(a) the railroad transportation infrastructure of the state is enhanced by the development and improvement of intermodal transportation facilities by port authorities created under Title 7, chapter 14, part 11; and

(b) abandonment of railroad branch lines and the increased demands for shipping have a negative impact on the highways of the state.

(3) The legislature further finds that the preservation of those railroads described in subsection (1)(b) and the development and improvement of intermodal transportation facilities are necessary to enhance access to markets, to mitigate rural isolation and long-term negative impacts on the highways of the state, and to promote the efficiency and effectiveness of the state's transportation system.

(4) The legislature declares that loans and grants made available under 60-11-120 to railroads and to port authorities are in the interest of the state.

History: **En. Sec. 1, Ch. 513, L. 1991; amd. Sec. 2, Ch. 541, L. 1993; amd. Sec. 244, Ch. 42, L. 1997.**

(1) Unless otherwise required by law, revenue from the lease or sale of assets of or revenue paid to the state of Montana by an operator of a railroad owned by the state of Montana must be deposited in the state general fund.

(2) The department of transportation is authorized to administer, as provided in 60-11-120 through 60-11-123, funding available to provide for improvement of railroad tracks

and associated facilities of any state-owned railroad in Montana and to provide loans and grants to railroad lines and intermodal transportation facilities as provided in 60-11-120.

History: En. Sec. 3, Ch. 513, L. 1991; amd. Sec. 4, Ch. 541, L. 1993; amd. Sec. 50, Ch. 422, L. 1997.

60-11-201. Agreements for rail passenger service application. The governor or his authorized representative may negotiate with the proper authority representing any other state to establish an agreement to enable Montana, in concert with other states, to submit an application to the rail passenger corporation for institution of rail passenger service under the provisions of the Rail Passenger Service Act (45 U.S.C. 563(b)) or any interstate or federal proposal for the purpose of maintaining or augmenting rail passenger service in the state. The governor may not participate in the submission of an application until the base agreement and any application have been approved by the legislature. However, the governor or his authorized representative may enter into agreements to expand Amtrak rail passenger service under 45 U.S.C. 563(b), as that statute reads on July 1, 1985, subject to appropriation by the legislature.

61-2-201. Vehicle Equipment Safety Compact. This part shall be known and may be cited as the "Vehicle Equipment Safety Compact".

Article I. Findings and Purposes

(1) The party states find that:

(a) accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare;

(b) there is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations, and codes relating to vehicle equipment, and to accomplish this by such means as will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.

(2) The purposes of this compact are to: (a) promote uniformity in regulation of and standards for equipment;

(b) secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety;

(c) provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subsection (1) of this article.

(3) It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.

Article II. Definitions

As used in this compact:

(1) "Vehicle" means every device in, upon, or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.

(2) "State" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(3) "Equipment" means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.

Article III. The Commission

(1) There is hereby created an agency of the party states to be known as the "Vehicle Equipment Safety Commission", hereinafter called the commission. The commission shall be composed of one commissioner from each party state who shall be appointed, serve, and be subject to removal in accordance with the laws of the state which he represents. If authorized by the laws of his party state, a commissioner may provide for the discharge of his duties and the performance of his functions on the commission, either for the duration of his membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his identity and appointment shall have been given to the commission in such form as the commission may require. Each commissioner, and each alternate when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the commission for

expenses actually incurred in attending commission meetings or while engaged in the business of the commission.

(2) The commissioners shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.

(3) The commission shall have a seal.

(4) The commission shall elect annually, from among its members, a chairman, a vice-chairman, and a treasurer. The commission may appoint an executive director and fix his duties and compensation. Such executive director shall serve at the pleasure of the commission, and together with the treasurer shall be bonded in such amount as the commission shall determine. The executive director also shall serve as secretary. If there be no executive director, the commission shall elect a secretary in addition to the other officers provided by this subdivision.

(5) Irrespective of the civil service, personnel, or other merit system laws of any of the party states, the executive director with the approval of the commission, or the commission if there be no executive director, shall appoint, remove, or discharge such personnel as may be necessary for the performance of the commission's functions, and shall fix the duties and compensation of such personnel.

(6) The commission may establish and maintain independently or in conjunction with any one or more of the party states a suitable retirement system for its full time employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor's insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.

(7) The commission may borrow, accept, or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party states or their subdivisions.

(8) The commission may accept for any of its purposes and functions under this compact any and all donations and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize, and dispose of the same.

(9) The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

(10) The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states. The bylaws shall provide for appropriate notice to the commissioners of all commission meetings and hearings and the business to be transacted at such meetings or hearings. Such notice shall also be given to such agencies or officers of each party state as the laws of such party state may provide.

(11) The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year, and embodying such recommendations as may have been issued by the commission. The commission may make such additional reports as it may deem desirable.

Article IV. Research and Testing

The commission shall have power to:

(1) collect, correlate, analyze, and evaluate information resulting or derivable from research and testing activities in equipment and related fields;

(2) recommend and encourage the undertaking of research and testing in any aspect of equipment or related matters when, in its judgment, appropriate or sufficient research or testing has not been undertaken;

(3) contract for such equipment research and testing as one or more governmental agencies may agree to have contracted for by the commission, provided that such governmental agency or agencies shall make available the funds necessary for such research and testing;

(4) recommend to the party states changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations, or codes which would promote effective governmental action or coordination in the prevention of equipment-related highway accidents or the mitigation of equipment-related highway safety problems.

Article V. Vehicular Equipment

(1) In the interest of vehicular and public safety, the commission may study the need for or desirability of the establishment of or changes in performance requirements or restrictions for any item of equipment. As a result of such study, the commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this article. No less than 60 days after the publication of a report containing the results of such study, the commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.

(2) Following the hearing or hearings provided for in subsection (1) of this article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the commission may issue rules, regulations, or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the commission will be fair and equitable and effectuate the purposes of this compact.

(3) Each party state obligates itself to give due consideration to any and all rules, regulations, and codes issued by the commission and hereby declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.

(4) The commission shall send prompt notice of its action in issuing any rule, regulation, or code pursuant to this article to the appropriate motor vehicle agency of each party state and such notice shall contain the complete text of the rule, regulation, or code.

(5) If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a condition precedent to the taking effect in such party state of any rule, regulation, or code. In such event, the commissioner of such party state shall submit any commission rule, regulation, or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection thereof by the party state.

(6) Except as otherwise specifically provided in or pursuant to subsections (5) and (7) of this article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation, or code within 6 months of the sending of the notice and, upon such adoption, the rule, regulation, or code shall have the force and effect of law therein.

(7) The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation, or code issued by the commission pursuant to this article if such agency specifically finds, after public hearing on due notice, that a variation from the commission's rule, regulation, or code is necessary to the public safety, and incorporates in such finding the reasons upon which it is based. Any such finding shall be subject to review by such procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings held pursuant to this subsection.

Article VI. Finance

(1) The commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that party state for presentation to the legislature thereof.

(2) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any such budget shall be apportioned among the party states as follows: one-third in equal shares and the remainder in proportion to the number of

motor vehicles registered in each party state. In determining the number of such registrations, the commission may employ such source or sources of information as in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.

(3) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under Article III(8) of this compact, provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under Article III(8) hereof, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the commission.

(5) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(6) Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

Article VII. Conflict of Interest

(1) The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale, or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the commission or on its behalf for testing, conduct of investigations, or research. In addition to any penalty for violation of such rules and regulations as may be applicable under the laws of the violator's jurisdiction of residence, employment, or business, any violation of a commission rule or regulation adopted pursuant to this article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any such rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.

(2) Nothing contained in this article shall be deemed to prevent a contractor for the commission from using any facilities subject to his control in the performance of the contract even though such facilities are not devoted solely to work of or done on behalf of the commission, or to prevent such a contractor from receiving remuneration or profit from the use of such facilities.

Article VIII. Advisory and Technical Committees

The commission may establish such advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any such committees and the organizations which the members represent in furthering any of its activities.

Article IX. Entry Into Force and Withdrawal

(1) This compact shall enter into force when enacted into law by any six or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(2) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 1 year after the executive head of the

withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article X. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

Part 3
Driver Improvement Program

61-2-301. Purpose. The toll of accidents, personal injuries, and deaths resulting from the operation of motor vehicles remains a matter of great concern to the legislature. The failure to apply proper driving techniques in the operation of vehicles and improper driving attitudes and habits on the part of operators constitute major factors in a substantial portion of both fatal and nonfatal automobile accidents. Current efforts to improve driver skills, responsibilities, attitudes, and habits have not proved adequate to stem the accident, injury, and death toll. The public interest in the cause of highway safety will be well served by additional methods of driver rehabilitation and improvement and the establishment of programs of rehabilitative instruction, driver improvement, and direction for drivers with poor driving records.

History: **En. 31-191 by Sec. 1, Ch. 526, L. 1977; R.C.M. 1947, 31-191.**

61-2-302. Establishment of driver rehabilitation and improvement program — department to contract with private entities — participation by offending drivers. (1) (a) The department shall establish by administrative rules a driver rehabilitation and improvement program or programs that may consist of classroom instruction in rules of the road, driving techniques, defensive driving, driver attitudes and habits, actual on-the-road driver's training, and other subjects or tasks designed to contribute to proper driving attitudes, habits, and techniques.

(b) The rules must:

(i) provide for the local program courses to be operated by private entities;

(ii) develop a procedure for certifying private entities as driver rehabilitation and improvement course providers;

(iii) establish the criteria that private entities must meet in order to be certified by the department; and

(iv) provide for an alternative driver rehabilitation and improvement procedure for drivers who live in areas where a course is not offered.

(2) Official participation in the driver rehabilitation and improvement program is limited to those persons whose license to operate a motor vehicle in the state of Montana is:

(4) In the event that a person's driver's license has been surrendered before the person's selection for participation in the driver rehabilitation and improvement program, the license may be returned upon receipt of the person's agreement to participate in the program.

Upon issuance of a probationary license under this section, the licensee is subject to the restrictions set forth on the license.

61-3-103. *(Temporary)* **Filing of security interests — perfection — rights — procedure — fees.** (1) Except as provided in 61-3-109, the department may not file any voluntary security interest or lien unless it is accompanied by or specified in the application for a certificate of ownership of the vehicle encumbered. If the approved notice form is transmitted to the department, the security agreement or other lien instrument that creates the security interest must be retained by the secured party. A copy of the security agreement is sufficient as a lien notice if it contains the name and address of the debtor and the secured party, the complete vehicle description, and the amount of the lien and is signed by the debtor. The department shall file voluntary security interests and liens by entering the name and address of the secured party upon the face of the certificate of ownership. Involuntary liens must be filed against the record of the vehicle encumbered. The department shall mail a statement certifying to the filing of a security interest or lien to the secured party. The department shall mail the certificate of ownership to the owner at the address given on the certificate; however, if the transfer of ownership and filing of the security interest are paid for by a creditor or secured party, the department shall return the certificate of ownership to the county treasurer in the county in which the vehicle is to be registered. The owner of a motor vehicle is the person entitled to operate and possess the motor vehicle.

(2) A security interest in a motor vehicle held as inventory by a dealer licensed under chapter 4 of this title must be perfected in accordance with Title 30, chapter 9A.

(3) Whenever a security interest or lien is filed against a motor vehicle that is subject to two security interests previously perfected under this section, the department shall endorse on the face of the certificate of ownership, "NOTICE. This motor vehicle is subject to additional security interests on file with the Department of Justice." Other information regarding the additional security interests need not be endorsed on the certificate.

(4) Satisfactions or statements of release filed with the department under this chapter must be retained by it for a period of 8 years after receipt, after which they may be destroyed.

(5) Except as provided in 61-3-109 and subsection (6) of this section, a voluntary security interest or lien is perfected on the date that the lien notice and the certificate of ownership or manufacturer's statement of origin are delivered to the county treasurer. On that date, the county treasurer shall issue to the secured party a receipt evidencing the perfection. Perfection under this section constitutes constructive notice to subsequent purchasers or encumbrancers, from the date of delivery of the lien notice to the county treasurer, of the existence of the security interest.

(6) Except as provided in 61-3-109, voluntary security interests or lien filings that do not require transfer of ownership are perfected on the date that the lien notice and the certificate of ownership or manufacturer's statement of origin are received by the department. On that date, the department shall issue to the secured party a receipt evidencing the perfection. Perfection under this subsection constitutes constructive notice to subsequent purchasers or encumbrancers, from the date that the lien notice is delivered to the department, of the existence of the security interest.

(7) Upon default under a chattel mortgage or conditional sales contract covering a motor vehicle, the mortgagee or vendor has the same remedies as in the case of other personal property. In case of attachment of motor vehicles, all the provisions of 27-18-413, 27-18-414, and 27-18-804 are applicable except that deposits must be made with the department.

(8) A conditional sales vendor or chattel mortgagee or assignee who fails to file a satisfaction of a chattel mortgage, assignment, or conditional sales contract within 15 days after receiving final payment is required to pay the department the sum of $1 for each day that the person fails to file the satisfaction.

(9) Upon receipt of notice of any involuntary liens or attachments against the record of any motor vehicle registered in this state, the department shall within 24 hours mail to the owner, conditional sale vendor, mortgagees, or assignees of the owner, conditional sale vendor, or mortgagees a notice showing the name and address of the lien claimant, the amount of the lien, the date of execution of the lien, and, in the case of attachment, the full title of the court and the action and the names of the attorneys for the plaintiff and attaching creditor.

(10) It is not necessary to refile with the department any instruments on file in the offices of the county clerk and recorders at the time that this law takes effect.

(11) A fee of $8 must be paid to the department to file any security interest or other lien against a motor vehicle. The $8 fee includes the cost of filing a satisfaction or release of the security interest and also the cost of entering the satisfaction or release on the records of the department and of deleting the endorsement of the security interest from the face of the certificate of ownership. A fee of $4 must be paid to the department for issuing a certified copy of a certificate of ownership subject to a security interest or other lien on file in the office of the department or for filing an assignment of any security interest or other lien on file with the department. All fees provided for in this section must be paid to the county treasurer. Of the $8 fee, $4 must be deposited in the state general fund in accordance with 15-1-504. (2) The department may not issue a certificate of ownership or reissue a certificate of ownership covering a vehicle on which the identification number has been altered, removed, obliterated, defaced, omitted, or is otherwise absent unless the owner or other person lawfully in possession of the vehicle files an application with the department, accompanied by a fee of $5. Upon receipt of the application and if the department is satisfied that the applicant is entitled to

The department may replace an identification mark only after conducting an inquiry to determine that ownership of the vehicle bearing a restored identification mark has been lawfully transferred to the applicant. The applicant shall apply for and the department shall replace the identification mark on the vehicle as required under subsection (2).

(4) Upon receipt by the department of a certificate of inspection completed by a peace officer or authorized member of the department verifying that the identification number has been stamped or securely attached in a conspicuous position upon the vehicle, accompanied by an application for a certificate of ownership and the required fee, the department shall use the number as the numeric or alphanumeric identification mark for the vehicle in any certificate of ownership that may be issued.

Part 2
Certificates of Ownership

61-3-201. Transfer of interest — cancellation of erroneous certificate of ownership or registration. (1) Upon a transfer of any interest in a motor vehicle registered under the provisions of this chapter, the person whose interest is to be transferred shall write his signature with pen and ink upon the certificate of ownership issued for the vehicle in the appropriate space provided, and the signature must be acknowledged before the county treasurer, a deputy county treasurer, an elected official authorized to acknowledge signatures, an employee of the department, or a notary public.

(2) Within 20 calendar days after endorsement, the transferee shall forward both the endorsed certificate of ownership with the odometer mileage statement required under 61-3-206 and the certificate of registration, together with the information required under 61-3-202, to the county treasurer, who shall forward them to the department. The department may not issue a certificate of ownership or certificate of registration until the outstanding certificates are surrendered to that office or their loss is established to its reasonable satisfaction. Failure to make application within the 20-day grace period subjects the transferee to a penalty of $10. The county treasurer shall collect the penalty at the time of registration. The penalty is in addition to the fees otherwise provided by law. If the transferee does not make application within 25 days, a creditor or secured party may pay the fees for the transfer of title and filing of security interest or lien in order to have title transferred to the transferee and have the security interest or lien filed. The creditor or secured party is not liable for the penalty, registration fees, or taxes. The department shall return the certificate of title to the county treasurer as provided in 61-3-103(1). When the certificate of ownership is returned by the department to the county treasurer, the treasurer shall hold the certificate of ownership until the vehicle is properly registered.

(3) In the event of a transfer by operation of law of any interest in a motor vehicle as upon inheritance, devise, or bequest, order in bankruptcy or insolvency, execution sale, repossession upon default in the performance of the terms of a lease or executory sales contract, or otherwise than by voluntary act of the person whose title or interest is transferred, the executor, administrator, receiver, trustee, sheriff, or other representative or successor in interest of the person whose interest is transferred shall forward to the department an application for a certificate of ownership in the form required by the department, together with a verified or certified statement of the transfer of interest. The statement must set forth the reason for the involuntary transfer, the interest transferred, the name of the person to whom the interest is to be transferred, the process of procedure effecting the transfer, and other information requested by the department. Evidence and instruments otherwise required by law to effect a transfer of legal or equitable title to or an interest in chattels as may be required in such cases must be furnished with the statement. If the department is satisfied that the transfer is regular and that all formalities required by law have been complied with, it shall send to the owner, conditional sales vendor, lessor, mortgagee, and other lienor, as shown by its records, notice of the intended transfer and, not less than 5 days after sending notice, shall issue a new certificate of ownership and certificate of registration to the transferee. The notice required by this section is complied with by deposit in the U.S. mail of the notice, postage prepaid, addressed to the person at the respective address shown on its records.

(4) When the vehicle certificate of ownership that is involuntarily transferred is not registered in this state, the procedure in subsection (3) must be followed in applying for a new certificate of ownership and certificate of registration; however, in lieu of the statement required in subsection (3), the department may accept an affidavit of repossession on the form provided by the state in which a lien has been perfected and the department need not send notice of intended transfer and shall issue a new certificate of ownership and a new certificate of registration to the person entitled to the certificates.

(5) (a) If the owner of one or more motor vehicles, trailers, semitrailers, or housetrailers registered under this chapter and not exceeding a combined value of $15,000 dies without leaving other property necessitating the procuring of letters of administration or letters testamentary, the surviving spouse or other heir unless the property is by will otherwise bequeathed may secure transfer of the decedent's certificate of ownership and the certificate of registration for the vehicle.

(b) The person seeking transfer of the certificate of ownership shall file an affidavit with the department setting forth the fact of survivorship and the name and address of any other heirs and other facts as are necessary under subsection (5)(a) to entitle the affiant to a transfer.

(c) The department is authorized to transfer the certificate of ownership and certificate of registration, subject to all security interests shown by its records, upon receipt of an affidavit showing that the affiant is entitled to a transfer under the provisions of subsection (5)(a).

(6) Nothing in subsection (5) prevents a secured party from assigning his interest in a motor vehicle registered under the provisions of this chapter to any other person without the consent of and without affecting the interest of the holder of the certificate of ownership and certificate of registration. Upon any assignment by a secured party of his security interest in any motor vehicle registered under this chapter, a copy of the assignment must be filed with the department and a record of the assignment made upon its records.

(7) The certificate of ownership is valid until canceled by the department upon a transfer of any interest shown in the certificate, and annual renewal is not needed.

(8) (a) Upon its determination that a certificate of ownership or a registration receipt contains an error or that the applicant has paid the required fees and taxes with an insufficient funds check and if the department has been notified of that fact by the county attorney, the department may cancel the certificate of ownership or receipt and, in the case of an error, issue a replacement for the erroneous certificate or receipt if the owner has returned the certificate or receipt to be canceled. If the owner fails to return to the department the certificate of ownership, the registration receipt, or the license plate, the department shall direct a peace officer or department employee to secure and return the certificate, receipt, or license plate to the department.

(b) Any person who fails to return a certificate of ownership or a registration receipt that contains an error or that has been canceled by the department due to an insufficient funds check, as provided in subsection (8)(a), after receiving actual notice of the department's demand for the return of the certificate or receipt, as required by subsection (8)(a), is guilty of a misdemeanor and upon conviction may be fined an amount not to exceed $500.

61-3-211. Surrender of certificate of ownership — issuance of salvage certificate — salvage retitling requirements. (1) An insurer acquiring ownership of a vehicle that is less than 5 years of age that he determines to be a salvage vehicle shall surrender the certificate of ownership to the department within 15 days after acquiring the certificate. If the insurer has not sold the salvage vehicle prior to the time of surrendering the certificate of ownership, the insurer shall apply for a salvage certificate on a form prescribed by the department. If the certificate of ownership names one or more holders of a perfected security interest in the vehicle, the insurer shall secure and deliver to the department a release from each secured party of the secured interest.

(2) Upon receipt of a properly executed certificate of ownership and a salvage certificate application from an insurer, the department shall issue a salvage certificate to the insurer within 5 working days of the date of receipt of the application. Upon receipt of a salvage certificate issued by the department to a noninsurer, the owner may possess, retain, transport, sell, transfer, or otherwise dispose of the salvage vehicle. Documentation provided by the owner or employee of a wrecking facility licensed under the provisions of Title 75, chapter 10, part 5, is prima facie evidence of the facts stated in the documentation.

(3) Following inspection and prior to operating the vehicle on the roads and highways of this state, the owner shall apply for a new certificate of ownership by submitting the application, the salvage certificate, receipts or bills of sale, and a copy of the inspection report to the department.

(4) Upon receipt of the application, required documentation, and payment of the fee for a salvage vehicle required in 61-3-202(8), the department shall issue a new certificate of ownership with the words "rebuilt salvage" on the face of the certificate.

(5) A person failing to comply with the provisions of this part is guilty of a misdemeanor and upon conviction shall be fined an amount not to exceed $500. The salvage vehicle purchaser shall produce the salvage certificate upon request of a public official legally entitled to request the certificate. 61-3-301. Registration — license plate required — display. (1) Except as otherwise provided in this chapter, a person may not operate a motor vehicle upon the public highways of Montana unless the vehicle is properly registered and has the proper number plates conspicuously displayed, one on the front and one on the rear of the vehicle, each securely fastened to prevent it from swinging and unobstructed from plain view, except that vehicles authorized to display demonstrator plates under 61-4-125 or 61-4-129 may have only one number plate conspicuously displayed on the rear. A person may not display on a vehicle at the same time a number assigned to it under any motor vehicle law except as provided in this chapter. (2) A person may not purchase or display on a vehicle a license plate bearing the number assigned to any county, as provided in 61-3-332, other than the county of the person's permanent residence at the time of application for registration. However, the owner of a motor vehicle requiring a license plate on a motor vehicle used in the public transportation of persons or property may make application for the license in any county through which the motor vehicle passes in its regularly scheduled route, and the license plate issued bearing the number assigned to that county may be displayed on the motor vehicle in any other county of the state.

(3) It is unlawful to use license plates issued to one vehicle on any other vehicle, trailer, or semitrailer unless legally transferred as provided by statute, or to repaint old license plates to resemble current license plates.

(4) This section does not apply to a vehicle exempt from taxation under 15-6-215 or subject to the registration fee or fee in lieu of tax under 61-3-520.

(5) A person violating these provisions is guilty of a misdemeanor and subject to the penalty prescribed in 61-3-601.

2001 Amendments — Composite Section: Chapter 257 in (5) substituted "The county treasurer shall forward the fee to the department of revenue, as provided in 15-1-504, for deposit in the general fund" for "Revenue from this fee must be forwarded by the respective county treasurers to the state treasurer for deposit in the general fund." Amendment effective July 1, 2001. The amendment by Ch. 574 rendered the amendment by Ch. 257 void.

Chapter 574 in (1) after "trailers" deleted "housetrailers"; substituted (1)(a) concerning light vehicle fee of $13.75 for "motor vehicles weighing 2,850 pounds or under (other than motortrucks), $5"; deleted former (1)(b) through (1)(f) that read: "(b) motor vehicles weighing over 2,850 pounds (other than motortrucks), $10;

(c) electrically driven passenger vehicles, $10;

(d) all motorcycles and quadricycles, $2;

(e) tractors or trucks, $10;

(f) buses, which are classed as motortrucks, licensed accordingly"; substituted (1)(b) concerning fee of $8.25 for certain trailers for "trailers and semitrailers, less than 2,500 pounds declared weight and housetrailers of all weights, $2"; substituted (1)(c) through (1)(l) establishing fees for vehicles registered pursuant to 61-3-411, off-highway vehicles, light vehicles over 2,850 pounds, logging trucks, motor homes, motorcycles and quadricycles, trailers and semitrailers, travel trailers, and recreational vehicles for former (1)(h) through (1)(j) that read: "(h) trailers and semitrailers over 2,500 up to 6,000 pounds declared weight (except housetrailers), $5;

(i) trailers and semitrailers over 6,000 pounds declared weight, $10, except trailers and semitrailers registered in other jurisdictions through a proportional registration agreement;

(j) trailers used exclusively in the transportation of logs in the forest or in the transportation of oil and gas well machinery, road machinery, or bridge materials, new and secondhand, $15 annually, regardless of size or capacity"; deleted former (2) and (3) that read: "(2) All rates are 25% higher for motor vehicles, trailers, and semitrailers that are not equipped with pneumatic tires.

(3) "Tractor", as specified in this section, means any motor vehicle, except a passenger car, that is used for towing a trailer or semitrailer"; in (2) near beginning after "motor vehicle" deleted "housetrailer" and at end deleted "except for trailers or semitrailers registered as provided in 61-3-721(6)"; inserted (3) concerning additional motorcycle safety fee; deleted former (5) that read: "(5) An additional fee of $5.25 a year for each registration of a vehicle, except trailers and semitrailers registered in other jurisdictions and registered through a proportional registration agreement, must be collected as a registration fee. Revenue from this fee must be forwarded by the respective county treasurers to the state treasurer for deposit in the general fund. The department shall pay an amount equal to 25 cents from each motor vehicle registration fee from the general fund to the pension trust fund for payment of supplemental benefits provided for in 19-6-709"; in (4) deleted former last sentence that read: "Revenue from this fee must be deposited as provided in subsection (5)"; inserted (6) concerning 25 cent fee for transportation of senior citizens and persons with disabilities; at end of (8) substituted "this section" for "subsections (1) and (5) of this section"; inserted (9) concerning deposit in general fund; and made minor changes in style. Amendment effective July 1, 2001.

The amendments to this section in sec. 9, Ch. 191, L. 2001, were rendered void by sec. 255(6), Ch. 574, L. 2001, a coordination section.

The amendments to this section in sec. 2, Ch. 337, L. 2001, were rendered void by sec. 255(10)(a), Ch. 574, L. 2001, a coordination section.

Applicability: Section 49, Ch. 257, L. 2001, provided: "[This act] applies to remittances of state money made to the department of revenue for fiscal years beginning after June 30, 2001."

Contingent Termination — Disposition of Funds: Section 7, Ch. 567, L. 1991, provided: "(1) The provisions of [sections 1 through 6] [19-6-709 and amendments to 17-7-502 and 61-3-321] terminate upon the death of the last recipient eligible under [section 1(2)] [19-6-709(2)] for the supplemental benefit provided by [section 1] [19-6-709].

(2) Money collected for the purposes of the supplemental payment under [section 1] [19-6-709] that remains in the account, meaning the highway patrol officers' retirement pension trust fund, upon termination of [sections 1 through 6] [19-6-709 and amendments to 17-7-502 and 61-3-321] must be used to amortize unfunded liabilities of the account.

The sentence in 61-3-321(5) concerning disposition of 25 cents for supplemental benefits is the language that terminates upon occurrence of contingency. This language was deleted by Ch. 574, L. 2001, so that the contingent termination is meaningless. The funding for the supplemental payment under 19-6-709 is contained in sec. 3, Ch. 574, L. 2001 (15-1-122).

The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(7) For the use of exempt motor vehicles and motor vehicles that are exempt from the registration fee as provided in 61-3-560(2)(a), in addition to the markings provided in this section, number plates must bear the following distinctive markings:

(a) For vehicles owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words “State Owned”, and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For vehicles that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the number plates assigned, in a position that the department may designate, the letter “X” or the word “EXEMPT”. Distinctive registration numbers for plates assigned to motor vehicles of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these number plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the number plates requires it and a year number may not be displayed on the number plates.

(8) Number plates issued to a passenger vehicle, truck, trailer, motorcycle, or quadricycle may be transferred only to a replacement passenger vehicle, truck, trailer, motorcycle, or

quadricycle. A registration or license fee may not be assessed upon a transfer of a number plate under 61-3-317 and 61-3-335.

Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of regular license plates, must be placed or mounted on a vehicle owned by the person who is eligible to receive them, and must be removed upon sale or other disposition of the vehicle. The special license plates must be issued to national guard members, former prisoners of war, persons with disabilities, reservists, disabled veterans, survivors of the Pearl Harbor attack, veterans of the armed services, national guard veterans, legion of valor members, or veterans of the armed services who were awarded the purple heart medal, who comply with the following provisions:

Special license plates issued to a 50% or more disabled veteran who has been awarded the purple heart under subsection (10)(c) may be retained by a surviving spouse, subject to payment of all taxes and fees required under parts 3 and 4 of this chapter as provided in subsection (10)(f)(iii).

Custom combiner's fee, 61-10-130.

61-3-501. When vehicle taxes and fees are due. (1) Light vehicle registration fees, local option vehicle taxes or fees, fees in lieu of tax, and other fees must be paid on the date of registration or reregistration of the vehicle.

(2) (a) If the anniversary date for reregistration of a vehicle passes while the vehicle is owned and held for sale by a licensed new or used car dealer, light vehicle registration fees, local option vehicle taxes or fees, or fees in lieu of tax abate on the vehicle properly reported with the county treasurer until the vehicle is the subject of a retail sale. After the sale, the purchaser shall pay the pro rata balance of the light vehicle registration fees, local option vehicle taxes or fees, or fees in lieu of tax due and owing on the vehicle.

(b) A person selling a vehicle or trading a vehicle to a dealer shall disclose to the purchaser any amount of taxes or fees in lieu of tax that are due or past due on the vehicle at the time the person sells a vehicle or trades a vehicle to a dealer. If the disclosure is not made, the person selling the vehicle or trading the vehicle to the dealer shall pay the taxes or fees. Taxes or fees in lieu of tax that are due or past due on a vehicle at the time that a person sells or trades the vehicle to a dealer must be paid by the person who sold or traded the vehicle to the dealer, unless the person who purchases the vehicle from the dealer agrees in writing to assume the payment of those taxes or fees. This subsection (2)(b) does not apply to fleet vehicles, leased vehicles, or rental return vehicles.

(c) For the purposes of this subsection (2), a retail sale does not include a transfer between any of the following:

(i) a licensed new motor vehicle or used motor vehicle dealer;
(ii) another licensed new motor vehicle or used motor vehicle dealer;
(iii) a licensed wholesaler; or
(iv) a licensed auto auction.

(3) In the event that a vehicle's registration period is changed under 61-3-315, all light vehicle registration fees, local option vehicle taxes or fees, fees in lieu of tax, and other fees due must be prorated and paid from the last day of the old period until the first day of the new period in which the vehicle is registered. The light vehicle registration fees, local option vehicle taxes or fees, fees in lieu of tax, and other fees must be paid from the first day of the new period for a minimum period of 1 year. When the change is to a later registration period, light vehicle

registration fees, local option vehicle taxes or fees, and other fees must be prorated and paid based on the same tax year as the original registration period. Thereafter, during the appropriate anniversary registration period, each vehicle must again be registered or reregistered and all light vehicle registration fees, local option vehicle taxes or fees, and other fees must be paid for a 12-month period.

61-3-503. Assessment. (1) Except as provided in 61-3-520 and subsection (4) of this section, the following apply to the taxation of motor vehicles:

(a) For the purposes of imposing the local option vehicle tax under 61-3-537, light vehicles subject to the provisions of 61-3-313 through 61-3-316 must be assessed as of the first day of the registration period, using the depreciated value of the manufacturer's suggested retail price as determined in subsection (2).

(b) A lien for taxes and fees due on the vehicle occurs on the anniversary date of the registration and continues until the fees and taxes have been paid. If the depreciated value is less than $500, the department shall value the vehicle at $500.

(2) (a) Except as provided in subsections (2)(c) and (2)(d), the depreciated value for the taxation of light vehicles is computed by multiplying the manufacturer's suggested retail price by a percentage multiplier based on the type and age of the vehicle determined from the following table:

Age of Vehicle (in years)	Type of Vehicle Automobile	Truck	Van	Sport Utility
-1	100%	100%	100%	100%
0	90	96	93	98
1	80	91	86	94
2	69	86	78	90
3	58	80	69	84
4	49	73	60	76
5	41	66	52	67
6	33	57	45	57
7	26	49	38	48
8	21	43	32	39
9	17	37	27	33
10	14	31	22	29
11	12	26	18	25
12	10	22	15	22
13	09	18	13	21
14	09	15	11	19
15	09	13	09	17
16	09	12	09	15

(b) The age for the light vehicle is determined by subtracting the manufacturer's model year of the vehicle from the calendar year for which the tax is due.

(c) If the value of the vehicle determined under subsection (2)(a) is $500 or less, the value of the vehicle is $500 and the value must remain at that amount as long as the vehicle is registered.

(d) The depreciated value of a light vehicle that is 17 years old or older is computed by depreciating the value obtained for the vehicle at 16 years old, as determined under subsection (2)(a), by 10% a year until a minimum value of $500 is attained. The value must remain at that amount as long as the vehicle is registered.

(3) (a) For the purposes of this section, "manufacturer's suggested retail price" means the price suggested by the manufacturer for each given type, style, or model of light vehicle produced and first made available for retail sale by the manufacturer.

(b) The manufacturer's suggested retail price is based on standard equipment of a vehicle and does not contain price additions or deductions for optional accessories.

(c) When a manufacturer's suggested retail price is unavailable for a motor vehicle, the department shall determine an alternative valuation for the vehicle.

(4) The provisions of subsections (1) through (3) do not apply to buses, trucks having a manufacturer's rated capacity of more than 1 ton, truck tractors, motorcycles, motor homes, quadricycles, travel trailers, campers, mobile homes or manufactured homes as those terms are defined in 15-1-101(1).

61-3-701. Foreign vehicles used in gainful occupation to be registered — reciprocity. (1) Before a foreign licensed motor vehicle may be operated on the highways of this state for hire, compensation, or profit or before the owner or user of the vehicle uses the vehicle if the owner or user is engaged in gainful occupation or business enterprise in the state, including highway work, the owner of the vehicle shall apply to a county treasurer for registration upon an application form furnished by the department. Upon satisfactory evidence of ownership submitted to the county treasurer and the payment of fees in lieu of taxes or registration fees, if appropriate, as required by 15-8-201, 15-8-202, 15-24-301, 61-3-529, 61-3-537, or 61-3-560 and 61-3-561, the treasurer shall accept the application for registration and shall collect the regular license fee required for the vehicle.

(2) Upon payment of the fees or taxes, the treasurer shall issue to the applicant a copy of the certificate entitled "Owner's Certificate of Registration and Payment Receipt" and forward a duplicate copy of the certificate to the department. The treasurer shall at the same time issue to the applicant the proper license plates or other identification markers, which must at all times be displayed upon the vehicle when operated or driven upon roads and highways of this state during the effective period of the license.

(3) The registration receipt does not constitute evidence of ownership but must be used only for registration purposes. A Montana certificate of ownership may not be issued for this type of registration.

(4) This section is not applicable to a vehicle covered by a valid and existing reciprocal agreement or declaration entered into under the provisions of the laws of Montana.

An agreement or arrangement entered into or a declaration issued under the authority of 61-3-711 through 61-3-733 may contain provisions authorizing the registration or licensing in another jurisdiction of vehicles located in or operated from a base in such other jurisdiction, which vehicles otherwise would be required to be registered or licensed in this state; and in such event the exemptions, benefits, and privileges extended by such agreement, arrangement, or declaration shall apply to such vehicles, when properly licensed or registered in such base jurisdiction.

61-3-716. Proportional registration of fleet vehicles. (1) If a jurisdiction permits or requires the licensing of fleets of vehicles in interstate or combined interstate and intrastate commerce and payment of registration fees, license fees, taxes, or other fixed fees on those vehicles on an apportionment basis commensurate with and determined by the miles traveled on and the use made of the jurisdiction's highways, as compared with the miles traveled on and the use made of other jurisdiction's highways or any other equitable basis of apportionment, and exempts vehicles registered in any other jurisdiction under this apportionment basis from the requirements of full payment of its own registration, license fees, taxes, or other fixed fees, then the department may, by agreement, adopt exemptions with respect to vehicles of these fleets, whether owned by residents or nonresidents of this state and regardless of where based. An agreement, under the terms, conditions, or restrictions that the department considers proper, may provide that owners of vehicles operated in interstate or combined interstate and intrastate commerce in this state be permitted to pay registration, license fees, taxes, or other fixed fees on an apportionment basis, commensurate with and determined by the miles traveled on and the use made of the highways of this state as compared with the use made of the highways of other jurisdictions or any other equitable basis of apportionment. This agreement may not authorize or be construed to authorize a vehicle so registered to be operated in intrastate commerce in this state unless the owner of the vehicle has been granted intrastate authority or rights by the public service commission if a grant is otherwise required by law.

(2) The department of transportation may adopt rules that it considers necessary to carry out and administer this section, and the registration of fleet vehicles under 61-3-711 through 61-3-733 is subject to the rights, terms, and conditions granted by or contained in any applicable agreement, arrangement, or declaration made by the department. The department of transportation shall adopt rules providing for a change of registration period for a fleet in a case in which the owner of the fleet requests that the registration period be changed to coincide with the registration period of one or more other fleets in the same ownership.

Application for registration, 61-3-303.

61-3-722. Registration and identification of proportionally registered vehicles — fees — effect of registration. (1) The department shall register each proportionally registered vehicle and issue a license plate or plates, a distinctive sticker, or other suitable identification device for each vehicle described in the application upon payment of the appropriate fees and property taxes, as provided by law, for the application and for the license plates, stickers, or devices issued. A fee of $2 must be paid for each license plate, each sticker, and each device issued for each proportionally registered vehicle. A fee of $5 must be paid for each vehicle receiving temporary registration as authorized by section 704 of the international registration plan of the American association of motor vehicle administrators, adopted in April 1988. A registration card must be issued for each proportionally registered vehicle. The registration card must, in addition to other information required by chapter 3, show the number of the license, sticker, or other device issued for the proportionally registered vehicle and must be carried in the vehicle at all times.

(2) Fleet vehicles registered and identified as fleet vehicles are considered fully licensed and registered in this state for any type of movement or operation, except that, in those instances in which a grant of authority is required for intrastate movement or operation, the vehicle may not be operated in intrastate commerce in this state unless the owner has been granted intrastate authority by the public service commission and unless the vehicle is being operated in conformity with that authority.

61-3-723. Proportional registration not applicable in a single jurisdiction. The right to the privilege and benefits of proportional registration of fleet vehicles extended by 61-3-711 through 61-3-733, or by any contract, agreement, arrangement, or declaration made under the authority thereof, shall be subject to the condition that each fleet vehicle proportionally registered under the authority of 61-3-711 through 61-3-733 shall also be proportionally or otherwise properly registered in at least one other jurisdiction during the period for which it is proportionally registered in this state.

History: En. Sec. 14, Ch. 206, L. 1963; R.C.M. 1947, 53-714.

61-3-724. Registration of additional fleet vehicles. Vehicles acquired by the owner after the commencement of the registration period and subsequently added to a proportionally registered fleet must be proportionally registered by applying the mileage percentage used in the original application for the fleet for the registration period to the regular registration fees due with respect to the vehicle for the remainder of the registration period.

History: En. Sec. 15, Ch. 206, L. 1963; R.C.M. 1947, 53-715; amd. Sec. 7, Ch. 42, L. 1995.

61-3-725. Withdrawal of fleet vehicles — procedure, credits, and accounting. (1) If a vehicle is withdrawn from a proportionally registered fleet during the period for which it is registered, the owner of the fleet shall notify the department of transportation of that fact on forms prescribed by the department. The department may require the owner to surrender proportional registration cards and other identification devices that have been issued with respect to that vehicle. If a vehicle is permanently withdrawn from a proportionally registered fleet because it has been destroyed, sold, or otherwise completely removed from the service of the registrant, the unused portion of the gross vehicle weight fees paid with respect to that vehicle must be credited to the proportional registration account of the owner. This unused portion equals the amount paid with respect to the vehicle when it was first proportionally registered in the registration period, reduced by one-twelfth of the total annual gross vehicle weight fee of the vehicle for each calendar month and fraction of a month elapsing between the first day of the month of the current period in which the vehicle was registered and the date the notice of withdrawal is received by the department. This credit must be applied against liability for additional fees due during the registration period or for additional fees due upon audit under 61-3-728. If a credit is less than $5, it may not be made or entered. In no event may the amount be credited against fees other than those for the registration period, nor may any amount be subject to refund.

(2) If the owner replaces a vehicle withdrawn from the fleet at the same time as the withdrawal and the replacement vehicle is of the same or of a lesser weight category than the one withdrawn, the gross vehicle weight fees are transferable to the replacement vehicle. If the transfer is to a smaller vehicle, credit may not be given or entered.

61-3-726. New fleet — estimated mileage. The initial application for proportional registration of a fleet shall state the mileage data with respect to the fleet for the preceding year in this and other jurisdictions. If operations were not conducted with this fleet during the preceding year, the application shall contain a full statement of the proposed method of operation and estimates of annual mileage in this state and other jurisdictions. The department shall determine the in-state and total fleet miles to be used in computing the fee payment for the fleet. The department may evaluate and adjust the estimate in the application if it is not satisfied as to the correctness of the estimate.

61-3-727. Fleet registration — denial when no reciprocity. The department may refuse to accept proportional registration applications for the registration of vehicles based in, or owned by residents of, another jurisdiction if the department finds that the other jurisdiction does not grant similar registration privileges to fleet vehicles based in or owned by residents of this state.

History: En. Sec. 18, Ch. 206, L. 1963; amd. Sec. 199, Ch. 316, L. 1974; R.C.M. 1947, 53-718.

61-3-728. Preservation of proportional registration records. An owner whose application for proportional registration has been accepted shall preserve the records on which the application is based for a period of 4 years following the year or period upon which the application is based. Upon request of the department, the owner shall make these records available to the department for audit as to accuracy of computations and payments or pay the reasonable costs of an audit at the owner's home office by an appointed representative of the department. The department may make arrangements with agencies of other jurisdictions administering motor vehicle registration laws for joint audits of the owner.

61-3-729. Relation to other state laws. The provisions of 61-3-711 through 61-3-733 shall constitute complete authority for the registration of fleet vehicles upon a proportional registration basis without reference to or application of any other statutes of this state except as in this section expressly provided.

61-3-736. Assessment of proportionally registered interstate motor vehicle fleets — payment of fees required for registration. (1) (a) The department of transportation shall determine the fee for the purpose of imposing the fee in lieu of tax as provided in 61-3-528 and 61-3-529 on buses, trucks having a manufacturer's rated capacity of more than 1 ton, and truck tractors and the light vehicle registration fee under 61-3-560 and 61-3-561 on light vehicles in interstate motor vehicle fleets that are proportionally registered under the provisions of 61-3-711 through 61-3-733. The fee must be apportioned on the ratio of total miles traveled to in-state miles traveled as prescribed by 61-3-721. The fee in lieu of tax or registration fee on interstate motor vehicle fleets is imposed upon application for proportional registration and must be paid by the persons who own or claim the fleet or in whose possession or control the fleet is at the time of the application.

(b) With respect to an original application for a fleet that has a situs in Montana for the purpose of the fee in lieu of tax or registration fee under this part or any other provision of the laws of Montana, the fee in lieu of tax or registration fee on fleet vehicles must be prorated according to the ratio that the remaining number of months in the year bears to the total number of months in the year.

(c) Vehicles subject to the light vehicle registration fee as part of a fleet under this subsection (1) are not subject to the local option tax or flat fee imposed under 61-3-537 or 61-3-570.

(2) With respect to a renewal application for a fleet, the fee in lieu of tax and the light vehicle registration fee are imposed for a full year. The department of transportation shall prorate the new fee in lieu of tax in 61-3-529 for motor vehicles that are proportionally registered, as provided in 61-3-721, and whose annual registration period does not coincide with the calendar year.

(3) Vehicles contained in a fleet for which current fees have been assessed and paid may not be assessed or charged fees under this section upon presentation to the department of proof of payment of fees for the current registration year. The payment of fleet vehicle fees in lieu of tax, light vehicle registration fees, and license fees is a condition precedent to proportional registration or reregistration of an interstate motor vehicle fleet.

(4) All fees collected on motor vehicle fleets under this chapter must be deposited and distributed as provided in 61-3-738.

61-4-101. Dealer's license — types of licenses and terms — plates — bonds — zoning. (1) Except as provided in 61-4-125, a person may not engage in the business of buying, selling, exchanging, accepting on consignment, or acting as a broker of a new motor vehicle or used motor vehicle, new or used recreational vehicle, trailer (except a trailer having an unloaded weight of less than 500 pounds), motorcycle, quadricycle, or special mobile equipment that is not registered in the person's name, unless the person is the holder of a dealer's license issued by the department under this part.

(2) (a) The department is authorized to issue a dealer's license for one or more specified vehicle types to any person whom it determines is qualified to hold a license under the provisions of this section. A dealer's license may be issued for, and restricted to, one or more of the following vehicle types:

(i) new motor vehicle;
(ii) used motor vehicle;
(iii) new recreational vehicle;
(iv) used recreational vehicle;
(v) trailer or special mobile equipment; or
(vi) motorcycle or quadricycle.

(b) For each type of dealer's license authorized, the department shall design and issue dealer and demonstrator plates as provided in 61-4-102 and 61-4-129.

(c) With the exception of a licensed new motor vehicle dealer, a dealer licensed for a particular type of vehicle may sell, trade, or accept on consignment only vehicles of the type for which the license is authorized, unless the dealer's license specifically refers to more than one vehicle type, such as a motorcycle or quadricycle license. A new motor vehicle dealer is authorized to sell, trade, or accept on consignment new motor vehicles or used motor vehicles.

(d) Regardless of vehicle type, a dealer's license issued by the department has a term of 1 calendar year, commencing on or after January 1 in the year of issue and expiring on December 31 of the same year.

(3) (a) An applicant for a dealer's license shall submit a written application for a dealer's license to the department, specifying the type or types of dealer's license sought. The application must be signed by the applicant and contain a verification by the applicant, under penalty of law, that the information contained in the application is true and correct. Any information provided in the license application process is subject to independent verification by the department or an authorized representative of the department.

(b) After examining a license application and conducting an investigation necessary to verify the information contained in the application and if the department is satisfied that the applicant qualifies for the issuance of a license under the provisions of this chapter, the department may issue the license. The department may refuse, after examination and investigation, to issue a license to an applicant who is not qualified for licensure or whose prior financial or other activities or criminal record, as determined by the department:

(i) poses a threat to the effective regulation of dealers, wholesalers, or auto auctions;
(ii) poses a threat to the public interest of the state; or
(iii) creates a danger of illegal or deceptive practices being used in the conduct of the proposed dealership, wholesaler, or auto auction.

(4) To be qualified for licensure as a dealer, an applicant shall provide to the department the following:

61-4-102. Dealer's license numbers — assignment, numbering, and limitation of dealer plates — restriction of use — fees. (1) Upon the licensing of a dealer, the department shall assign to the dealer a distinctive serial license number as a dealer and furnish the dealer with one or more sets of numbered dealer plates in accordance with the provisions of this section.

(2) (a) Dealer plates designed by the department must be similar to the numbered plates furnished to owners of motor vehicles under 61-3-332, but they must bear:

(i) the license number assigned to the dealer;

(ii) an abbreviation for the vehicle type of the dealer's license issued, as follows:

(A) the letter "D" for a new motor vehicle dealer;

(B) the letters "UD" for a used motor vehicle dealer; or

(C) the letters "RV" for a new or used recreational vehicle dealer; and

(iii) the actual number of sets of dealer plates issued to the dealer.

(b) Dealer plates may not be issued to a motorcycle or trailer dealer or a wholesaler.

(3) Dealer plates must contain the prefix of the county in which the dealer's established place of business is located, followed by the dealer's license type abbreviation, the dealer's license number, and the number of sets of dealer plates issued to that dealer. For example, new motor vehicle dealer number 4 in Lewis and Clark County would be numbered 5D-4, and if the dealer were issued three sets of dealer plates, they would be numbered consecutively as follows, 5D-4-1, 5D-4-2, and 5D-4-3.

(4) (a) In addition to the fees required under the provisions of 61-4-101 and 61-4-124, an applicant for a dealer's license shall pay an annual fee of $25, for each set of numbered dealer plates requested and issued.

(b) The number of dealer plates that may be issued to a dealer must be determined as follows:

(i) a dealer is entitled to one set of dealer plates upon the issuance of an original license or a renewed license;

(ii) an applicant qualified for a license renewal is entitled to additional sets of numbered plates based on the following formula:

(A) 5% of the first 100 vehicle sales for the previous year; plus

(B) 3% of the next 100 vehicle sales for the previous year; plus

(C) 2% of vehicle sales in excess of 200 for the previous year; and

(iii) a dealer is entitled to additional sets of dealer plates during a license term as the dealer's sales incrementally meet or exceed the requirements of the formula established in subsection (4)(b)(ii). However, the aggregate number of sets of dealer plates issued to a dealer under this subsection (4)(b)(iii) may not exceed the combined number allowed under subsections (4)(b)(i) and (4)(b)(ii).

(5) (a) A dealer is authorized to use and display dealer plates on a motor vehicle held for bona fide sale by the dealer and that is operated by or under the control of the dealer, the dealer's spouse, officers, or employees.

(b) For purposes of this subsection (5):

(i) the term "officers" includes only the persons listed on the manufacturer's franchise agreement or the importer's distribution agreement and the term "employees" means persons upon whom the dealer has paid social security taxes as a full-time employee; and

(ii) the display of a Monroney label or a buyer's guide label, as required by 61-4-123(2), on a vehicle bearing dealer plates is prima facie evidence that the vehicle is offered for bona fide sale by the dealer.

(6) Dealer plates may not be used or displayed on vehicles used for hire, lease, or rental.

(7) (a) A dealer is accountable for each set of numbered dealer plates issued and shall file a quarterly report with the department certifying the disposition of each set of dealer plates assigned to the dealer and specifying the name, address, and occupation of the person primarily using each set of plates.

(b) A dealer who fails to submit an accountability report within 30 days of the end of the calendar quarter may be subject to the imposition of a civil penalty under 61-4-105.

(8) All numbered dealer plates expire on December 31 of the year of issue and are subject to renewal in accordance with the provisions of 61-4-124 and this section.

61-4-104. Record of purchase or sale. A dealer or wholesaler licensed under 61-4-101 shall keep a book or record of the purchases, sales or exchanges, or receipts for the purpose of sale of used vehicles and a description of the vehicles, together with the name and address of the seller, of the purchaser, and of the alleged owner or other person from whom each vehicle was purchased or received or to whom it was sold or delivered, as the case may be. The description in the case of motor vehicles must also include the vehicle identification number and engine number, if any, and must include a statement that a number has been obliterated, defaced, or changed if that has occurred. In the case of a trailer, semitrailer, or special mobile equipment, the record must include the manufacturer's number and other numbers or identification marks that appear on the trailer, semitrailer, or special mobile equipment. The dealer or wholesaler must also have a duly assigned certificate of ownership from the owner of the motor vehicle to the dealer or wholesaler from the time the motor vehicle is delivered to the dealer or wholesaler until it has been disposed of by the dealer or wholesaler. It is a violation of this part for a dealer or wholesaler to fail to take assignment of all certificates of ownership or manufacturer's certificates of origin for vehicles acquired by the licensee or to fail to assign the certificate of ownership or manufacturer's certificate of origin for vehicles sold. All records required to be kept in accordance with this section, in addition to the required retention of odometer disclosure information under 61-3-206(4), must be physically located and maintained within the building referred to in 61-4-101. (b) may transfer or receive ownership of a motor vehicle by use of a dealer reassignment section on a certificate of ownership; however, when the allotted number of dealer reassignment sections on a certificate of ownership has been completed, ownership of the vehicle may not be transferred until an application for a certificate of ownership has been submitted by the dealer to the department and a new certificate of ownership has been issued.

(2) Upon the transfer of a used motor vehicle to a person other than a licensed dealer, broker, or wholesaler, the following acts are required of the dealer on or before the times set forth in this subsection:

(a) Prior to delivery of the vehicle to the purchaser, the dealer shall issue and affix to the rear window of the vehicle a 20-day permit in a form to be prescribed by the department and containing the name and address of the purchaser, date of sale, name and address of the dealer, and a description of the vehicle, including its serial number. There must be imprinted on the permit in bold letters the following statement: "IT IS UNLAWFUL TO PLACE LICENSE PLATES UPON THIS VEHICLE UNTIL REGISTERED AT THE OFFICE OF THE COUNTY TREASURER". One copy of the permit must be delivered by the dealer to the county treasurer in the manner prescribed in subsection (2)(b), and a copy must be retained by the dealer for the dealer's file. It is unlawful for the dealer to issue more than one permit per vehicle sale.

(b) Within 4 working days following the date of delivery of the vehicle, the dealer shall forward to the county treasurer of the county where the purchaser resides the certificate of ownership and certificate of registration (if the certificates are then in the dealer's possession), with an application for registration executed by the new owner in accordance with the provisions of 61-3-322, and a copy of the permit affixed to the vehicle by the dealer. The department, upon receipt of the documents from the county treasurer, together with the conditional sales contract or other lien, if any, shall issue a new certificate of ownership and certificate of registration, together with a statement of any conditional sales contract, mortgage, or other lien as provided in 61-3-202. Transmission of the documents by the dealer to the county treasurer may be accomplished either by personal delivery or by first-class mail, in which event they are considered to have been delivered at the time of mailing.

(c) If the dealer is unable to forward the certificate of ownership or certificate of registration within the time set forth in subsection (2)(b) because the certificate is lost, is in the possession of third parties, or is in the process of reissuance in this state or elsewhere, the dealer shall comply in all other respects with the provisions of subsection (2)(b) and shall forward the missing document or documents to the county treasurer, either personally or by first-class mail, within 3 days after receipt.

(3) Upon compliance by the dealer with the requirements in this section, title to the motor vehicle is considered to have passed to the purchaser as of the date of the delivery of the vehicle to the purchaser by the dealer, and the dealer has no further liability or responsibility with respect to the processing of registration.

(4) For purposes of this section, "motor vehicle" includes a trailer as defined in 61-1-111.

61-4-120. Application for auto auction license — general regulations. (1) A person, firm, association, or corporation that takes possession of a motor vehicle owned by another person through consignment, bailment, or any other arrangement for the purpose of selling the motor vehicle to the highest bidder when all buyers are licensed motor vehicle dealers, wholesalers, or wrecking facilities shall file by mail or otherwise in the office of the department a verified application for licensure as an auto auction. The application must be made in the following manner:

(a) Each application and all of the information contained in it must be verified by the department or an authorized representative of the department on a form to be furnished by the department for that purpose. The application must provide the following information:

(i) the name in which the business is to be conducted and the location of premises, including street address, city, county, and state, where records are kept, sales are made, and motor vehicle stock is displayed as an established place of business that displays a sign indicating the firm name and that vehicles are offered for sale. The letters on the sign must be clearly visible and readable to the major avenue of traffic at a minimum distance of 150 feet.

(ii) the name and address of all owners or persons having an interest in the business. In the case of a corporation, the names and addresses of the president and secretary are sufficient.

(iii) a statement that the applicant is authorized to auction used motor vehicles, recreational vehicles, trailers, semitrailers, special mobile equipment, motorcycles, and quadricycles under one license. A licensed auto auction may not auction a new motor vehicle except when authorized by a new motor vehicle manufacturer, importer, distributor, or representative, for the purpose of conducting a closed-factory fleet sale to dispose of new motor vehicles by the franchisor (manufacturer, distributor, or importer) to franchisee purchasers when the purchasers are licensed new motor vehicle dealers purchasing new motor vehicle line-makes authorized by their respective franchise, sales, or distributor agreements. An auto auction licensed under the provisions of this section shall notify and update the department with current fleet sale agreements between the auto auction and franchisor. An auto auction may not conduct a factory fleet sale unless authorized or appointed by a franchisor licensed under part 2 of this chapter.

(b) Each application must be accompanied by a bond of $35,000 and must be conditioned that the applicant shall conduct business in accordance with the requirements of the law. All bonds must run to the state of Montana, must be approved by the department and filed in its office, and must be renewed annually.

(2) An auto auction's license must be renewed and paid for annually to the department, and an application for relicensure must be filed by January 1 of each year. The fee required for each first-time applicant is $500 and for subsequent renewal applications is $100 each year. Upon receipt of a properly completed application, fee, and bond, the department shall issue the auto auction license and assign an auto auction license number for each applicant in a manner determined by the department. Auto auctions dealing in motor vehicles may sell only to licensed dealers and wholesalers.

(3) Auto auctions that are licensed under this section and that hold a current license number may issue temporary permits, which may be displayed and used by a buyer to operate an unregistered vehicle purchased from the auto auction. The temporary permit is valid for a period of 72 hours from the time of purchase and may be used only for the purpose of driving or transporting a vehicle from the auction premises to the purchaser's established place of business or point of destination. Temporary permits must be on a form prescribed by the department and must contain the name, address, and license number of the purchaser, the date of sale, the name, address, license number, and authorized signature of the auto auction, and a

description of the vehicle, including its serial number. The department shall collect a fee of $10 from the auto auction for each temporary permit, and the auto auction may charge a vehicle purchaser no more than $10 for the issuance of each permit to offset the cost of the permit. It is unlawful for the auto auction to issue more than one temporary permit per vehicle sale.

(4) A licensed auto auction may apply for and may be authorized by the department to purchase and use license plates of a type and amount approved by the department, upon payment of a fee to the department to offset the cost of production. Licensed auto auctions may use the license plates to transport inventory vehicles from a point of storage or a point of delivery in this state to the auto auction's place of business, for road testing authorized vehicles, or for moving vehicles for purposes of repairing, painting, upholstering, polishing, and related activities. One license plate is required to be conspicuously displayed on the rear of the vehicle. Auto auctions may appoint designated persons, partnerships, corporations, service stations, or repair garages to use the license plate only when conducting work for the auto auction involving repairing, painting, upholstering, polishing, or performing similar types of work upon a vehicle. Upon application for an auto auction license, the applicant, if requesting the license plates, shall submit a sworn affidavit on a form prescribed by the department, listing each authorized person designated by the auction to use the license plates. The auto auction is responsible for reporting any changes to the affidavit within 72 hours after the amendment has occurred. An auto auction licensed under the provisions of this section is liable for the proper use of the license plates, which may not be used for private purposes. The department may revoke an auto auction's 72-hour temporary permit and license plate privileges if an auction issues, authorizes the use of, or uses a temporary permit or the license plate in violation of the provisions of this section.

(5) (a) Each auto auction shall keep a book or record, in a form and manner subject to approval by the department, of the purchases, sales, or exchanges or the receipts for the purpose of sale of any motor vehicle, a properly completed copy of a temporary permit issued to a vehicle purchaser, the date of title transfer, and a description of the motor vehicle, together with the name and address of the seller, the purchaser, and the alleged owner or other person from whom the motor vehicle was purchased or received or to whom it was sold or delivered. The description in the case of a motor vehicle must include:

(i) the vehicle identification number and engine number, if any; and

(ii) a statement that a number has been obliterated, defaced, or changed, if it has.

(b) An auto auction licensed under this section shall validate the sale of a motor vehicle through its auction by stamping its name and license number upon the certificate of ownership at a location on the front or back of the certificate, at the margin in the assignment section as executed between the transferor and transferee. An auto auction's stamp must be legible and may not interfere with the information recorded on the certificate between the transferor and transferee. If the certificate of ownership lacks adequate space for the auto auction to place its stamp, the auction may provide the transferee a copy of the auction invoice bearing the:

(i) name and license number of the auction, along with an indication of the vehicle year, make, model, and identification number;

(ii) name, address, and signature of the transferor;

(iii) name, license number, and signature of the transferee; and

(iv) date the vehicle was sold through the auction.

(c) The invoice must be attached to the certificate of ownership and must be presented to the department with any application for title.

(d) An auto auction shall retain, for 5 years, odometer disclosure information, including the name of the owner on the date the auto auction took possession of the motor vehicle, the name of the buyer, the vehicle identification number, and the odometer reading on the date the auto auction took possession of the motor vehicle. The odometer information may be retained in any way that is systematically retrievable and is not required to be maintained on any special disclosure form. The information may be part of the auction receipt or invoice or be maintained as a portion of a computer database or manual file. An auto auction that executes a transfer of ownership as an agent on behalf of a seller or buyer is liable for providing an odometer disclosure statement for the seller or an odometer disclosure acknowledgment for the buyer under the provisions of 61-3-206.

(2) A dealer may not display at the dealer's established place of business or any approved off-premises sale location a vehicle offered for sale, trade, or consignment unless the Monroney label required for new motor vehicles pursuant to 15 U.S.C. 1232 or the buyer's guide label required for used motor vehicles pursuant to 16 CFR, part 455, is affixed to the side window of the vehicle or is conspicuously displayed within the vehicle in a fashion that is readily readable by a customer.

(3) Except as provided in subsection (4), a dealer may not sell or display a motor vehicle offered for sale at any geographic location other than that of the dealer's established place of business as listed on the dealer's license.

(4) (a) A dealer may conduct an off-premises display and sale at a geographic location other than that of the dealer's established place of business as listed on the dealer's license if the dealer notifies the department 10 days in advance, on a form prescribed by the department, of the opening date and location of an off-premises display and sale and obtains a permit from the department. The department may require proof from the dealer that the location proposed for

the off-premises display and sale is in compliance with local zoning ordinances. Except for recreational vehicle dealers, an off-premises display and sale must be conducted within the county of the dealer's licensed location. The display and sale may not exceed 10 consecutive days, and a licensed dealer may not conduct more than 10 off-premises displays and sales during any 1 calendar year.

(ii) conspicuously promotes a joint commercial endeavor between the dealer and another clearly identified business entity and the vehicle is displayed on premises owned or leased by the other business entity and where the other entity regularly conducts its business. A display under this subsection (4)(c)(ii) may not exceed 90 days.

(iv) If a used motor vehicle dealer also licensed as a motor vehicle wrecking facility ceases to do business as a wrecking facility and surrenders the wrecking facility license to the department of environmental quality, the dealer's license may be retained for the remainder of the license term, but after the current term, the dealer is subject to the retail sales requirements of subsection (4)(a).

(d) A dealer who fails to meet the retail sales requirements for license renewal under subsection (4)(a) is not eligible for license renewal and may not submit an application for another used motor vehicle dealer's license or a wholesaler's license for a period of 12 months from the expiration of the dealer's most recent license term.

61-4-125. Wholesaler's license. (1) (a) The department is authorized to issue a wholesaler's license to any person whom it determines is qualified to hold a license under the provisions of this section.

(b) A wholesaler is authorized to sell used motor vehicles, used recreational vehicles, trailers, motorcycles, quadricycles, or special mobile equipment. However, a wholesaler may sell a vehicle only to a dealer, an auto auction, or another wholesaler. Retail sale of vehicles by a wholesaler is not allowed.

(c) A wholesaler's license issued by the department has a term of 1 calendar year, commencing on or after January 1 in the year of issue and expiring on December 31 of the same year.

(d) The department shall design and issue wholesaler demonstrator plates of a similar sequence to demonstrator plates issued to dealers but that conspicuously display the term "wholesaler" or the abbreviation "W".

(2) To qualify for a wholesaler's license, an applicant shall submit a completed application, in a form prescribed by the department, that provides the following:

(a) the name under which the applicant intends to conduct business and the name, address, date of birth, and social security number of any person who possesses or will possess an ownership interest in the business for which the license is sought. If the applicant is a corporation, the personal information required in this subsection (2)(a) must be provided for each corporate officer and the person designated by the corporation to manage or oversee the dealership.

(b) for each person subject to the provisions of subsection (2)(a), information concerning whether the person has:

(i) an ownership interest in a vehicle dealership or wholesaler business in Montana or another jurisdiction and, if so, the name and address of each dealership or wholesaler; and

(ii) been found guilty of, or pleaded guilty to, a felony in this or any other jurisdiction and, if so, shall provide a summary of the conduct resulting in the felony charge, including the dates of the conduct and any judicial proceeding pertaining to the conduct and the name and address of any court in which the matter was heard;

(c) the name, address, and telephone number of the insurance carrier from whom the applicant has acquired garage liability insurance, naming the department as a certificate holder under the policy, and the name, address, and telephone number of the local insurance agent for the carrier and the applicant's policy number. The insurance must cover any vehicle bearing a wholesaler demonstrator plate that is offered for demonstration or loan to, or otherwise operated by, a customer in the regular course of the applicant's business and must be for a minimum of 1 year.

(d) the street address of the permanent nonresidential building or office where business records will be kept and will be made available for inspection by the department; and

(e) a bond of $35,000 filed with the department on behalf of the applicant. The bond must be conditioned that the applicant shall conduct business in accordance with the requirements of the law. The bond must be approved by the department and subject to annual renewal.

(3) The application fee for a wholesaler's license is $5, and the license fee is $25. Both fees must accompany an original or renewal wholesaler's license application.

(4) Wholesalers may not be issued or use dealer plates, as provided in 61-4-102. However, a wholesaler may be issued and is authorized to display and use a wholesaler demonstrator plate on any type of vehicle that a wholesaler is authorized to sell. The fee for a wholesaler demonstrator plate is $3. To the extent not inconsistent with this section, use of wholesaler demonstrator plates is otherwise governed by 61-4-129.

(5) (a) A wholesaler's license must be renewed annually, and application for renewal must be filed on or before December 31 of the expiring license term.

(b) To qualify for renewal of a wholesaler's license, a wholesaler shall submit a completed application, in a form prescribed by the department, updating prior submitted information, as originally supplied under subsection (2).

(c) Additionally, the wholesaler shall certify, under penalty of law, that 12 or more vehicles of the type authorized under the license were sold by the wholesaler to a dealer, auto auction, or another wholesaler during the expiring license term. A wholesaler who was licensed for less than a full calendar year in the expiring term shall certify, under penalty of law, to the sale of an average of at least one vehicle a calendar month, or portion of a calendar month, during which the expiring license was in effect.

(d) A wholesaler who fails to meet the sales requirements for license renewal under this section is not eligible for license renewal and may not submit an application for another wholesaler's license or a used motor vehicle dealer's license for a period of 12 months from the expiration of the wholesaler's most recent license term.

(6) A wholesaler whose completed renewal application has been received by the department on or before December 31 of the expiring license term may, if necessary, operate the business and display wholesaler demonstrator plates under the expired license through the last day of February of the following year.

(c) The obtaining of a license under this part or Title 61, chapter 4, part 1 conclusively establishes that a new motor vehicle dealer, manufacturer, distributor, or importer is subject to the laws of this state regulating new motor vehicle dealers, manufacturers, importers, and distributors.

(d) The provisions of subsection (5)(b) do not apply to dealers of personal watercraft, snowmobiles, or off-highway vehicles licensed under the provisions of Title 23.

(1) make investigations it considers necessary;

(2) conduct hearings and compel attendance of witnesses at the hearings pursuant to the Montana Administrative Procedure Act; and

(3) prescribe rules it determines necessary to carry out the provisions of this part.

61-4-204. Filing agreement — product liability. (1) A franchisee shall, at the time of application for a new motor vehicle dealer license under the provisions of Title 23 or 61-4-101, file with the department a certified copy of the franchisee's written agreement with a manufacturer and a certificate of appointment as dealer or distributor. The certificate of appointment must be signed by an authorized agent of the manufacturer of domestic vehicles whenever there is a direct manufacturer dealer agreement or by an authorized agent of the distributor whenever the manufacturer is wholesaling through an appointed distributorship. The certificate must be signed by an authorized agent of the importer of foreign-made vehicles whenever there is a direct importer-dealer agreement or by an authorized agent of the distributor whenever there is an indirect distributor-dealer agreement. The distributor's certificate of appointment must be signed by an authorized agent of the manufacturer of domestically manufactured vehicles or by an authorized agent of the manufacturer or importer of foreign-made vehicles.

(2) A franchisee need not file a written agreement or certificate of appointment if the manufacturer on direct dealerships or distributor on indirect dealerships or importer on direct dealerships uses the identical basic agreement for all its franchised dealers or distributors in this state and certifies in the certificate of appointment that the blanket agreement is on file and the written agreement with the particular dealer or distributor, respectively, is identical with the filed blanket agreement and that the franchisee has filed with the department one agreement together with a list of franchised dealers or distributors.

(3) A manufacturer, distributor, or importer shall notify the department within 30 days of any revision of or addition to the basic agreement on file or of any franchise supplement to the agreement. Annual renewal of a certificate filed as provided in this section is not required.

(4) A manufacturer shall file with the department a copy of the delivery and preparation obligations required to be performed by a dealer prior to the delivery of a new motor vehicle to a buyer. These delivery and preparation obligations constitute the dealer's only responsibility for product liability as between the dealer and the manufacturer. Any mechanical, body, or parts defects arising from an express or implied warranty of the manufacturer constitute the manufacturer's product or warranty liability only. However, this section may not affect the obligations of new motor vehicle dealers to perform warranty repair and maintenance that may be required by law or contract. Except with regard to household appliances, including but not limited to ranges, refrigerators, and water heaters, in a recreational vehicle, as defined in 61-1-132, and except with regard to a truck rated at more than 10,000 pounds gross vehicle weight, the manufacturer shall compensate an authorized dealer for labor, parts, and other expenses incurred by a dealer who performs work to rectify the manufacturer's product or warranty defect or for delivery and preparation obligations at the same rate and time the dealer charges to its retail customers for nonwarranty work of a like kind, based upon a published, nationally recognized, retail flat rate labor time guide manual if the dealer uses the manual as the basis for computing charges for both warranty and retail work.

(5) (a) All claims made by the dealer pursuant to this section for compensation for delivery, preparation, warranty, and recall service, including labor, parts, and other expenses, must be paid by the manufacturer within 30 days of receipt of the claim from the dealer, except that a manufacturer of a motor home, as defined in 61-1-130, shall pay any claim within 60 days of receipt from the dealer.

(b) If a claim is disapproved, the dealer must be notified in writing of the grounds for disapproval. A claim that has not been disapproved in writing within 30 days of having been received must be considered approved, and payment is due to the claimant immediately. However, the manufacturer retains the right to audit a claim for a period of 12 months following the payment of the claim.

(c) A claim that has been approved and paid may not be charged back to the dealer unless the manufacturer proves that:

(i) the claim was false or fraudulent;

(ii) the repairs were not properly made; or

(iii) the repairs were not necessary to correct the defective condition.

(d) A manufacturer may not deny a claim or reduce the amount to be reimbursed to the dealer if the dealer has provided reasonably sufficient documentation demonstrating that the dealer performed the services in compliance with the written policies and procedures of the manufacturer.

(e) A franchisor may reasonably and periodically audit a motor vehicle dealer to determine the validity of paid claims or chargebacks for customer or dealer incentives. An audit of incentive payments may apply only to the 18-month period immediately preceding the date on which the dealer was notified of an impending audit.

(6) The dealer shall furnish the purchaser of a new vehicle with a signed copy of the manufacturer's delivery and preparation requirements indicating that each of those requirements has been performed.

61-4-205. Limitations on cancellation and termination. (1) Notwithstanding the terms, provisions, or conditions of any agreement or franchise, a franchisor may not cancel, terminate, or refuse to continue a franchise unless the franchisor has cause for termination or noncontinuance.

(2) A franchisor may not enter into a franchise for the purpose of establishing an additional new motor vehicle dealership in any community in which the same line-make is then represented unless there is good cause for an additional new motor vehicle dealership under a franchise and it is in the public interest.

(3) If a franchisor seeks to terminate or not continue a franchise or seeks to enter into a franchise establishing an additional new motor vehicle dealership of the same line-make, the franchisor shall, not less than 60 days prior to the intended action, and the franchisee may, at any time, file a notice with the department of intention to terminate or not continue the franchise or to enter into a franchise for additional representation of the same line-make. A notice of intention to terminate or not continue a franchise is not required from a franchisor until the conclusion of any review proceeding of that intention offered to the franchisee under the franchise. This section does not apply to an intended termination or noncontinuance of a franchise that the franchisee elects voluntarily, pursuant to a plan established by a franchisor, to submit to binding arbitration.

(4) Upon receiving a notice of intention under the provisions of subsection (3), the department shall, within 5 days of receipt of a notice of intention, send by certified mail, with return receipt requested, a copy of the notice to the franchisor and to the franchisee whose franchise the franchisor seeks to establish, terminate, or not continue. If the notice states an intent to establish an additional new motor vehicle dealership, a copy of the notice must be sent within 5 days of receipt to all franchisees in the community who are then engaged in the business of offering to sell or selling the same line-make. Copies of notices must be addressed to the principal place of business of each recipient and to the statutory agent of each corporate recipient. The department may also give a copy of the franchisor's notice to any other parties whom the department may consider interested persons.

(5) In instances where the change in ownership has the effect of the sale of the franchise, the franchisor may not without good cause withhold its consent to the sale. Good cause relates only to the transferee's financial and managerial capabilities or to the inability of the transferee to comply with a state or federal law relating to new motor vehicle dealerships. The burden of establishing good cause is upon the franchisor.

(6) Notwithstanding the terms, provisions, or conditions of an agreement or franchise, in the event of the sale or transfer of ownership of the franchisee's dealership by sale or transfer of the business or by stock transfer to the dealer's or wholesaler's spouse, son, or daughter, the franchisor shall give effect to the sale or transfer of ownership in the franchise unless the transfer of the franchisee's new motor vehicle dealer's or wholesaler's license is denied or the new owner is unable to obtain a license under the laws of this state.

(7) If a franchisor enters into or attempts to enter into a franchise, whether upon termination or refusal to continue another franchise or upon the establishment of an additional new motor vehicle dealership in a community where the same line-make is then represented, without first complying with the provisions of this part, a license under Title 23 or 61-4-101 may not be issued to that franchisee or proposed franchisee to engage in the business of selling new motor vehicles manufactured or distributed by that franchisor.

(1) A person who receives or is entitled to receive a copy of a notice provided for in 61-4-205(4) may object to the approval of the proposed action by filing a written objection with the department within 15 days from the date the notice was received by the person entitled to receive the notice. If an objection is not filed within 15 days from the date the notice was received, the proposed action must be approved.

(2) If a timely objection has been filed, the department shall enter an order fixing the time, which must be within 30 days of the date of the order, and place of a hearing on the objection and shall send by certified mail with return receipt requested a copy of the notice provided for in 61-4-205(4).

(3) The department may upon request continue the date of hearing for a period of 30 days and may upon application, but not ex parte, continue the date of hearing for an additional period of 30 days.

(4) Upon hearing or upon objection to the establishment of a new motor vehicle dealership, the franchisor has the burden of proof to establish that good cause exists to terminate, not continue, or not establish the franchise.

(5) The rules of evidence for a hearing provided for in subsection (2) are the same as those found in Title 2, chapter 4. The department shall reasonably apportion all costs between the parties.

(6) The department may issue subpoenas, administer oaths, and compel the attendance of witnesses and production of books, papers, documents, and all other evidence. The department may apply to the district court of the county in which the hearing is held for a court order enforcing this section. The hearing must be conducted pursuant to Title 2, chapter 4.

(7) A transcript of the testimony of each witness taken at the hearing must be made and preserved. Within 30 days after the hearing, the department shall make written findings of fact and conclusions and enter a final order.

(8) Any party to the hearing before the department may appeal pursuant to Title 2, chapter 4.

(9) The franchise agreement must continue in effect until the adjudication by the department on the verified complaint and the exhaustion of all appellate remedies available to the franchisee. The franchisor and the franchisee shall abide by the terms of the franchise and the laws of Montana during the appeals process.

(a) amount of business transacted by the franchise;

(b) investment necessarily made and obligations incurred by the franchisee in the performance of the franchisee's part of the franchise;

(c) permanency of the investment;

(d) whether it is injurious to the public welfare for the business of the franchisee to be discontinued;

(e) whether the franchisee has adequate new motor vehicle facilities, equipment, parts, and qualified management, sales, and service personnel to reasonably provide consumer care for the new motor vehicles sold at retail by the franchisee and any other new motor vehicle of the same line-make;

(f) whether the franchisee refuses to honor warranties of the franchisor to be performed by the franchisee if the franchisor reimburses the franchisee for warranty work performed by the franchisee; and

(g) except as provided in subsection (2), failure by the franchisee to substantially comply with the written and uniformly applied requirements of the franchise that are determined by the department to be reasonable and material.

(2) Notwithstanding the terms, provisions, or conditions of an agreement or franchise, the following do not constitute good cause for the termination or noncontinuance of a franchise:

(a) a change in ownership of the franchisee's dealership; or

(b) the fact that the franchisee refused to purchase or accept delivery of a new motor vehicle, part, accessory, or any other commodity or service not ordered by the franchisee.

(3) In determining whether good cause has been established for entering into an additional franchise for the same line-make, the department shall take into consideration the existing circumstances, including but not limited to:

(a) amount of business transacted by other franchisees of the same line-make in that community;

(b) investment necessarily made and obligations incurred by other franchisees of the same line-make in that community in the performance of their part of their franchises; and

61-4-208. Prohibited acts. (1) A manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of the persons or entities listed may not:

(a) coerce, attempt to coerce, or require a new motor vehicle dealer to:

(i) accept delivery of a new motor vehicle, a part, or an accessory for a new motor vehicle or any other commodity that has not been ordered by the dealer;

(ii) participate in or contribute to any local, regional, or national advertising fund or to participate in or to contribute to contests, giveaways, or other sales devices;

(iii) change location of the dealership or to make substantial alterations to the use or number of franchises or the dealership premises or facilities when to do so would be unreasonable, or without written assurance of a sufficient supply of new motor vehicles that would justify an expansion;

(iv) either establish or maintain exclusive facilities, personnel, or display space or to abandon an existing franchise relationship with another manufacturer that was established before April 8, 1997, when those requirements are not justified by reasonable business considerations;

(v) refrain from participation in the management of, investment in, or acquisition of any other line of new motor vehicle or related products if the new motor vehicle dealer maintains a reasonable line of credit for each make or line of new motor vehicles and remains in compliance with any reasonable capital standards and facility requirements of the manufacturer; or

(vi) enter into an agreement with a manufacturer, factory branch, distributor, distributor branch, or representative of the listed persons or entities or do any other act unfair to the dealer by:

(A) threatening to cancel or not renew a franchise existing between the manufacturer, factory branch, distributor, distributor branch, or representative of the listed persons or entities and the dealer; or

(B) threatening to withhold, delay, or disrupt the receipt of new motor vehicles or any motor vehicle parts or supplies ordered by the dealer from the manufacturer, factory branch, distributor, distributor branch, importer, or representative or agent of the listed entities;

(b) delay, refuse, or fail to deliver new vehicles in a reasonable time in a reasonable quantity relative to the new vehicle dealer's facilities and sales potential after accepting an order from a new vehicle dealer if the new vehicles are publicly advertised as being available for immediate delivery; or

(c) impose unreasonable restrictions on the assertion of legal or equitable rights on the new motor vehicle dealer or franchise regarding transfer; sale; right to renew; termination; discipline; noncompetition covenants; site control, whether by sublease, collateral pledge of lease, or otherwise; or compliance with subjective standards.

(2) There is no violation of subsection (1)(a)(iii) or (1)(b) if a failure on the part of the manufacturer, factory branch, distributor, or distributor branch is beyond the control of the listed persons or entities.

(3) (a) Except as provided in subsection (3)(b) or (3)(c), a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may not own or operate, directly or indirectly, a motor vehicle dealership in Montana that is for sale or has been for sale under a franchise agreement with a new motor vehicle dealer in Montana.

(b) If there is no independent person available to own and operate a motor vehicle dealership in a manner that is consistent with the public interest, a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may own and operate a motor vehicle dealership for a temporary period, not to exceed 1 year, during the transition from one owner of the dealership to another. Approval of the sale may not be unreasonably withheld by the manufacturer.

(c) A manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities may own an interest in a motor vehicle dealership but may not operate the dealership unless a manufacturer of new motor vehicles, a factory branch, a distributor, a distributor branch, an importer, a field representative, an officer, an agent, or any representative of any of these persons or entities has a bona fide business relationship with an independent person who is not a franchisor or a franchisor's agent or affiliate, who has made an investment that is subject to loss in the dealership, and who reasonably expects to acquire full ownership of the dealership on reasonable terms and conditions.

61-4-501. Definitions. For purposes of this part, the following definitions apply:

(1) "Collateral charge" means all governmental charges, including but not limited to sales tax, property tax, license and registration fees, and fees in lieu of tax.

(2) "Consumer" means the purchaser, other than for purposes of resale, of a motor vehicle that has not been brought into nonconformity as the result of abuse, neglect, or unauthorized modifications or alterations by the purchaser, any person to whom the motor vehicle is transferred during the duration of an express warranty applicable to the motor vehicle, or any other person entitled by the terms of the warranty to the benefits of its provisions.

(3) "Incidental damage" means incidental and consequential damage as defined in 30-2-715.

(4) "Manufacturer" has the meaning applied to that word in 61-4-201.

(5) "Motor vehicle" means a vehicle, including the nonresidential portion of a motor home as defined in 61-1-130, propelled by its own power, designed primarily to transport persons or property upon the public highways, and sold in this state. The term does not include a truck with 10,000 pounds or more gross vehicle weight rating or a motorcycle as defined in 61-1-105. Motor vehicle does not include components, systems, fixtures, appliances, furnishings, accessories, and features that are designed, used, and maintained primarily for residential purposes.

(6) "Reasonable allowance for use" is an amount directly attributable to use of the motor vehicle by the consumer and any previous consumers prior to the first written notice of the nonconformity to the manufacturer or its agent and during any subsequent period when the vehicle is not out of service because of nonconformity. The reasonable allowance for use shall be computed by multiplying the total contract price of the vehicle by a fraction having as its denominator 100,000 and having as its numerator the number of miles that the vehicle traveled prior to the manufacturer's acceptance of its return.

(7) "Warranty period" means the period ending 2 years after the date of the original delivery to the consumer of a new motor vehicle or during the first 18,000 miles of operation, whichever is earlier.

History: En. Sec. 1, Ch. 144, L. 1983; amd. Sec. 1, Ch. 744, L. 1985; amd. Sec. 2, Ch. 300, L. 1991.

61-4-502. Notice — warranty enforceable after warranty period — when. (1) If a consumer notifies in writing the manufacturer or its agent during the warranty period that a new motor vehicle does not conform to all applicable express warranties, the repairs necessary to conform the new motor vehicle to the express warranties shall be made by or at the expense of the warrantor, regardless of the expiration of the warranty period after notification of nonconformity is given by the consumer.

(2) The warranty period of an express warranty is extended to equal the time that repair services are not available because of war or invasion or because of strike or fire, flood, or other natural disaster. The presumption provided herein may not apply against a manufacturer who

has not received prior written notification from or on behalf of the consumer and has not had an opportunity to cure the alleged defect.

(3) The manufacturer must clearly and conspicuously disclose to the consumer in the warranty or owner's manual that written notification of a nonconformity is required before a consumer may be eligible for a refund or replacement of the vehicle. The manufacturer must include with the warranty or owner's manual the name and address where the written notification must be sent.

History: (1)En. Sec. 2, Ch. 144, L. 1983; (2)En. Sec. 5, Ch. 144, L. 1983; amd. Sec. 2, Ch. 744, L. 1985.

61-4-503. Replacement for nonconformity to warranty. (1) If after a reasonable number of attempts the manufacturer or its agent or authorized dealer is unable, during the warranty period, to conform the new motor vehicle to any applicable express warranty by repairing or correcting any defect or condition that substantially impairs the use and market value or safety of the motor vehicle to the consumer, the manufacturer shall replace it with a new motor vehicle of the same model and style and of equal value, unless for reasons of lack of availability such replacement is impossible, in which case the manufacturer shall replace it with a vehicle of comparable market value.

(2) As an alternative to replacement, the manufacturer may accept return of the new motor vehicle from the consumer upon refund to him of the full purchase price, plus reasonable collateral charges and incidental damages, less a reasonable allowance for the consumer's use of the motor vehicle. The refund shall be paid to the consumer and to a lienholder, if any, in proportion to their interests.

(1) the same nonconformity has been subject to repair four or more times by the manufacturer or its agent or authorized dealer during the warranty period but the nonconformity continues to exist; or

(2) the vehicle is out of service because of nonconformity for a cumulative total of 30 or more business days during the warranty period after notification of the manufacturer, agent, or dealer.

(2) All express warranties arising from the sale of a new motor vehicle are subject to the provisions of Title 30, chapter 2, part 3.

(3) It is an affirmative defense to a claim brought under this part that an alleged nonconformity does not substantially impair the use, market value, or safety of the vehicle or

that the nonconformity is the result of abuse, neglect, or unauthorized modification or alteration of a motor vehicle by the consumer.

Contingent Termination — Request for Federal Exemptions: Section 1, Ch. 27, L. 1999, revised sec. 104, Ch. 552, L. 1997, to contain the following contingent termination provisions and order that the department of public health and human services seek federal exemptions: "(1) [Sections 9, 11, 22 through 24, and 95] [37-1-307, 40-1-107, 40-4-105, 40-5-922, 40-5-924, and 61-5-107] and the bracketed language in [sections 1 through 3, 10, 25, 45, and 89] [40-4-204, 40-5-226, 40-5-901, 40-5-906, 40-5-907, 40-5-923, and 40-6-116] terminate on the date of the suspension if the federal government suspends federal payments to this state for this state's child support enforcement program and for this state's program relating to temporary assistance to needy families because of this state's failure to enact law as required by the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

(2) [Sections 9, 11, 22 through 24, and 95] [37-1-307, 40-1-107, 40-4-105, 40-5-922, 40-5-924, and 61-5-107] and the bracketed language in [sections 1 through 3, 10, 25, 45, and 89] [40-4-204, 40-5-226, 40-5-901, 40-5-906, 40-5-907, 40-5-923, and 40-6-116] terminate on the date that a final decision is rendered in federal court invalidating the child support provisions of the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996.

(3) If the director of the department of public health and human services certifies to the governor and the secretary of state in writing that one of the following provisions is no longer required by federal law because of repeal of or amendment to federal statutes that require that provision, the provision terminates on the date the certification takes effect:

(a) [section 9] [40-5-922];

(2) Any negligence or willful misconduct of a minor who is under 18 years of age when driving a motor vehicle upon a highway must be imputed to a person who has signed the application of the minor for an instruction permit, driver's license, or medical and rehabilitation driving permit. The person who signs the application is jointly and severally liable with the minor for any damages caused by the negligence or willful misconduct unless a motor vehicle liability policy, as provided for in chapter 6 of this title, covering the minor is in effect, in which case there is no imputed liability as described in this section.

61-5-110. Records check of applicants — examination of applicants — cooperative driver testing programs. (1) Prior to examining an applicant for a driver's license, the department shall conduct a check of the applicant's driving record by querying the national driver register, established under 49 U.S.C. 30302, or the commercial driver's license information system, established under 49 U.S.C. 31309.

(2) The department shall examine each applicant for a driver's license or motorcycle endorsement, except as otherwise provided in this section. The examination must include a test of the applicant's eyesight, a knowledge test examining the applicant's ability to read and understand highway signs and the applicant's knowledge of the traffic laws of this state, and, except as provided in 61-5-118, a road test or a skills test demonstrating the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle, quadricycle, or motorcycle. The knowledge test or road test, or both, may be waived by the department upon certification of the applicant's successful completion of the test by a certified cooperative driver testing program, as provided in subsection (3).

(3) The department is authorized to certify as a cooperative driver testing program any state-approved high school traffic education course offered by or in cooperation with a school district that employs an approved instructor who has current endorsement from the superintendent of public instruction as a teacher of traffic education or any motorcycle safety training course approved by the board of regents and that employs an approved instructor of motorcycle safety training and who agrees to:

(a) administer standardized knowledge and road tests required by the department to students participating in the district's high school traffic education courses or motorcycle safety training courses approved by the board of regents;

(b) certify the test results to the department; and

(c) comply with regulations of the department, the superintendent of public instruction, and the board of regents.

(4) (a) Except as otherwise provided by law, a resident who has a valid driver's license issued by another jurisdiction may surrender that license for a Montana license of the same class, type, and endorsement upon payment of the required fees and successful completion of a vision examination. In addition, a resident surrendering a commercial driver's license issued by another jurisdiction shall successfully complete any examination required by federal regulations before being issued a commercial driver's license by the department.

(b) The department may require an applicant who surrenders a valid driver's license issued by another jurisdiction to submit to a knowledge and skills test if:

(i) the applicant has a physical or mental disability, limitation, or condition that impairs, or may impair, the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; and

(ii) the surrendered license does not include readily discernible adaptive equipment or operational restrictions appropriate to the applicant's functional abilities; or

(iii) the applicant wants to remove or modify a restriction imposed on the surrendered license.

(c) When a license from another jurisdiction is surrendered, the department shall notify the issuing agency from the other jurisdiction that the applicant has surrendered the license. If the applicant wants to retain the license from another jurisdiction for identification or other nondriving purposes, the department shall place a distinctive mark on the license, indicating that the license may be used for nondriving purposes only, and return the marked license to the applicant.

(1) The department may appoint county treasurers and other qualified officers to act as its agents for the sale of driver's licenses receipts and shall make necessary rules governing sales. In areas in which the department provides driver licensing services 3 days or more a week, the department is responsible for sale of receipts and may, in its discretion, appoint an agent to sell receipts.

(2) The department, upon receipt of payment of the fees specified in this section, shall issue a driver's license to each qualifying applicant. The license must contain a full-face photograph of the licensee in the size and form prescribed by the department; a distinguishing number issued to the licensee; the full legal name, date of birth, Montana mailing address, and a brief description of the licensee; and either the licensee's customary signature or a digital reproduction of the licensee's customary signature. The department may not use the licensee's social security number as the distinguishing number unless the licensee expressly authorizes the use. A license is not valid until it is signed by the licensee.

(3) (a) When a person applies for renewal of a driver's license, the department shall conduct a records check in accordance with 61-5-110(1) to determine the applicant's eligibility status and shall test the applicant's eyesight. The department may also require the applicant to submit to a knowledge and skills test if:

(i) the renewal applicant has a physical or mental disability, limitation, or condition that impairs, or may impair, the applicant's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; and

(ii) the expired or expiring license does not include adaptive equipment or operational restrictions appropriate to the applicant's functional abilities; or

(iii) the applicant wants to remove or modify the restrictions stated on the expired or expiring license.

(b) In the case of a commercial driver's license, the department may also require that the applicant successfully complete a written examination as required by federal regulations.

(c) A person is considered to have applied for renewal of a Montana driver's license if the application is made within 6 months before or 3 months after the expiration of the person's license. Except as provided in subsection (3)(d), a person seeking to renew a driver's license shall appear in person at a Montana driver's examination station.

(d) (i) A person may renew a driver's license by mail if the person certifies that the person is temporarily out of state and will not be returning to the state prior to the expiration of the license.

(ii) An applicant who renews a driver's license by mail shall submit to the department an approved vision examination and a medical evaluation from a licensed physician in addition to the fees required for renewal.

(iii) If the department does not have a digitized photograph or signature record of the renewal applicant from the expiring license, then the department may require the renewal applicant to submit a personal photograph and signature that meets the requirements prescribed by the department.

(iv) The term of a license renewed by mail is 4 years, and a person may not renew by mail for consecutive license terms.

(v) The department may not renew a license by mail if the records check conducted in accordance with 61-5-110(1) shows an ineligible license status for the applicant.

(e) The department shall mail a driver's license renewal notice no earlier than 60 days and no later than 30 days prior to the expiration date of a commercial driver's license if the licensee has previously submitted a written request for the notice, either at the time of initial application or of renewal of the license.

(4) (a) Except as provided in subsections (4)(b) and (4)(c), a license expires on the anniversary of the licensee's birthday 8 years or less after the date of issue or on the licensee's 75th birthday, whichever occurs first.

(b) A license issued to a person who is 75 years of age or older expires on the anniversary of the licensee's birthday 4 years or less after the date of issue.

(c) A license issued to a person who is under 21 years of age expires on the licensee's 21st birthday.

(5) Whenever the department issues an original license to a person under the age of 18 years, the license must be designated and clearly marked as a "provisional license". Any license designated and marked as provisional may be suspended by the department for a period of not more than 12 months when its records disclose that the licensee, subsequent to the issuance of the license, has been guilty of careless or negligent driving.

(6) Fees for driver's licenses are:

(a) driver's license, except a commercial driver's license — $4 a year or fraction of a year;

(b) motorcycle endorsement — 50 cents a year or fraction of a year;

(c) commercial driver's license:

(i) interstate — $5 a year or fraction of a year;

(ii) intrastate — $3.50 a year or fraction of a year.

(7) Upon receipt of notice from another jurisdiction that a person licensed under this chapter has surrendered a Montana driver's license to that jurisdiction, the department shall change the license status on the person's official driver record to "inactive". If the person returns to Montana prior to the expiration of the previously surrendered license, the department may reactivate the license for the remainder of the license term.

Once imposed, the restrictions may not be removed unless the department determines that the adaptive equipment or operational restrictions are no longer essential to the licensee's ability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway.

(2) The department may either issue a special restricted license or may include the restrictions on the usual license form.

61-5-206. Authority of department to suspend license or driving privilege or issue probationary license. (1) The department may suspend the driver's license or driving privilege of a driver without preliminary hearing upon a showing by its records or other sufficient evidence that the licensee:

(a) has been involved as a driver in any accident resulting in the death or personal injury of another or serious property damage;

(b) has been convicted with such frequency of serious offenses against traffic regulations governing the movement of vehicles as to indicate a disrespect for traffic laws and a disregard for the safety of other persons on the highways;

(c) is a habitually reckless or negligent driver of a motor vehicle;

(d) is incompetent to drive a motor vehicle;

(e) has committed or permitted an unlawful or fraudulent use of the license as specified in 61-5-302;

(f) has committed an offense in another state that if committed in this state would be grounds for suspension or revocation;

(g) has falsified the licensee's date of birth on the application for a driver's license;

(h) is under 21 years of age and has altered the licensee's or another's driver's license or identification card to obtain alcohol;

(i) has authorized another to use the licensee's driver's license or identification card to obtain alcohol; or

(j) has been declared a driver in need of rehabilitation and improvement, as defined in 61-11-203, and has failed to enroll in or successfully complete, within 90 days of notice, a driver rehabilitation and improvement course or other appropriate course determined by the department as provided in 61-11-204.

(2) However, the department may, in lieu of suspending the license or driving privilege, issue a probationary license to a driver, without preliminary hearing, upon a showing by its records or other sufficient evidence that the licensee's driving record would authorize suspension as provided in subsection (1). Upon issuance of a probationary license, the licensee is subject to the restrictions set forth in the probationary license. The licensee's driving privilege may be suspended upon conviction or forfeiture of bail not vacated of any traffic violation during the period of probation. The licensee shall surrender to the department all driver's licenses that have been issued to the licensee before the probationary license may be issued. The licensee's refusal or neglect to surrender the licenses upon demand is grounds for suspending all licenses. Probationary licenses may be issued for a period not to exceed 12 months.

(3) Upon suspending the license of any person or upon placing the person on probation, as authorized in this section, the department shall immediately notify the licensee in writing and upon the licensee's request shall afford the licensee an opportunity for a hearing as early as practical, within 20 days after receipt of the request, in the county in which the licensee resides unless the department and the licensee agree that the hearing may be held in some other county. At the hearing, the department through its authorized agent may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers and may require a reexamination of the licensee. At the hearing, the department shall either rescind its order of suspension or probation or, for good cause, may affirm, reduce, or extend the period of probation or suspension of the license.

(2) Upon the review of a medical evaluation, the conclusion of testing, or both, the department may:

(a) impose restrictions on the license, as provided in 61-5-113, that are appropriate to the licensee's acknowledged or demonstrated functional abilities;

(b) suspend the license indefinitely based upon a licensee's inability to exercise ordinary and reasonable control in the safe operation of a motor vehicle on the highway; or

(c) take no action modifying the license or placing restrictions on the licensee.

(3) The age of a licensee, by itself, does not constitute evidence of a condition requiring a reexamination or a medical evaluation by a licensed physician.

(1) The department may not suspend or revoke a driver's license or privilege to drive a motor vehicle on the public highways for a period of more than 1 year, except as otherwise permitted by law.

(2) (a) Except as provided in 61-2-302, a person whose license or privilege to drive a motor vehicle on the public highways has been suspended or revoked may not have the license, endorsement, or privilege renewed or restored until the revocation or suspension period has been completed.

(b) When a person is convicted or forfeits bail or collateral not vacated for the offense of operating or being in actual physical control of a motor vehicle while under the influence of alcohol or any drug or a combination of alcohol or drugs or for the offense of operation of a motor vehicle by a person with alcohol concentration of 0.10 or more, the department shall, upon receiving a report of conviction or forfeiture of bail or collateral not vacated, suspend the driver's license or driving privilege of the person for a period of 6 months. Upon receiving a report of a conviction or forfeiture of bail or collateral for a second, third, or subsequent offense within 5 years of the first offense, the department shall revoke the license or driving privilege of the person for a period of 1 year and, upon issuance of any restricted probationary license during the period of revocation, restrict the person to driving only a motor vehicle equipped with a functioning ignition interlock device. If the 1-year period passes and the person has not completed a chemical dependency education course, treatment, or both, as ordered by the sentencing court, the license revocation remains in effect until the course, treatment, or both, are completed.

(c) For the purposes of subsection (2)(b), a person is considered to have committed a second, third, or subsequent offense if fewer than 5 years have passed between the date of an offense that resulted in a prior conviction and the date of the offense that resulted in the most recent conviction.

(3) (a) If a person pays the reinstatement fee required in 61-2-107 and provides the department proof of compliance with an ignition interlock restriction imposed under 61-8-442, the department shall stay the license suspension of a person who has been convicted of a violation of 61-8-401 or 61-8-406 and return the person's driver's license. The stay must remain in effect until the period of suspension has expired and any required chemical dependency education course, treatment, or both, have been completed.

(b) If the department receives notice from a court, peace officer, or ignition interlock vendor that the person has violated the court-imposed ignition interlock restriction by, including but not limited to operating a motor vehicle not equipped with the device, tampering with the device, or removing the device before the period of restriction has expired, the department shall lift the stay and reinstate the license suspension for the remainder of the time period. The department may not issue a probationary driver's license to a person whose license suspension has been reinstated because of violation of an ignition interlock restriction.

(4) The period for all revocations made mandatory by 61-5-205 is 1 year except as provided in subsection (2).

(5) The period of revocation for a person convicted of any offense that makes mandatory the revocation of the person's driver's license commences from the date of conviction or forfeiture of bail.

(6) If a person is convicted of a violation of 61-8-401 or 61-8-406 while operating a commercial motor vehicle, the department shall suspend the person's driver's license as provided in 61-8-802.

Compiler's Comments

2001 Amendment: Chapter 207 at beginning of (2)(a) inserted exception clause, after "restored" deleted "unless the revocation was for a cause that has been removed", and at end substituted "until the revocation or suspension period has been completed" for former second sentence that read: "After the expiration of the period of the revocation or suspension, the person may apply for a new license or endorsement as provided by law, but the department may not issue a new license or endorsement unless it is satisfied, after investigation of the driving ability of the person and upon a showing by its records or other sufficient evidence, that the person is eligible to be licensed to drive in Montana"; at end of (6) substituted "provided in 61-8-802" for "provided in 61-8-811 and subsection (2) of this section"; and made minor changes in style. Amendment effective October 1, 2001.

Applicability: Section 16, Ch. 207, L. 2001, provided: "[This act] applies to driver's licenses issued or renewed and to offenses committed after September 30, 2001."

Part 4
Driver License Compact

61-5-401. Driver License Compact. This part shall be known and may be cited as the "Driver License Compact".

Article I. Findings and Declaration of Policy

(1) The party states find that:

(a) the safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles;

(b) violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property;

(c) the continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles in whichever jurisdiction the vehicle is operated.

(2) It is the policy of each of the party states to:

(a) promote compliance with the laws, ordinances, and administrative rules relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles;

(b) make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances, and administrative rules as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

Article II. Definitions

As used in this compact:

(1) "state" means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico;

(2) "home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle;

(3) "conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance, or administrative rule, or a forfeiture of bail, bond, or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

Article III. Reports of Conviction

The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code, or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered or the conviction was a result of the forfeiture of bail, bond, or other security; and include any special findings made in connection therewith.

Article IV. Effect of Conviction

(1) The licensing authority in the home state, for the purposes of suspension, revocation, or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

(a) manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(b) driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(c) any felony in the commission of which a motor vehicle is used;

(d) failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(2) As to other convictions, reported pursuant to Article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(3) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (1) of this article, such party state shall construe the denominations and descriptions appearing in subdivision (1) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this article.

Article V. Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) the applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated;

(2) the applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of 1 year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) the applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

Article VI. Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance or to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a nonparty state.

Article VII. Compact Administrator and Interchange of Information

(1) The head of the licensing authority of each party state shall be the administrator of this compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this compact.

(2) The administrator of each party state shall furnish to the administrator of each other party state any information or documents reasonably necessary to facilitate the administration of this compact.

Article VIII. Entry Into Force and Withdrawal

(1) This compact shall enter into force and become effective as to any state when it has enacted the same into law.

(2) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 6 months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

Article IX. Construction and Severability

History: En. Sec. 41, Ch. 204, L. 1951; R.C.M. 1947, 53-457.

61-6-102. Definitions. The following words and phrases, when used in this part, have the meanings respectively ascribed to them in this section except in those instances where the context clearly indicates a different meaning:

(1) "Judgment" means any judgment that has become final by expiration without appeal of the time within which an appeal might have been perfected or by final affirmation on appeal rendered by a court of competent jurisdiction of any state or of the United States upon a cause of action arising out of the ownership, maintenance, or use of any motor vehicle, for damages, including damages for care and loss of services, because of bodily injury to or death of any

person or for damages because of injury to or destruction of property, including the loss of use thereof, or upon a cause of action on an agreement of settlement for such damages.

(2) "License" means any license, temporary instruction permit, or temporary license issued under the laws of this state pertaining to the licensing of persons to operate motor vehicles.

(3) "Nonresident's operating privilege" means the privilege conferred upon a nonresident by the laws of this state pertaining to the operation by him of a motor vehicle or the use of a motor vehicle owned by him in this state.

(4) "Proof of financial responsibility" means proof of ability to respond in damages for liability on account of accidents occurring subsequent to the effective date of said proof, arising out of the ownership, maintenance, or use of a motor vehicle.

(5) "State" means any state, territory, or possession of the United States, the District of Columbia, or any province of the Dominion of Canada.

(6) "Ways of this state open to the public" means any highway, road, alley, lane, parking area, or other public or private place adapted and fitted for public travel and in common use by the public.

History: En. Sec. 1, Ch. 204, L. 1951; amd. Sec. 1, Ch. 30, L. 1967; R.C.M. 1947, 53-418(part); amd. Sec. 60, Ch. 421, L. 1979; amd. Sec. 1, Ch. 212, L. 1985.

61-6-103. Motor vehicle liability policy defined. (1) A "motor vehicle liability policy", as the term is used in this part, means an owner's or operator's policy of liability insurance, certified as provided in 61-6-133 or 61-6-134 as proof of financial responsibility and issued, except as otherwise provided in 61-6-134, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured.

(2) The owner's policy of liability insurance must:

(a) designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and

(b) insure the person named therein and any other person, as insured, using any motor vehicle or motor vehicles with the express or implied permission of the named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of the motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each motor vehicle, as follows:

(i) $25,000 because of bodily injury to or death of one person in any one accident and subject to said limit for one person;

(ii) $50,000 because of bodily injury to or death of two or more persons in any one accident; and

(iii) $10,000 because of injury to or destruction of property of others in any one accident.

(3) An operator's policy of liability insurance must insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to the operator's policy of liability insurance.

(4) A motor vehicle liability policy must state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period, and the limits of liability and contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this part as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this part.

(5) A motor vehicle liability policy need not insure any liability under any workers' compensation law or any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured or while engaged in the operation, maintenance, or repair of a motor vehicle or any liability for damage to property owned by, rented to, in charge of, or transported by the insured.

(6) A motor vehicle liability policy is subject to the following provisions, which need not be contained therein:

(a) The liability of the insurance carrier with respect to the insurance required by this part becomes absolute whenever injury or damage covered by the motor vehicle liability policy occurs. The policy may not be canceled or annulled as to the liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage. No statement made by the insured or on his behalf and no violation of the policy may defeat or void the policy.

(b) The satisfaction by the insured of a judgment for the injury or damage may not be a condition precedent to the right or duty of the insurance carrier to make payment on account of the injury or damage.

(c) The insurance carrier has the right to settle any claim covered by the policy, and if the settlement is made in good faith, the amount is deductible from the limits of liability specified in subsection (2)(b).

(d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this part constitute the entire contract between the parties.

(7) A motor vehicle policy is not subject to cancellation, termination, nonrenewal, or premium increase due to injury or damage incurred by the insured or operator unless the insured or operator is found to have violated a traffic law or ordinance of the state or a city, is found negligent or contributorily negligent in a court of law or by the arbitration proceedings contained in chapter 5 of Title 27, or pays damages to another party, whether by settlement or otherwise. In no event may a premium be increased during the term of the policy unless there is a change in exposure.

(8) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and the excess or additional coverage is not subject to the provisions of this part. With respect to a policy which grants the excess or additional coverage, the term "motor vehicle liability policy" applies only to that part of the coverage which is required by this section.

(9) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this part.

(10) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance.

(11) The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers, which policies together meet such requirements.

(12) Any binder issued pending the issuance of a motor vehicle liability policy fulfills the requirements for such a policy.

(13) A reduced limits endorsement may not be issued by any company to be attached to any policy issued in compliance with this section.

61-6-106. Appeal to court. (1) At any time within 60 days after the rendition of any decision or order by the department under the provisions of this part, any party in interest may appeal to the district court of the judicial district of the state of Montana, in and for any county wherein any party in interest may reside or in which any party in interest which is a corporation may have its principal office, or place of business, and said appeal may be for the purpose of having the lawfulness of any order, decision, or act of the department inquired into and determined. The court shall determine whether the filing of an appeal shall operate as a stay of any order or decision of the department.

(2) Said appeal shall be taken by serving a written notice of said appeal upon the department, which said service shall be made by delivering a copy of such notice to the department and filing the original thereof with the clerk of the court to which said appeal is taken. A copy of such notice must also be served upon all other parties in interest, if there be any, by mailing the same to said parties in interest to such addresses of such parties as such parties shall have left with the department. If such parties shall have left no address with the department, then no service on such parties shall be required. The order of filing and service of said notice is immaterial.

(3) Immediately upon service upon said department of said notice, the department shall certify to said district court a complete record of all proceedings had by it with reference to the decision, order, or act appealed from, together with all official forms or documents in the possession of said department pertaining to said decision, order, or act and all correspondence and other written matter in the possession of said department pertaining to said decision, order, or act, with the clerk of the district court.

(4) Immediately upon the return of such certified matter, the district court shall fix a day for the hearing of said appeal and shall cause notice to be served upon the department and upon the appellant and also upon any other parties in interest upon whom service was required under the provisions of this section. The court may upon the hearing for a good cause shown permit evidence in addition to the matter certified by the department to the court, but in the absence of such permission from the court, the cause shall be heard on the matter certified to the court by the department. The trial of the matter shall be de novo, without a jury, and upon such trial the court shall determine whether or not the department regularly pursued its authority, whether or not the findings of the department ought to be sustained, and whether or not such findings are reasonable under all circumstances of the case. The department and each party in interest shall have the right to appear in the proceeding.

(5) If the court shall find from such trial, as aforesaid, that the findings and conclusions of the department are not in accordance with either the facts or the law or that they ought to be other or different from those made by the department or that any finding and conclusion or any decision, order, act, rule, or requirement of the department is unreasonable, the court shall set aside such finding, conclusion, decision, order, act, rule, or requirement of said department or shall modify or change the same as law and justice shall require, and the court shall also make and enter any finding, conclusion, order, or judgment that shall be required or shall be legal and proper in the premises. Either the department or the appellant or any other party in interest, if there be any, may appeal to the supreme court from any final order, judgment, or decree of said district court, which said appeal shall be taken in like manner as appeals are now taken in other civil actions to the supreme court.

(6) Upon such appeal, the supreme court shall make such orders in reference to a stay of proceedings as it finds to be just in the premises and may stay the operation of any order, judgment, or decree of said district court without requiring any bond or undertaking from the applicant for such stay. When any such cause is so appealed, it shall have precedence upon the calendar of said supreme court upon the record made in said district court and upon the matters certified to or which ought to have been certified by said department to said district court, and judgment and decree shall be entered therein as expeditiously as possible.

61-6-142. Duration of proof — when money or securities may be canceled or returned. (1) The department shall direct and the state treasurer shall return to the person entitled thereto any money or securities deposited pursuant to this part as proof of financial responsibility, or the department shall waive the requirement of filing proof under this part, in any of the following events:

(a) at any time after 3 years from the date such proof was required when during the 3-year period preceding the request the department has not received record of a conviction or a forfeiture of bail which would require or permit the suspension or revocation of the license or nonresident's operating privilege of the person by or for whom such proof was furnished;

(b) in the event of the death of the person on whose behalf such proof was filed or the permanent incapacity of such person to operate a motor vehicle; or

(c) in the event the person who has given proof surrenders his license to the department.

(2) However, the department shall not consent to the return of any money or securities in the event any action for damages upon a liability covered by such proof is then pending or any judgment upon any such liability is then unsatisfied, or in the event the person who has deposited such money or securities has, within 1 year immediately preceding such request, been involved as an operator or owner in any motor vehicle accident resulting in injury or damage to the person or property of others. An affidavit of the applicant as to the nonexistence of such facts, or that he has been released from all of his liability, or has been finally adjudicated not to be liable for such injury or damage, shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the department.

(3) Whenever any person whose proof has been canceled or returned under subsection (1)(c) of this section applies for a license within a period of 3 years from the date proof was originally required, any such application shall be refused unless the applicant complies with the insurance or bond requirements under 61-6-301 and 61-6-302.

61-6-143. Self-insurers. (1) Any person in whose name more than 25 motor vehicles are registered may qualify as a self-insurer by obtaining a certificate of self-insurance issued by the department as provided in subsection (2) of this section.

(2) The department may, in its discretion, upon the application of such a person, issue a certificate of self-insurance when it is satisfied that such person is possessed and will continue to be possessed of ability to pay judgments obtained against such person.

(3) Upon not less than 5 days' notice and a hearing pursuant to such notice, the department may upon reasonable grounds cancel a certificate of self-insurance. Failure to pay

any judgment within 30 days after such judgment shall have become final shall constitute a reasonable ground for the cancellation of a certificate of self-insurance.

Any applicant for any such policy, any person insured under any such plan, and any insurance company affected, may appeal to the commissioner of insurance from any ruling or decision of the manager or committee designated to operate such plan. (1) (a) Except as provided in subsection (1)(b), an owner of a motor vehicle that is registered and operated in Montana by the owner or with the owner's permission shall continuously provide insurance against loss resulting from liability imposed by law for bodily injury or death or damage to property suffered by any person caused by maintenance or use of a motor vehicle, as defined in 61-1-102, in an amount not less than that required by 61-6-103, or a certificate of self-insurance issued in accordance with 61-6-143.

(b) Notwithstanding the mandatory motor vehicle liability insurance protection provided for in subsection (1)(a), nothing in this part may be construed to prohibit the exclusion from insurance coverage of a named family member in a motor vehicle liability insurance policy.

(2) A motor vehicle owner who prefers to post an indemnity bond with the department in lieu of obtaining a policy of liability insurance may do so. The bond must guarantee that any loss resulting from liability imposed by law for bodily injury, death, or damage to property suffered by any person caused by accident and arising out of the operation, maintenance, and use of the motor vehicle sought to be registered must be paid within 30 days after final judgment is entered establishing the liability. Whenever traffic is controlled by traffic-control signals exhibiting the words "Go", "Caution", or "Stop" or exhibiting different colored lights successively one at a time or with arrows, the following colors only must be used and the terms and lights must indicate and apply to drivers of vehicles and pedestrians as follows:

(1) green alone or "Go":

(a) Vehicular traffic facing the signal may proceed straight through or turn left or right unless a sign at the place prohibits either turn. But vehicular traffic, including vehicles turning right or left, must yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time the signal is exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) yellow alone or "Caution" when shown following the green or "Go" signal:

(a) Vehicular traffic facing the signal is warned that the red or "Stop" signal will be exhibited immediately thereafter and vehicular traffic may not enter the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing the signals are advised that there is insufficient time to cross the roadway, and a pedestrian then starting to cross shall yield the right-of-way to all vehicles.

(3) red alone or "Stop":

(a) Vehicular traffic facing the signal must stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and must remain standing until green or "Go" is shown alone, until a right turn can safely be made, or until a left turn can safely be made from the far left lane if the turn is made from a one-way street onto another one-way street going left. In making the turn, vehicular traffic must yield the right-of-way to pedestrians lawfully within the crosswalk and to other traffic lawfully using the intersection. If a traffic sign legend indicating that no right turn on red or no left turn on red may be made after a stop is posted at the intersection, the movement cannot be made until green or "Go" is shown alone.

(b) A pedestrian facing a signal may not enter the roadway unless the pedestrian can do so safely and without interfering with any vehicular traffic.

(4) red with a green arrow:

(a) Vehicular traffic facing a signal may cautiously enter the intersection only to make the movement indicated by the arrow but must yield the right-of-way to pedestrians lawfully within the crosswalk and to other traffic lawfully using the intersection.

(b) A pedestrian facing a signal may not enter the roadway unless the pedestrian can do so safely and without interfering with vehicular traffic.

(5) traffic-control signal at a place other than an intersection:

(a) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section are applicable except as to those provisions that by their very nature can have no application.

(b) Any stop required must be made at a sign or marking on the pavement indicating where the stop must be made, but in the absence of any sign or marking, the stop must be made at the signal.

(a) on a federal-aid interstate highway outside an urbanized area of 50,000 population or more is 75 miles an hour at all times and the speed limit for vehicles traveling on federal-aid interstate highways within an urbanized area of 50,000 population or more is 65 miles an hour at all times;

(b) on any other public highway of this state is 70 miles an hour during the daytime and 65 miles an hour during the nighttime.

(2) The speed limit for vehicles traveling on U.S. highway 93 between the Canadian and Idaho borders is 65 miles an hour at all times. The speed limit imposed by this subsection ceases to be effective if U.S. highway 93 is upgraded to a continuous four-lane highway.

(3) A vehicle subject to the speed limits imposed in subsection (1) traveling on a two-lane road may exceed the speed limits imposed in subsection (1) by 10 miles an hour in order to overtake and pass a vehicle and return safely to the right-hand lane.

(4) Subject to the maximum speed limits set forth in subsections (1) and (2), a person shall operate a vehicle in a careful and prudent manner and at a reduced rate of speed no greater than is reasonable and prudent under the conditions existing at the point of operation, taking into account the amount and character of traffic, visibility, weather, and roadway conditions.

(5) When no special hazard exists that requires lower speed for compliance with subsections (1) and (2), the speed of a vehicle not in excess of the limits specified in this section or established as authorized in 61-8-309 through 61-8-311 and 61-8-313 is lawful, but a speed in excess of 25 miles an hour in an urban district is unlawful.

61-8-309. Establishment of special speed zones. (1) (a) If the commission determines upon the basis of an engineering and traffic investigation that a speed limit set by 61-8-303 is greater or less than is reasonable or safe under the conditions found to exist at an intersection, curve, or dangerous location or on a segment of a highway less than 50 miles in length under its jurisdiction, the commission may set a reasonable and safe special speed limit at that location.

(b) If a local authority requests the department of transportation or an engineer, as provided in subsection (1)(c)(i), to conduct an engineering and traffic investigation based on the belief that a speed limit on a highway under the jurisdiction of the department of transportation is greater than is reasonable or safe, the commission may not increase the speed limit under consideration as a result of the investigation.

(c) (i) A local authority may request at its own expense that an engineering and traffic investigation be completed by a licensed professional engineer selected from a list compiled and approved by a committee as provided in subsection (1)(c)(ii).

(ii) A committee containing two department of transportation staff appointed by the director and two representatives of associations whose membership comprises cities, towns, and counties, as authorized by 7-5-2141 and 7-5-4141, shall review credentials submitted by licensed professional engineers and shall determine who appears on the list of individuals authorized to conduct engineering and traffic investigations for local governments. The list must be updated every 2 years.

(iii) Upon completion of an engineering and traffic investigation conducted for a local government, the department of transportation shall submit a report to the commission with findings and recommendations. The commission shall decide on an appropriate speed limit based on the traffic investigation within 120 days from the date the investigation is submitted to the department of transportation.

(d) A local authority may request a temporary special reduced or increased speed zone for a route or route segment that is under consideration for a reduced or increased speed limit under subsection (1)(a), (1)(b), or (1)(c). If a local authority makes multiple requests for temporary special reduced or increased speed zones, the local authority shall prioritize the requests. The department of transportation shall conduct a preliminary visual and engineering review of a route or a route segment for which a temporary special speed zone is requested. The reviewing party must include a representative of the local authority. Upon completion of the preliminary review, if the department of transportation concurs with the local authority that a temporary special reduced or increased speed limit is warranted, a temporary special reduced or increased speed zone may be established upon formal approval by the commission. The temporary special reduced or increased speed limit remains in effect until a complete traffic and engineering study has been done on the route or route segment and the commission has made a determination on changing the speed limit.

(2) The department of transportation shall erect and maintain appropriate signs giving notice of special limits. When the signs are erected, the limits are effective for those zones at all times or at other times that the commission sets.

(3) The authority of the commission under this section includes the authority to set reduced nighttime speed limits on curves and other dangerous locations.

(4) This section does not authorize the commission to set a statewide speed limit.

61-8-310. When local authorities may and shall alter limits. (1) If a local authority in its jurisdiction determines on the basis of an engineering and traffic investigation that the speed permitted under 61-8-303 and 61-8-309 through 61-8-313 is greater or less than is reasonable and safe under the conditions found to exist upon a highway or part of a highway, the local authority may set a reasonable and safe limit that:

(a) decreases the limit at an intersection;

(b) increases the limit within an urban district, but not to more than 65 miles an hour during the nighttime;

(c) decreases the limit outside an urban district, but not to less than 35 miles an hour; or

(d) decreases the limit in an area near a school, a senior citizen center, as defined in 23-5-112, or a designated crosswalk, as crosswalk is defined in 61-1-209, that is close to a school or a senior citizen center to not less than 80%, rounded down to the nearest whole number evenly divisible by 5, of the limit that would be set on the basis of an engineering and traffic investigation, but not less than 15 miles an hour. If warranted by an engineering and traffic investigation, a local authority may adopt variable speed limits to adapt to traffic conditions by time of day, provided that the variable limits comply with the provisions of 61-8-206.

(2) A board of county commissioners may set limits, as provided in subsection (1)(c), without an engineering and traffic investigation on a county road, as defined in 60-1-103.

(3) A local authority in its jurisdiction may determine the proper speed for all arterial streets and shall set a reasonable and safe limit on arterial streets that may be greater or less than the speed permitted under 61-8-303 for an urban district.

(4) An altered limit established as authorized under this section is effective at all times or at other times determined by the authority when appropriate signs giving notice of the altered limit are erected upon the highway.

(5) Except as provided in subsection (1)(d), the commission has exclusive jurisdiction to set special speed limits on all federal-aid highways or extensions of federal-aid highways in all

municipalities or urban areas. The commission shall set these limits in accordance with 61-8-309.

61-8-311. Minimum speed regulations. (1) A person may not drive a motor vehicle at a speed slow enough to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation or in compliance with law.

(2) On a two-lane highway where passing is unsafe because of traffic in the opposite direction or other conditions, a slow-moving vehicle, including a passenger vehicle, behind which four or more vehicles are formed in line shall turn off the roadway at the nearest place designated as a turnout by signs erected by the authority having jurisdiction over the highway or wherever sufficient area for a safe turnout exists in order to permit the vehicles following it to proceed. If the shoulder of the highway to the right of the overtaken vehicle is wide enough and is in a condition allowing safe travel, the driver of the overtaken vehicle may drive onto the shoulder and proceed at a safe speed until passed. As used in this section a slow-moving vehicle is one which is proceeding at a rate of speed less than the normal flow of traffic at the particular time and place. The department of transportation is authorized to designate and construct such turnouts and to erect signs at appropriate places advising motorists of this statute.

(3) If the department of transportation or local authorities within their respective jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the commission or the local authority may set a minimum speed limit below which a person may not drive a vehicle except when necessary for safe operation or in compliance with law.

(a) completed sections of interstate is 65 miles an hour; and

(b) four-lane divided highways and completed sections of primary and secondary highways is 60 miles an hour during the daytime and 55 miles an hour during the nighttime as those terms are defined in 61-8-303.

(2) Except as provided in 61-8-303, 61-8-309, and 61-8-310, the speed limit for a vehicle subject to a term permit under 61-10-124(2)(d) or a truck-trailer-trailer or truck tractor-semitrailer-trailer-trailer combination of vehicles subject to special permits under 61-10-124(4) is 55 miles an hour unless otherwise stated in the permit.

(3) A person may not operate a motor-driven cycle at any time mentioned in 61-9-201 at a speed greater than 35 miles an hour unless the motor-driven cycle is equipped with a headlamp or lamps that are adequate to reveal a person or vehicle at a distance of 300 feet ahead.

(3) The department of transportation upon request from a local authority may, or upon its own initiative shall, conduct an investigation of a bridge or other elevated structure constituting a part of a highway, and if it finds on investigation that the structure cannot safely withstand vehicles traveling at the speed otherwise permissible under this chapter, the commission shall set the maximum speed of vehicles which the structure can withstand, and the department shall erect and maintain suitable signs stating the maximum speed at a distance of not less than 100 feet before each end of the structure.

(4) Upon the trial of a person charged with a violation of this section, proof of the setting of the maximum speed by the commission and the existence of the signs is conclusive evidence of the maximum speed which can be maintained with safety to the bridge or structure.

61-8-314. Traffic violations in construction zone and work zone — definitions. (1) As used in this section, the following definitions apply:

(a) "Construction zone" means an area on a public highway or on the adjacent right-of-way where construction, repair, maintenance, or survey work is being performed by the department of transportation, a local authority, a utility company, or a private contractor under contract with the department of transportation or a local authority. A construction zone may include a work zone.

(b) "Public highway" has the same meaning as in 60-1-103.

(c) "Work zone" means the area where the construction, repair, maintenance, or survey work is actually taking place. The boundaries of the work zone must be clearly identified by the posting of signs.

(2) A person may not operate a motor vehicle in a construction zone or in a work zone on a public highway in violation of any of the provisions of part 3 of this chapter.

(3) The speed limit in a construction zone or in a work zone must be set by the department of transportation or the local authority based on traffic conditions or the condition of the construction, repair, maintenance, or survey project.

(4) (a) If the department of transportation, the local authority, the utility company, or the private contractor determines, based on traffic conditions or the condition of the construction, repair, maintenance, or survey project, that special speed limits in work zones or construction zones are warranted, then the department, the local authority, the utility company, or the private contractor shall post signs that:

(i) conform to the department of transportation's manual on uniform traffic control devices;

(ii) indicate the boundaries of the construction zone and the work zone; and

(iii) display the speed limit in effect within both zones.

(b) The department of transportation, the local authority, the utility company, or the private contractor shall clearly indicate at the boundary of a construction zone that a person who violates any of the provisions of part 3 of this chapter in the work zone is subject to the fine provided in subsection (5)(a).

(c) The boundaries of the work zone may not exceed 500 feet in advance of and beyond the actual construction activity.

(d) The department of transportation, the local authority, the utility company, or the private contractor shall remove or cover the signs when no work is in progress and no hazard exists.

(5) (a) A person convicted of a traffic violation in a work zone is guilty of a misdemeanor. Upon arrest and conviction, the person shall be punished by a fine of not less than double the penalty provided for the violation in part 7 of this chapter.

(2) A person commits the offense of reckless endangerment of highway workers if the person purposely, knowingly, or negligently drives a motor vehicle in a highway construction zone in such a manner as to endanger persons or property or if the person purposely removes, ignores, or intentionally strikes a traffic control device in a highway construction zone for reasons other than:

(a) avoidance of an obstacle;

(b) an emergency; or

(c) to protect the health or safety of an occupant of the vehicle or another person.

History: En. Sec. 2, Ch. 473, L. 1997.

61-8-316 through 61-8-320 reserved.

61-8-321. Drive on right side of roadway — exceptions. (1) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows:

(a) when overtaking and passing another vehicle proceeding in the same direction under the rules governing such movement;

(b) when the right half of a roadway is closed to traffic while under construction or repair;

(c) upon a roadway divided into three marked lanes for traffic under the rules applicable thereon; or

(d) upon a roadway designated and signposted for one-way traffic.

(2) Upon all roadways any vehicle proceeding at less than the normal speed of traffic at the time and place and under the conditions then existing shall be driven in the right-hand lane then available for traffic, or as close as practicable to the right-hand curb or edge of the roadway except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction, each driver shall give to the other at least one-half of the main-traveled portion of the roadway.

History: En. Sec. 49, Ch. 263, L. 1955; R.C.M. 1947, 32-2152; amd. Sec. 67, Ch. 421, L. 1979.

61-8-323. Overtaking vehicle on left. The following rules govern the overtaking and passing of vehicles proceeding in the same direction, subject to the limitations, exceptions, and special rules provided in this part:

(1) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left of the other vehicle at a safe distance and may not again drive to the right side of the roadway until safely clear of the overtaken vehicle.

(2) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle upon an audible signal or the use of signal lamps, as provided in 61-9-218, and may not increase the speed of the vehicle until completely passed by the overtaking vehicle. When giving way to the right on a two-lane highway, the driver of the vehicle being overtaken may travel upon the shoulder at a safe speed until passed if the shoulder is wide enough and is in a condition allowing safe travel.

History: En. Sec. 50, Ch. 263, L. 1955; R.C.M. 1947, 32-2153; amd. Sec. 2, Ch. 15, L. 1983; amd. Sec. 1, Ch. 119, L. 1997.

61-8-324. When overtaking on right is permitted. (1) The driver of a vehicle may overtake and pass upon the right of another vehicle only under the following conditions:

(a) when the vehicle overtaken is making or about to make a left turn;

(b) upon a street or highway with unobstructed pavement not occupied by parked vehicles of sufficient width for two or more lines of moving vehicles in each direction;

(c) upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for two or more lines of moving vehicles.

(2) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. In no event shall such movement be made by driving off the pavement or main-traveled portion of the roadway.

History: En. Sec. 51, Ch. 263, L. 1955; R.C.M. 1947, 32-2154.

61-8-325. Limitations on overtaking on the left. (1) No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to the right-hand side of the roadway before coming within 100 feet of any vehicle approaching from the opposite direction.

(2) No vehicle shall at any time be driven to the left side of the roadway under the following conditions:

(a) when approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction;

(b) when approaching within 100 feet of or traversing any intersection or railroad grade crossing;

(c) when the view is obstructed upon approaching within 100 feet of any bridge, viaduct, or tunnel.

(3) The foregoing limitations shall not apply upon a one-way roadway.

61-8-326. No-passing zones. (1) The department of transportation may determine those portions of a highway where overtaking and passing or driving to the left of the roadway would be especially hazardous, and it may by appropriate signs or markings on the roadway indicate the beginning and end of these zones. When the signs or markings are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey the directions of those signs.

(2) Where signs or markings are in place to define a no-passing zone as set forth in subsection (1) a driver may not drive on the left side of the roadway within the no-passing zone or on the left side of a pavement striping designed to mark the no-passing zone throughout its length.

61-8-328. Driving on roadways laned for traffic. Whenever a roadway has been divided into two or more clearly marked lanes for traffic, the following rules, in addition to all other consistent rules, apply:

(1) A vehicle must be driven as nearly as practicable entirely within a single lane and may not be moved from the lane until the driver has first ascertained that the movement can be made with safety.

(2) Upon a roadway that is divided into three lanes, a vehicle may not be driven in the center lane except:

(a) when overtaking and passing another vehicle where the roadway is clearly visible and the center lane is clear of traffic within a safe distance;

(b) in preparation for a left turn; or

(c) when the center lane is at the time allocated exclusively to traffic moving in the direction that the vehicle is proceeding and is signposted to give notice of the allocation.

(3) Official signs may be erected directing slow-moving traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway. Drivers of vehicles shall obey the directions of every official sign that designates use of specific lanes.

(4) A person may turn a vehicle left across a lane marked with two yellow lines into a public or private parking lot or a roadway if the turn can be made safely and if the person does not hinder the flow of oncoming traffic.

(2) The driver of any truck tractor, truck, or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another truck tractor, truck, or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a truck tractor, truck, or motor vehicle drawing another vehicle from overtaking and passing any like vehicle or other vehicle.

(3) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade whether or not towing other vehicles shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

(a) Right turns. Both the approach for a right turn and a right turn shall be made as close as practicable to the right-hand curb or edge of the roadway.

(b) Left turn on two-way roadways. At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of such center line where it enters the intersection and after entering the intersection the left turn shall be made so as to leave the intersection to the right of the center line of the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(c) Left turns on other than two-way roadways. At any intersection where traffic is restricted to one direction on one or more of the roadways, the driver of a vehicle intending to turn left at any such intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle and after entering the intersection the left turn shall be made so as to leave the intersection, as nearly as practicable, in the left-hand lane lawfully available to traffic moving in such direction upon the roadway being entered.

(d) A person making a turn under subsections (1)(a), (1)(b), or (1)(c) is entitled to the full use of the lane from which the turn may be legally made.

(2) (a) A person operating a bicycle who intends to turn left shall follow the course described in subsection (1) or in subsection (2)(b).

(b) A person operating a bicycle who intends to turn left shall approach the turn as close as practicable to the right curb or edge of the roadway. After proceeding across the intersecting roadway, the person shall make the turn as close as practicable to the curb or edge of the roadway on the far right side of the intersection. After turning, the person shall yield to through traffic and shall comply with any official traffic-control device or police officer regulating traffic on the highway along which he intends to proceed.

(3) Local authorities in their respective jurisdictions may cause markers, buttons, or signs to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this section be traveled by vehicles turning at an intersection, and when markers, buttons, or signs are so placed no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such markers, buttons, or signs.

61-8-346. Operation of vehicles on approach of police vehicles or authorized emergency vehicles — approaching stationary emergency vehicles. (1) Upon the immediate approach of an authorized emergency vehicle making use of audible and visual signals meeting the requirements of 61-9-402 or of a police vehicle properly and lawfully making use of an audible signal only, the driver of every other vehicle shall yield the right-of-way and shall immediately drive to a position parallel to, and as close as possible to, the right-hand edge or curb of the roadway clear of any intersection and shall stop and remain in that position until the police vehicle or authorized emergency vehicle has passed, except when otherwise directed by a police officer or highway patrol officer.

(2) This section does not relieve the driver of a police vehicle or authorized emergency vehicle from the duty to drive with due regard for the safety of all persons using the highway.

(3) Upon approaching a stationary authorized emergency vehicle that is displaying visible signals of flashing or rotating amber, blue, red, or green lights, the driver of the approaching vehicle shall:

(a) reduce the vehicle's speed, proceed with caution, and, if possible considering safety and traffic conditions, move to a lane that is not adjacent to the lane in which the authorized emergency vehicle is located or move as far away from the authorized emergency vehicle as possible; or

(b) if changing lanes is not possible or is determined to be unsafe, reduce the vehicle's speed, proceed with caution, and maintain a reduced speed, appropriate to the road and the conditions, through the area where the authorized emergency vehicle is stopped.

61-8-349. Certain vehicles to stop at all railroad grade crossings. (1) A person driving a motor vehicle upon a public highway of this state outside of corporate limits of incorporated cities or towns where the view is obscure or when a moving train is within sight or hearing shall bring the vehicle to a full stop not less than 10 or more than 100 feet from the intersection of the highway and the railroad tracks, before crossing the railroad tracks, at all crossings where a flagman or a mechanical device is not maintained to warn the traveling public of approaching trains or cars.

(2) (a) Except as provided in subsection (2)(b), the driver of a motor vehicle carrying seven or more passengers for hire, a school bus with or without passengers, or a vehicle carrying explosive substances or flammable liquids as a cargo or part of a cargo, before crossing at grade any track or tracks of a railroad, shall stop the vehicle within 50 feet but not less than 15 feet from the nearest rail of the railroad and while stopped shall open the door (in the case of a school bus) and shall listen and look in both directions along the track for an approaching train and for signals indicating the approach of a train and may not proceed until he can do so safely. The driver may not shift gears while crossing the track or tracks.

(b) A stop is not required at a crossing where a police officer, highway patrol officer, or traffic-control signal directs traffic to proceed.

(2) Notice of any such intended crossing shall be given to a station agent of such railroad and reasonable time be given to such railroad to provide proper protection at such crossing.

(3) Before making any such crossing the person operating or moving any such vehicle or equipment shall first stop the same not less than 15 feet or more than 50 feet from the nearest rail of such railroad and while so stopped shall listen and look in both directions along such track for any approaching train and for signals indicating the approach of a train, and shall not proceed until the crossing can be made safely.

61-8-351. Meeting or passing school bus — penalty. (1) The driver of a vehicle upon a highway or street either inside or outside the corporate limits of any city or town upon meeting or overtaking from either direction any school bus that has stopped on the highway or street to receive or discharge any school children:

(a) shall stop the vehicle not less than 10 feet before reaching the school bus when there is in operation on the bus a visual flashing red signal as specified in 61-9-402; and

(b) may not proceed until the children have entered the school bus or have alighted and reached the side of the highway or street and until the school bus ceases operation of its visual flashing red signal.

(2) The driver of a vehicle shall slow to a rate of speed that is reasonable under the conditions existing at the point of operation and must be prepared to stop when meeting or overtaking from either direction any school bus that is preparing to stop on the highway or street to receive or discharge school children as indicated by flashing amber lights as specified in 61-9-402.

(3) Each bus used for the transportation of school children must bear upon the front and rear plainly visible signs containing the words "SCHOOL BUS" in letters not less than 8 inches in height and, in addition, must be equipped with visual signals meeting the requirements of 61-9-402. Amber flashing lights must be actuated by the driver approximately 150 feet in cities and approximately 500 feet in other areas before the bus is stopped to receive or discharge school children on the highway or street. Red lights must be actuated by the driver of the school bus whenever but only whenever the vehicle is stopped on the highway or street whether inside or outside the corporate limits of any city or town to receive or discharge school children. However, a school district board of trustees may, in its discretion, adopt a policy prohibiting the operation of amber or red lights when a bus is stopped at the school site to receive or discharge

school children and the receipt or discharge does not involve street crossing by the children. The lights may not be operated in violation of that policy.

(4) When a school bus is being operated upon a highway for purposes other than the actual transportation of children either to or from school or for school functions, all markings on the bus indicating "SCHOOL BUS" must be covered or concealed.

(5) The driver of a vehicle upon a highway with separate roadways need not stop upon meeting or passing a school bus that is on a different roadway or when upon a controlled-access highway and the school bus is stopped in a loading zone that is a part of or adjacent to the highway and where pedestrians are not permitted to cross the roadway.

(6) Whenever a vehicle is established to have been in violation of subsection (1), the person in whose name the vehicle is registered is prima facie the driver of the vehicle at the time of the alleged violation.

(7) Violation of subsection (1) is punishable upon conviction by a fine of not more than $500.

No person shall stop, stand, or park any vehicle upon such highway unless such vehicle can be seen by the driver of any other vehicle approaching from either direction within 500 feet and unless drivers approaching from opposite directions are visible to each other when both are at least 500 feet from the vehicle to be stopped, turned, or parked, except in cases of justifiable emergency.

(2) This section shall not apply to the driver of any vehicle which is disabled while on the paved or main-traveled portion of a highway in such manner and to such extent that it is impossible to avoid stopping and temporarily leaving such disabled vehicle in such position.

(3) A public bus stop may not be established in the areas described in subsections (1)(a) through (1)(c) and (1)(e). Otherwise, this section does not prohibit the establishment of public bus stops and the regulation of their use by a local government. Such a bus stop must be established by ordinance pursuant to a traffic and engineering study. Such establishment is subject to review and approval by the department of transportation if the bus stop is to be established on a street or highway under its jurisdiction.

(4) No person shall move a vehicle not lawfully under his control into any such prohibited area or away from a curb such distance as is unlawful.

(3) A local authority may by ordinance permit angle parking on a roadway, except that angle parking shall not be permitted on any federal-aid or state highway unless the department

of transportation determines that the roadway is of sufficient width to permit angle parking without interfering with the free movement of traffic.

(4) The department with respect to highways under its jurisdiction may place signs prohibiting or restricting the stopping, standing, or parking of vehicles on a highway where in its opinion this stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic on it. (2) The abandonment of a motor vehicle on a public highway, a city street, public property, or private property creates a prima facie presumption that the last-registered owner of the motor vehicle is responsible for the abandonment and is liable for the costs incurred in removing, storing, and disposing of the abandoned vehicle, less the amount realized if the motor vehicle is sold.

(8) Every person riding a motorcycle or quadricycle upon a roadway shall be granted all of the rights and shall be subject to all of the duties applicable to the driver of a motor vehicle except as to those provisions which, by their nature, can have no application.

61-8-371. Operation of motor vehicle or off-highway vehicle below high-water mark on certain state or federal lands prohibited — exceptions. (2) A motor vehicle or an off-highway vehicle may be operated below the ordinary high-water mark on state or federal lands on an established road or trail that enters or crosses a stream, but the stream crossing must be by the shortest practical or designated route to the road or trail on the opposite bank.

(3) The prohibition in subsection (1) does not apply to:

(b) off-highway or motor vehicle use conducted on state or federal land pursuant to and in accordance with a specific written authorization from the appropriate land management agency for that use below the ordinary high-water mark; and

(c) operation of an off-highway vehicle by a nonambulatory person who is using the vehicle for recreational use, as defined in 23-2-301, as long as operation of the vehicle is prudent and minimizes destruction.

(4) The state may authorize the use of a motor vehicle or off-highway vehicle on state property below the ordinary high-water mark only when the state has determined that the use will have a minimal impact on the streambed and on the fish and wildlife ecology of the stream or river. 61-8-380. Funeral procession right-of-way — funeral lead vehicle and funeral escort vehicle in funeral procession. (1) Except as provided in subsection (4), pedestrians and operators of motor vehicles shall yield the right-of-way to a motor vehicle that is part of a funeral procession being led by a funeral lead vehicle or a funeral escort vehicle.

(2) After a funeral lead vehicle enters an intersection, the other vehicles in the funeral procession may continue to follow the funeral lead vehicle through the intersection despite any official traffic-control device, right-of-way provisions of this chapter, or local ordinance if the operator exercises reasonable care toward any other vehicle or pedestrian. When the funeral lead vehicle arrives at an intersection, it must comply with the requirements of any official traffic-control device, right-of-way provision of this chapter, and local ordinance.

(3) Except as provided in subsection (4), a driver of a funeral escort vehicle may direct the drivers of other vehicles in a funeral procession to proceed through an intersection or to make turns or other movements despite any official traffic-control device. The driver of a funeral escort vehicle may direct and control the drivers of vehicles not in a funeral procession, including those in or approaching an intersection, to stop, proceed, or make turns or other movements without regard to an official traffic-control device. Persons directing traffic shall comply with the provisions of 61-1-411. However, use of a funeral escort vehicle is not required.

(4) A vehicle in a funeral procession has the right-of-way at intersections regardless of official traffic-control devices provided the driver of that vehicle and the drivers of all vehicles in the funeral procession meet all the requirements of 61-1-413 through 61-1-415 and 61-8-380 through 61-8-384, except that an operator of a vehicle in a funeral procession shall yield the right-of-way to an approaching authorized emergency vehicle giving an audible or visual signal or when directed to do so by a highway patrol officer or police officer. This section does not relieve the driver of a vehicle in a funeral procession from the duty to drive with due regard for the safety of all persons using the highway.

History: En. Sec. 5, Ch. 338, L. 1991.

61-8-381. Equipment required for funeral vehicle — restricted light use. (1) A funeral escort vehicle or a funeral lead vehicle must be equipped with at least one lighted rotating or oscillating lamp exhibiting an amber light or lens visible under normal atmospheric conditions for a distance of 500 feet from the front of the vehicle.

(2) A funeral escort vehicle or a funeral lead vehicle may illuminate a rotating or oscillating amber light only when the vehicle is in use in a funeral procession.

History: En. Sec. 6, Ch. 338, L. 1991.

61-8-382. Driving in funeral procession. (1) A vehicle in a funeral procession shall follow the preceding vehicle in the funeral procession as closely as is practicable and safe.

(2) An ordinance, law, or regulation requiring that motor vehicles be operated to allow sufficient space between them to enable another vehicle to enter and occupy that space without danger does not apply to vehicles in a funeral procession.

(3) The driver of a motor vehicle in a funeral procession may not drive the vehicle at a speed greater than:

(a) 55 miles per hour on a highway where the posted speed limit is 55 miles per hour or more; or

(b) 5 miles per hour below the posted speed limit on other streets or roads.

(4) A vehicle being operated in a funeral procession must have its headlights and taillights illuminated.

(5) The turn signals must be flashing simultaneously as warning lights on a vehicle that:

(a) is the first vehicle in a funeral procession; or

(b) the driver has reason to believe is the last vehicle in a funeral procession.

History: En. Sec. 7, Ch. 338, L. 1991.

61-8-383. Vehicles not in funeral procession. The driver of a vehicle that is not part of a funeral procession may not:

(1) drive between the vehicles forming a funeral procession while they are in motion except when:

(a) authorized to do so by a police officer; or

(b) driving an authorized emergency vehicle emitting an audible or visible signal;

(2) join a funeral procession to secure the right-of-way granted by 61-8-380;

(3) pass a funeral procession on a multiple-lane highway on the funeral procession's right side unless the funeral procession is in the farthest left lane;

(4) enter an intersection, even if the driver is facing a green traffic-control signal, when a funeral procession being conducted in compliance with 61-1-413 through 61-1-415 and 61-8-380 through 61-8-384 is proceeding through a red traffic-control signal at that intersection as permitted by 61-8-380 unless the driver can do so without crossing the path of the funeral procession. If the red signal changes to green while the funeral procession is within the intersection, the driver of a vehicle facing a green signal may proceed subject to the right-of-way of a vehicle participating in a funeral procession.

History: En. Sec. 8, Ch. 338, L. 1991.

61-8-384. Liability. The operator of a vehicle in a funeral procession, including a lead vehicle or an escort vehicle, is not negligent if he operates the vehicle in accordance with the requirements of 61-1-413 through 61-1-415 and 61-8-380 through 61-8-384. When no negligence exists on the part of the operator of a vehicle in a funeral procession, none may be imputed to the funeral director or mortician organizing the procession, to the agent of the funeral director or mortician, or to a member of a local law enforcement agency acting as the agent, with or without compensation, of the funeral director or mortician.

61-8-401. Driving under influence of alcohol or drugs. (1) It is unlawful and punishable, as provided in 61-8-442, 61-8-714, and 61-8-731 through 61-8-734, for a person who is under the influence of:

(a) alcohol to drive or be in actual physical control of a vehicle upon the ways of this state open to the public;

(b) a dangerous drug to drive or be in actual physical control of a vehicle within this state;

(c) any other drug to drive or be in actual physical control of a vehicle within this state; or

(d) alcohol and any dangerous or other drug to drive or be in actual physical control of a vehicle within this state.

(2) The fact that any person charged with a violation of subsection (1) is or has been entitled to use alcohol or a drug under the laws of this state does not constitute a defense against any charge of violating subsection (1).

(3) "Under the influence" means that as a result of taking into the body alcohol, drugs, or any combination of alcohol and drugs, a person's ability to safely operate a vehicle has been diminished.

(4) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person driving or in actual physical control of a vehicle while under the influence of alcohol, the concentration of alcohol in the person at the time of a test, as shown by analysis of a sample of the person's blood or breath drawn or taken within a reasonable time after the alleged act, gives rise to the following inferences:

(a) If there was at that time an alcohol concentration of 0.04 or less, it may be inferred that the person was not under the influence of alcohol.

(b) If there was at that time an alcohol concentration in excess of 0.04 but less than 0.10, that fact may not give rise to any inference that the person was or was not under the influence of alcohol, but the fact may be considered with other competent evidence in determining the guilt or innocence of the person.

(c) If there was at that time an alcohol concentration of 0.10 or more, it may be inferred that the person was under the influence of alcohol. The inference is rebuttable.

(5) The provisions of subsection (4) do not limit the introduction of any other competent evidence bearing upon the issue of whether the person was under the influence of alcohol, drugs, or a combination of alcohol and drugs.

(6) Each municipality in this state is given authority to enact 61-8-406, 61-8-408, 61-8-410, 61-8-714, 61-8-722, 61-8-731 through 61-8-734, and subsections (1) through (5) of this section, with the word "state" in 61-8-406 and subsection (1) of this section changed to read "municipality", as an ordinance and is given jurisdiction of the enforcement of the ordinance and of the imposition of the fines and penalties provided in the ordinance.

(7) Absolute liability as provided in 45-2-104 will be imposed for a violation of this section.

(1) A person who operates or is in actual physical control of a vehicle upon ways of this state open to the public is considered to have given consent to a test or tests of the person's blood or breath for the purpose of determining any measured amount or detected presence of alcohol or drugs in the person's body.

(2) (a) The test or tests must be administered at the direction of a peace officer when:

(i) the officer has reasonable grounds to believe that the person has been driving or has been in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol, drugs, or a combination of the two and the person has been placed under arrest for a violation of 61-8-401;

(ii) the person is under the age of 21 and has been placed under arrest for a violation of 61-8-410; or

(iii) the officer has probable cause to believe that the person was driving or in actual physical control of a vehicle in violation of 61-8-401 and the person has been involved in a motor vehicle accident or collision resulting in property damage, bodily injury, or death.

(b) The arresting or investigating officer may designate which test or tests are administered.

(3) A person who is unconscious or who is otherwise in a condition rendering the person incapable of refusal is considered not to have withdrawn the consent provided by subsection (1).

(4) If an arrested person refuses to submit to one or more tests requested and designated by the officer as provided in subsection (2), the refused test or tests may not be given, but the officer shall, on behalf of the department, immediately seize the person's driver's license. The peace officer shall immediately forward the license to the department, along with a report certified under penalty of law stating which of the conditions set forth in subsection (2)(a) provides the basis for the testing request and confirming that the person refused to submit to

one or more tests requested and designated by the peace officer. Upon receipt of the report, the department shall suspend the license for the period provided in subsection (6).

(5) Upon seizure of a driver's license, the peace officer shall issue, on behalf of the department, a temporary driving permit, which is effective 12 hours after issuance and is valid for 5 days following the date of issuance, and shall provide the driver with written notice of the license suspension or revocation and the right to a hearing provided in 61-8-403.

(6) The following suspension and revocation periods are applicable upon refusal to submit to one or more tests:

(a) upon a first refusal, a suspension of 6 months with no provision for a restricted probationary license;

(b) upon a second or subsequent refusal within 5 years of a previous refusal, as determined from the records of the department, a revocation of 1 year with no provision for a restricted probationary license.

(7) A nonresident driver's license seized under this section must be sent by the department to the licensing authority of the nonresident's home state with a report of the nonresident's refusal to submit to one or more tests.

(8) The department may recognize the seizure of a license of a tribal member by a peace officer acting under the authority of a tribal government or an order issued by a tribal court suspending, revoking, or reinstating a license or adjudicating a license seizure if the actions are conducted pursuant to tribal law or regulation requiring alcohol or drug testing of motor vehicle operators and the conduct giving rise to the actions occurred within the exterior boundaries of a federally recognized Indian reservation in this state. Action by the department under this subsection is not reviewable under 61-8-403.

(9) A suspension under this section is subject to review as provided in this part.

(10) This section does not apply to blood and breath tests, samples, and analyses used for purposes of medical treatment or care of an injured motorist or related to a lawful seizure for a suspected violation of an offense not in this part.

(a) evidence of any measured amount or detected presence of alcohol, drugs, or a combination of alcohol and drugs in the person at the time of a test, as shown by an analysis of the person's blood or breath, is admissible. A positive test result does not, in itself, prove that the person was under the influence of a drug or drugs at the time the person was in control of a motor vehicle. A person may not be convicted of a violation of 61-8-401 based upon the presence of a drug or drugs in the person unless some other competent evidence exists that tends to establish that the person was under the influence of a drug or drugs while driving or in actual physical control of a motor vehicle within this state.

(b) a report of the facts and results of one or more tests of a person's blood or breath is admissible in evidence if:

(i) a breath test or preliminary alcohol screening test was performed by a person certified by the forensic sciences division of the department to administer the test;

(ii) a blood sample was analyzed in a laboratory operated or certified by the department or in a laboratory exempt from certification under the rules of the department and the blood was withdrawn from the person by a person competent to do so under 61-8-405(1);

(c) a report of the facts and results of a physical, psychomotor, or physiological assessment of a person is admissible in evidence if it was made by a person trained by the department or by a person who has received training recognized by the department.

(2) If the person under arrest refused to submit to one or more tests as provided in this section, proof of refusal is admissible in any criminal action or proceeding arising out of acts alleged to have been committed while the person was driving or in actual physical control of a vehicle upon the ways of this state open to the public, while under the influence of alcohol, drugs, or a combination of alcohol and drugs.

(3) The provisions of this part do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, drugs, or a combination of alcohol and drugs.

61-8-405. Administration of tests. (1) Only a physician or registered nurse, or other qualified person acting under the supervision and direction of a physician or registered nurse, may, at the request of a peace officer, withdraw blood for the purpose of determining any measured amount or detected presence of alcohol, drugs, or any combination of alcohol and drugs in the person. This limitation does not apply to the sampling of breath.

(2) In addition to any test administered at the direction of a peace officer, a person may request that an independent blood sample be drawn by a physician or registered nurse for the purpose of determining any measured amount or detected presence of alcohol, drugs, or any combination of alcohol and drugs in the person. The peace officer may not unreasonably impede the person's right to obtain an independent blood test. The officer may but has no duty to transport the person to a medical facility or otherwise assist the person in obtaining the test. The cost of an independent blood test is the sole responsibility of the person requesting the test. The failure or inability to obtain an independent test by a person does not preclude the admissibility in evidence of any test given at the direction of a peace officer.

(3) Upon the request of the person tested, full information concerning any test given at the direction of the peace officer must be made available to the person or the person's attorney.

(4) A physician or registered nurse, or other qualified person acting under the supervision and direction of a physician or registered nurse, does not incur any civil or criminal liability as a result of the proper administering of a blood test when requested in writing by a peace officer to administer a test.

(5) The department in cooperation with any appropriate agency shall adopt uniform rules for the giving of tests and may require certification of training to administer the tests as considered necessary.

61-8-409. Preliminary alcohol screening test. (1) A person who operates or is in actual physical control of a vehicle upon ways of this state open to the public is considered to have given consent to a preliminary alcohol screening test of the person's breath, for the purpose of estimating the person's alcohol concentration, upon the request of a peace officer who has a particularized suspicion that the person was driving or in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol or in violation of 61-8-410.

(2) The person's obligation to submit to a test under 61-8-402 is not satisfied by the person submitting to a preliminary alcohol screening test pursuant to this section.

(3) The peace officer shall inform the person of the right to refuse the test and that the refusal to submit to the preliminary alcohol screening test will result in the suspension or revocation for up to 1 year of that person's driver's license.

(4) If the person refuses to submit to a test under this section, a test will not be given. However, the refusal is sufficient cause to suspend or revoke the person's driver's license as provided in 61-8-402.

(5) A hearing as provided for in 61-8-403 must be available. The issues in the hearing must be limited to determining whether a peace officer had a particularized suspicion that the person was driving or in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol or in violation of 61-8-410 and whether the person refused to submit to the test.

(6) The provisions of 61-8-402 (3) through (8) that do not conflict with this section are applicable to refusals under this section. If a person refuses a test requested under 61-8-402 and this section for the same incident, the department may not consider each a separate refusal for purposes of suspension or revocation under 61-8-402.

(7) A test may not be conducted or requested under this section unless both the peace officer and the instrument used to conduct the preliminary alcohol screening test have been certified by the department pursuant to rules adopted under the authority of 61-8-405(5).

Absolute liability, as provided for in 45-2-104, is imposed for a violation of this section.

(2) Upon a first conviction under this section, a person shall be punished by a fine of not less than $100 or more than $500.

(3) Upon a second conviction under this section, a person shall be punished by a fine of not less than $200 or more than $500 and, if the person is 18 years of age or older, by incarceration for not more than 10 days.

(4) Upon a third or subsequent conviction under this section, a person shall be punished by a fine of not less than $300 or more than $500 and, if the person is 18 years of age or older, by incarceration for not less than 24 consecutive hours or more than 60 days.

(5) In addition to the punishment provided in this section, regardless of disposition:

(a) the person shall comply with the chemical dependency education course and chemical dependency treatment provisions in 61-8-732 as ordered by the court; and

(b) the department shall suspend the person's driver's license for 90 days upon the first conviction, 6 months upon the second conviction, and 1 year upon the third or subsequent conviction. A restricted or probationary driver's license may not be issued during the suspension period until the person has paid a license reinstatement fee in accordance with 61-2-107 and, if the person was under the age of 18 at the time of the offense, has completed at least 30 days of the suspension period.

(3) For purposes of 44-12-203 and 44-12-204, there is a rebuttable presumption of forfeiture. The owner of the motor vehicle may rebut the presumption by proving a defense under 61-8-733(2) or by proving that the owner was not convicted of a third or subsequent offense under 61-8-401 or 61-8-406. It is not a defense that the convicted person owns the motor vehicle jointly with another person.

(b) A holder of a security interest may petition the sentencing court for transfer of title to the motor vehicle to the holder of the security interest if the secured interest is equal to or greater than the estimated value of the motor vehicle.

(5) Actions the court may take under 44-12-205(3) to protect the rights of innocent persons include return of the motor vehicle without a sale to an owner who is unable to present an adequate defense under this section but is found by the court to be without fault.

(2) The prohibition against transfer of title may not be stayed pending the determination of an appeal from the conviction on the underlying charge.

(3) An ignition interlock device that is approved by the department must also:

(a) be designed so it does not impede safe operation of the vehicle;

(b) correlate well with the level established for alcohol impairment;

(c) work accurately and reliably in an unsupervised environment and under extreme weather conditions;

(d) require a deep lung breath sample or use an equally accurate measure of blood alcohol concentration equivalence;

(e) resist tampering and show evidence of tampering if it is attempted;

(a) the court determines that approved ignition interlock devices are reasonably available;

(b) the defendant's blood alcohol concentration at the time of the arrest was 0.18% or greater; and

(c) the defendant has not been previously convicted of a violation of 61-8-401 or 61-8-406.

(2) Any restriction imposed under this section must be included in a report of the conviction made by the court to the department in accordance with 61-11-101 and placed upon the person's driving record maintained by the department in accordance with 61-11-102.

(3) The duration of a restriction imposed under this section must run parallel to the time period for suspension of the driver's license of the defendant in accordance with 61-2-107, 61-5-205, and 61-5-208 and must be monitored by the department.

(3) A person operating a bicycle upon a one-way highway with two or more marked traffic lanes may ride as close to the left side of the roadway as practicable.

(4) Persons riding bicycles upon a roadway shall ride in single file except when:

(2) The sentencing judge may, in the judge's discretion, require the defendant to complete the chemical dependency assessment prior to sentencing the defendant. If the assessment is not ordered or completed before sentencing, the judge shall order the chemical dependency assessment as part of the sentence.

(3) The chemical dependency assessment and the chemical dependency education course must be completed at a treatment program approved by the department of public health and human services and must be conducted by a licensed addiction counselor. If the defendant fails to attend the education course or treatment program, the counselor shall notify the court of the failure.

(7) A court or counselor may not require attendance at a self-help program other than at an "open meeting", as that term is defined by the self-help program. A defendant may voluntarily participate in self-help programs.

(8) Chemical dependency treatment must be ordered for a first-time offender convicted of a violation of 61-8-401 or 61-8-406 upon a finding of chemical dependency made by a licensed addiction counselor pursuant to diagnosis and patient placement rules adopted by the department of public health and human services.

(c) A previous conviction under 61-8-714 or 61-8-722 for violation of 61-8-401 or 61-8-406 may be counted for purposes of determining the number of a subsequent conviction for violation of either 61-8-401 or 61-8-406.

(2) Except as provided in 61-8-731, the court may order that a term of imprisonment imposed under 61-8-714 or 61-8-722 be served in another facility made available by the county and approved by the sentencing court. The defendant, if financially able, shall bear the expense of the imprisonment in the facility. The facility may be, but is not required to be, a community-based prerelease center as provided for in 53-1-203. The prerelease center may accept or reject a defendant referred by the sentencing court.

61-8-805. Suspension for operating commercial vehicle with alcohol concentration of 0.04 or more — hearing. (1) A person whose alcohol concentration is 0.04 or more while the person drives or is in actual physical control of a commercial motor vehicle is subject to the suspension of the person's commercial driver's license. The peace officer who determines that the person is operating a commercial motor vehicle with an alcohol concentration of 0.04 or more shall immediately seize the person's commercial driver's license and, on behalf of the department, give the person written notice of the license suspension and the right to a hearing under 61-8-808. Upon receipt of a report certified under penalty of law from the peace officer that the person was operating a commercial motor vehicle with an alcohol concentration of 0.04 or more, the department shall suspend the license, with no provision for a restricted probationary commercial license, for:

(a) 1 year, upon receipt of the first report of a 0.04 or more alcohol concentration violation, except that if the violation occurred in a commercial motor vehicle transporting placardable hazardous materials, the suspension must be for 3 years; and

(b) life, upon receipt of a second or subsequent 0.04 or more alcohol concentration violation report at any time as determined from the records of the department, subject to federal rules allowing for driver rehabilitation and license reinstatement, if otherwise eligible, upon service of a minimum period of 10 years' suspension.

(2) A peace officer who determines that a commercial motor vehicle operator has a measured amount or detected presence of alcohol in the operator's body while operating a commercial motor vehicle shall place the commercial motor vehicle operator out of service as mandated by federal regulations for 24 hours.

(3) The fact that a person charged with a violation of the provisions of subsection (1) is entitled to use alcohol under the laws of Montana is not a defense against a charge of violating the provisions of subsection (1).

(4) For purposes of this section, a conviction for violation of 61-8-401 or 61-8-406 while operating a commercial motor vehicle must be treated as a prior report of a 0.04 or more alcohol

concentration violation and must be used in determining the length of the license suspension under subsection (1).

The peace officer may designate the blood or breath test or tests to be administered and may request that the person submit to a preliminary alcohol screening test before a blood, breath, or urine test is taken.

(2) A person who is unconscious or who is otherwise incapable of refusal is considered not to have withdrawn the consent provided in subsection (1).

(3) If a person refuses to submit to one or more tests designated by the officer, the test or tests may not be given, but the officer shall immediately seize the person's commercial driver's license and forward the license to the department, along with a report certified under penalty of law that the officer had reasonable grounds to believe that the person was driving or was in actual physical control of a commercial motor vehicle upon ways of this state open to the public while having a measurable alcohol concentration or detected presence of alcohol and that the person had refused to submit to one or more tests upon the request of the officer. Upon receipt of the report, the department shall suspend the license for a period provided in subsection (5).

(4) Upon seizure of a person's commercial driver's license, the peace officer shall issue, on behalf of the department, a temporary 5-day noncommercial driving permit, effective 12 hours after the time of issuance, and shall provide the person with written notice of the license suspension and the right to a hearing under 61-8-808.

(5) Upon receipt of the officer's certified report, the department shall suspend the person's commercial driver's license, with no provision for a restricted probationary commercial driver's license, for:

(a) 1 year, upon a first refusal, except that if the violation occurred in a commercial motor vehicle transporting placardable hazardous materials, the suspension for a first refusal must be for 3 years;

Removal and sale of abandoned vehicles, Title 61, ch. 12, part 4.

61-8-901. Short title. This part may be cited as the "Montana Professional Tow Truck Act".

History: En. Sec. 1, Ch. 283, L. 1995.

61-8-902. Purpose. The legislature recognizes that:

(1) wrecked, disabled, and abandoned motor vehicles on the public roadways create hazards that imperil lives and property and require expeditious removal;

(2) officers investigating accidents on the public roadways need immediately available towing and recovery vehicles staffed by competent operators and adequately equipped to clear the roadways and remove hazardous obstructions with minimum damage to property;

(3) certain standards and classifications are needed for professional tow trucks and equipment used for towing and recovering wrecked, disabled, and abandoned motor vehicles or other objects creating hazards on the public roadways;

(4) encouragement of a competitive and qualified professional towing industry requires establishment of a uniform and equitable qualification system based on the equipment and the standards provided in 61-8-905 through 61-8-907 and a system for the fair consideration of all qualified tow truck companies; and

(5) the use of nonqualified tow truck companies or private motor vehicles to tow or recover for hire wrecked, disabled, or abandoned vehicles creates additional hazards and, except in limited situations, should be prohibited. However, when a person or tow truck company responds in good faith to life-threatening emergency situations, it should not be liable for civil damages for acts or omissions, other than damages occasioned by gross negligence or by willful or wanton acts or omissions.

History: En. Sec. 2, Ch. 283, L. 1995.

61-8-903. Definitions. As used in this part, the following definitions apply:

(2) "Department" means the department of justice provided for in 2-15-2001.

(3) "Local government" means a county, a municipality, or other local board or body that has authority to enact laws relating to traffic.

(4) "Qualified tow truck operator" means a commercial tow truck operator:

(ii) has been classified in accordance with 61-8-905; and

(b) that participates in the law enforcement rotation system provided for in 61-8-908.

History: En. Sec. 3, Ch. 283, L. 1995.

61-8-904. Prohibition — exception. (1) A commercial tow truck operator may not operate for compensation upon the public roadways of this state unless the operator complies with the provisions of 61-8-906(1) and 61-8-907.

(2) A commercial tow truck operator may not participate in the law enforcement rotation system provided for in 61-8-908 unless the operator complies with the provisions of 61-8-905 through 61-8-907.

(3) Sections 61-8-901 through 61-8-908 and 61-8-910 do not apply to a commercial tow truck operator that does not operate for compensation.

History: En. Sec. 4, Ch. 283, L. 1995.

61-8-905. Classification standards. (1) Commercial tow trucks are divided into the following five classes based on the manufacturer's rating:

(a) Class A tow truck equipment must have a minimum manufacturer's rating of 4 tons and must be mounted on a truck chassis with a minimum manufacturer's rating of 10,000 pounds gross vehicle weight.

(b) Class B tow truck equipment must have a minimum manufacturer's rating of 8 tons and must be mounted on a truck chassis with a minimum manufacturer's rating of 18,000 pounds gross vehicle weight.

(c) Class C tow truck equipment must have a minimum manufacturer's rating of 16 tons and must be mounted on a chassis that has a minimum manufacturer's rating of 32,000 pounds gross vehicle weight.

(d) Class D is class A, B, or C tow truck equipment that includes manufactured rollbacks and car carriers with manufacturer's gross vehicle ratings ranging from 10,000 pounds to 30,000 pounds. The rollbacks and car carriers must be mounted on a truck-trailer chassis that, at a minimum, is equal to the minimum gross weight of the rollback or car carrier.

(e) Class E includes two or more tow trucks working together with a combined manufacturer's rating of a minimum of 80,000 pounds with access to supportive equipment, such as forklifts, banders, and air bags, for the recovery of rollovers and wrecked, disabled, and abandoned vehicles whose cargo requires special handling. Class E refers to tow truck companies and not to tow truck equipment.

(2) (a) An operator of noncommercially manufactured or modified tow truck equipment in use on October 1, 1995, that wishes to participate in the law enforcement rotation system must have its equipment classified by the department within a time period set by the department. Once the equipment is classified, further modifications may not be made.

(b) (i) The department shall establish a committee composed of members selected from the:

(A) tow truck industry;

(B) the motor carrier services division of the department of transportation; and

(C) the highway patrol.

(ii) The committee is responsible for hearing disputes that may arise regarding the classification of noncommercially manufactured or modified tow truck equipment.

(iii) The department shall establish by rule a procedure for hearing a dispute.

(c) After October 1, 1995, an operator of new noncommercially manufactured or modified tow truck equipment must have its equipment independently certified before participating in the law enforcement rotation system.

History: En. Sec. 5, Ch. 283, L. 1995.

61-8-906. Liability insurance — storage requirements. (1) Notwithstanding the provisions of 61-6-301, a commercial tow truck operator shall continuously provide:

(a) insurance against loss resulting from liability imposed by law for bodily injury or death or damage to property caused by the maintenance or use of a commercial tow truck, as defined in 61-9-416, or occurring on the business premises of a commercial tow truck operator in an amount not less than:

(i) $300,000 for class A tow trucks;

(ii) $500,000 for class B tow trucks; and

(iii) $750,000 for class C tow trucks;

(b) insurance to cover the damage to cargo or other property entrusted to the care of the commercial tow truck operator; and

(c) garage keepers legal liability insurance.

(a) adequate for the secure storage and safekeeping of stored vehicles;

(b) located in a place that is reasonably convenient for public access;

(c) available to public access between 8 a.m. and 5 p.m., Monday through Friday, excluding legal holidays; and

(d) large enough to store all the vehicles towed for law enforcement agencies.

History: En. Sec. 6, Ch. 283, L. 1995.

61-8-907. Inspection — fees — decal. (1) The tow truck equipment of a commercial tow truck operator must have an annual safety inspection. A highway patrol officer, an employee of the department of transportation appointed as a peace officer in accordance with 61-12-201, or an inspector certified by the department shall conduct the inspection and require the commercial tow truck operator to provide proof of compliance with the provisions of 61-8-906.

(2) (a) Upon satisfactory completion of the inspection and verification of the insurance requirements, a decal showing the last inspection date and the expiration date of the insurance coverage must be affixed in a prominent place on the tow truck.

(b) If the commercial tow truck operator is participating in the law enforcement rotation system, the decal must also show the classification of the operator's tow truck equipment.

(3) The department may establish an inspection fee that may not exceed the actual costs of the inspection. The fees must be deposited in the state highway account in the state special revenue fund.

History: En. Sec. 7, Ch. 283, L. 1995.

61-8-908. State law enforcement rotation system — local government rotation system. (1) The department shall establish an equitable rotation system among qualified tow truck operators that apply to the department in writing to be placed on the system. The rotation system:

(a) must be administered by the highway patrol in a manner that will give priority to public safety;

(b) must be based on the classification of equipment as provided in 61-8-905; and

(c) may include only qualified tow truck operators.

(2) The rotation system is not applicable when the owner or driver of a wrecked or disabled vehicle obstructing a public roadway requests a tow truck operator of the owner's or driver's choice and the operator meets the insurance requirements provided in 61-8-906 and the safety inspection requirements provided in 61-8-907.

(3) (a) (i) The law enforcement officer at the scene of the wreck shall call the qualified tow truck operator that is next on the rotation list if:

(A) a request for a tow truck is not made by the owner or driver;

(B) the requested tow truck cannot respond in a timely manner; or

(C) the law enforcement officer determines that the requested tow truck is unable to handle the wrecked or disabled vehicle.

(ii) If the qualified tow truck operator is not classified to handle the wrecked or disabled vehicle, the officer shall call the qualified tow truck operator next on the rotation list that is classified to handle the wrecked or disabled vehicle.

(b) If a qualified tow truck operator classified to handle the wrecked or disabled vehicle is not reasonably available, the law enforcement officer may request other equipment to remove the hazard.

(4) The department shall administer the state law enforcement rotation system. A qualified tow truck operator may examine the rotation system schedule established by the department in order to determine if the system is being administered in an equitable manner.

(5) A qualified tow truck operator gives implied consent to a reasonable inspection during normal business hours of its premises, vehicles, and equipment by the department of transportation, highway patrol, or a local government to ensure compliance with 61-8-905 through 61-8-907.

(6) A local law enforcement agency may adopt and administer a local law enforcement rotation system. A tow truck operator desiring to be placed on the local law enforcement rotation system must be a qualified tow truck operator as provided in this part.

General Provisions

61-9-101. Application — exceptions. (1) The provisions of this chapter relating to the operation of vehicles refer exclusively to the operation of vehicles upon highways except where a different place is specifically referred to in a given section.

(2) The operation of motor vehicles directly across the public roads and highways of this state, especially as required in the transportation of natural resource products, including agricultural products and livestock, may not be considered to be the operation of the vehicles on the public roads and highways of this state. The crossings must be adequately marked with warning signs or devices relating to stopping before entry and to restoration of any damage, as may reasonably be prescribed by the state or local agency in control of safety of operation of the public highway involved.

(3) If a provision of this chapter conflicts with federal laws or regulations governing motor vehicle equipment standards, the applicable federal law or regulation supersedes.

(1) Whenever requirement is hereinafter declared as to the distance from which certain lamps and devices shall render objects visible or within which such lamps or devices shall be visible, said provisions shall apply during the times stated in 61-9-201 in respect to a vehicle without load when upon a straight, level, unlighted highway under normal atmospheric conditions unless a different time or condition is expressly stated.

(2) Whenever requirement is hereinafter declared as to the mounted height of lamps or devices it shall mean from the center of such lamp or device to the level ground upon which the vehicle stands when such vehicle is without a load.

History: En. Sec. 113, Ch. 263, L. 1955; R.C.M. 1947, 32-21-116.

61-9-203. Headlamps on motor vehicles. (1) A motor vehicle other than a motorcycle, quadricycle, or motor-driven cycle must be equipped with at least two headlamps, with at least one on each side of the front of the motor vehicle, that comply with the requirements and limitations set forth in this chapter.

(2) A motorcycle, quadricycle, or motor-driven cycle must be equipped with at least one and not more than two headlamps that comply with the requirements and limitations of this chapter. If a motorcycle is registered under 61-3-411 as a collector's item, it need not be

equipped with headlamps; however, if it is not equipped with headlamps, it may not be operated upon a highway or street from one-half hour after sunset to one-half hour before sunrise or if persons and vehicles are not clearly discernible at a distance of 500 feet. A motorcycle may be equipped with a means of modulating the high beam of its headlamps between high and low beam at a rate of 200 to 280 flashes a minute; however, an operator may not modulate the headlamps at that rate during periods when headlamps are required to be lighted by 61-9-201.

(3) A headlamp upon a motor vehicle, including a motorcycle, quadricycle, and motor-driven cycle, must be located at a height, measured from the center of the headlamp, of not more than 54 inches or less than 22 inches, to be measured as provided in 61-9-202(2).

(4) When headlamps are required to be lighted by 61-9-201, a person may not operate a motor vehicle on a highway with headlamps that are composed of, covered by, or treated with a tinted or colored material, substance, system, or component that obscures the headlamps or diminishes the distance of visibility required by this section.

(5) This section does not prohibit the operation or sale of a motor vehicle the headlamps of which are composed of, covered by, or treated with a tinted or colored material, substance, system, or component with which the vehicle was sold or could have been equipped for sale when new as standard or optional equipment in compliance with federal statute or regulation governing the sale at the time of manufacture.

61-9-204. Taillamps. (1) A motor vehicle, trailer, semitrailer, and pole trailer and any other vehicle that is being drawn at the end of a combination of vehicles must be equipped with at least one properly functioning taillamp mounted on the rear that emits a red light plainly visible from a distance of 500 feet to the rear, except that in the case of a combination of vehicles, only the taillamp on the rearmost vehicle need actually be seen from the distance specified. The vehicles mentioned in this subsection, other than a motorcycle, quadricycle, motor-driven cycle, or truck tractor, registered in this state and manufactured or assembled after January 1, 1956, must be equipped with at least two properly functioning taillamps mounted on the rear that emit a red light plainly visible from a distance of 1,000 feet to the rear of the vehicle.

(2) A taillamp upon a vehicle must be located at a height of not more than 72 inches or less than 15 inches.

(3) Either a taillamp or a separate lamp must illuminate with a white light the rear registration plate and render it clearly legible from a distance of 50 feet to the rear. A taillamp or taillamps, together with a separate lamp for illuminating the rear registration plate, must be lighted whenever the headlamps are lighted.

(4) Taillamps are not required on a motorcycle that is registered under 61-3-411 as a collector's item, but the motorcycle may not be operated on a highway or street from one-half hour after sunset to one-half hour before sunrise or when persons and vehicles are not clearly discernible at a distance of 500 feet unless it is equipped with the required taillamps.

(5) A person may not operate a motor vehicle on a highway with taillamps that are covered by a lens or a plastic cover or with a tinted or colored material, substance, system, or component placed on or in front of rear lamps, taillamps, license plate lamps, or rear lamp combinations that obscures the taillamps or diminishes the distance of visibility required by this section.

(6) This section does not prohibit a vehicle manufactured prior to 1960 from being equipped with a taillamp that includes within the red cover a center lens that is blue in color.

(1) Every new motor vehicle hereafter sold and operated upon a highway, other than a truck tractor, shall carry on the rear, either as a part of the taillamps or separately, two red reflectors, except that every motorcycle, quadricycle, and motor-driven cycle shall carry at least one reflector meeting the requirements of this section, and except that vehicles of the type mentioned in 61-9-208 shall be equipped with reflectors as required in those sections applicable thereto.

(2) Every such reflector shall be mounted on the vehicle at a height not less than 15 inches or more than 60 inches measured as set forth in 61-9-202(2) and shall be of such size and characteristics and so mounted as to be visible at night from all distances within 300 feet to 50 feet from such vehicle when directly in front of lawful upper beams of headlamps, except that visibility from a greater distance may be required of reflectors on certain types of vehicles.

A vehicle manufactured before January 1, 1956, and all motorcycles, quadricycles, and motor-driven cycles must be equipped with at least one properly functioning stop lamp.

(2) The stop lamp or lamps on the rear of a vehicle must display a red light that is actuated upon application of the service (foot) brake and, in a vehicle manufactured or assembled on or after January 1, 1964, must be visible from a distance of not less than 300 feet to the rear in normal sunlight. In a vehicle manufactured or assembled before January 1, 1964, the stop lamp or lamps must be visible from a distance of not less than 100 feet. The stop lamp may be incorporated with one or more other rear lamps.

(3) A stop lamp may not project a glaring light.

61-9-207. Application of succeeding sections. Sections 61-9-208 through 61-9-229 apply as stated in those sections to vehicles of the type enumerated in those sections when operated upon a highway. The vehicles must be equipped as required and all lamp equipment required must be lighted at all times mentioned in 61-9-201 except that clearance and side marker lamps need not be lighted on a vehicle when operated within a municipality when there is sufficient light to render clearly discernible persons and vehicles on the highway at a distance of 1,000 feet.

Reflectors required to be mounted on the sides of the vehicle shall reflect the required color of light to the sides, and those mounted on the rear shall reflect a red color to the rear.

(2) Front and rear clearance lamps shall be capable of being seen and distinguished under normal atmospheric conditions, at the times lights are required, at a distance of 500 feet from the front and rear respectively of the vehicle.

(2) The red lights and reflectors required under this section must be in addition to the red lights required upon a vehicle. At any other time there must be displayed at the extreme rear end of the load a red flag or cloth not less than 12 inches square, marking the extremities of the load, at each point where a lamp or reflector would otherwise be required by this section.

(2) A motor vehicle may not be equipped with more than two fog lamps that provide a low, wide-angle light pattern to increase short-range visibility. Fog lamps must be mounted on the front at a height not more than 30 inches above the level surface upon which the vehicle stands and so aimed that when the vehicle is not loaded none of the high-intensity portion of the light to the left of the center of the vehicle at a distance of 25 feet ahead projects higher than a level of 4 inches below the level of the center of the lamp from which it comes. (3) A motor vehicle may not be equipped with more than two auxiliary driving lamps that produce a long-range, pencil-shaped light pattern and that are used to supplement the upper beams of headlamps. Auxiliary driving lamps must be mounted on the front at a height not less than 16 inches or more than 42 inches above the level surface upon which the vehicle stands. The provisions of 61-9-220 apply to a combination of headlamps and auxiliary driving lamps. An auxiliary driving lamp may not be used as a substitute for headlamps or lighted at any time the headlamps are required to be on in the low-beam position.

61-9-220. Multiple-beam road-lighting equipment. Except as provided in this part, the headlamps or the auxiliary driving lamps or combination of both on a motor vehicle other than a motorcycle, quadricycle, or motor-driven cycle must be so arranged that the driver may select between distributions of light projected to different elevations. The selection can be made automatically, subject to the following limitations:

(1) There must be an uppermost distribution of light, or composite beam, capable of revealing persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading.

(2) There must be a lowermost distribution of light, or composite beam, capable of revealing persons and vehicles at a distance of at least 100 feet ahead. On a straight level road under any condition of loading the high-intensity portion of the beam may not be directed to strike the eyes of an approaching driver.

(3) A motor vehicle, other than a motorcycle, quadricycle, or motor-driven cycle, manufactured after January 1, 1956, that has multiple-beam road-lighting equipment must be equipped with a beam indicator that must be lighted whenever the uppermost distribution of light from the headlamps is in use, and may not otherwise be lighted. The indicator must be readily visible without glare to the driver of the vehicle.

Whenever a motor vehicle is being operated on a roadway or shoulder adjacent to a roadway during the times specified in 61-9-201, the driver shall use a distribution of light, or composite beam, capable of revealing persons and vehicles at a safe distance in advance of the vehicle, subject to the following requirements and limitations:

(1) Whenever the driver of a vehicle approaches an oncoming vehicle within 1,000 feet, the driver shall use a distribution of light or composite beam that does not project into the eyes of the oncoming driver. The lowermost distribution of light specified in 61-9-220(2) must avoid glare at all times, regardless of road contour and loading.

(2) Whenever the driver of a vehicle follows another vehicle within 500 feet to the rear, the driver shall use a distribution of light permissible under this chapter other than the uppermost distribution of light specified in 61-9-220(1).

61-9-308. Two means of emergency brake operation. (1) A towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, must be equipped with two means for emergency application of the trailer brakes. One of these means must apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure that may not be lower than 20 pounds per square inch or higher than 45 pounds per square inch. The other means must be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation must be clearly indicated. The manual means may not be arranged to prevent operation of the automatic means. The automatic and the manual means required by this section may be separate.

(2) A towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, must have, in addition to the single control device required by 61-9-309, a second control device that can be used to operate the brakes on towed vehicles in emergencies. The second control must be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system is so arranged that failure of the pressure upon which the second control depends causes the

towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

61-9-309. Single control to operate all brakes. A motor vehicle, trailer, semitrailer, or pole trailer, and a combination of these vehicles, except motorcycles, quadricycles, and motor-driven cycles, equipped with brakes must have one control device that can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles can be operated by a single control on the towing vehicle.

61-9-310. Reservoir capacity and check valve. (1) A bus, truck, or truck tractor with air operated brakes must be equipped with at least one reservoir sufficient to ensure that, when fully charged to the maximum pressure as regulated by the air compressor governor cutout setting, a full service brake application is made without lowering the reservoir pressure by more than 20%. Each reservoir must be provided with means for readily draining accumulated oil or water.

(2) A truck with three or more axles equipped with vacuum assistor type brakes or a truck tractor and truck used for towing a vehicle equipped with vacuum brakes must be equipped with a reserve capacity or a vacuum reservoir sufficient to ensure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application is made without depleting the vacuum supply by more than 40%.

(3) A motor vehicle, trailer, semitrailer, or pole trailer, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, must have reservoirs or reserve capacity safeguarded by a check valve or equivalent device that, in the event of failure or leakage in its connection to the source of compressed air or vacuum, prevents the stored air or vacuum from being depleted by the leak or failure.

61-9-311. Warning devices. (1) A bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on a towed vehicle must have a warning signal, other than a pressure gauge, readily audible or visible to the driver that will operate at any time the air reservoir pressure of the vehicle is below 60 pounds per square inch. In addition, each vehicle must be equipped with a pressure gauge visible to the driver that indicates in pounds per square inch the pressure available for braking.

(2) A truck tractor, truck used for towing a vehicle equipped with vacuum operated brakes, or a truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, must be equipped with a warning signal, other than a gauge

indicating vacuum, readily audible or visible to the driver that will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than 8 inches of mercury.

(3) When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be combined into a single device that will serve both purposes. A gauge or gauges indicating pressure or vacuum is not an adequate means of satisfying this requirement.

61-9-312. Performance ability of brakes. On a dry, hard, approximately level stretch of highway free from loose material, a motor vehicle or combination of vehicles, upon application of the service brake, must be capable of stopping at a speed of 20 miles an hour within the following distances:

(1) 25 feet for passenger motor vehicles, except buses and pioneer vehicles;

(2) 40 feet for buses, trucks, and tractor trucks;

(3) 45 feet for motor vehicles registered or qualified to be registered as pioneer vehicles under 61-3-411(2)(a) when equipped with two-wheel brakes or 25 feet when equipped with four-wheel brakes;

(4) 40 feet for all combinations of vehicles; and

(5) 30 feet for motorcycles, quadricycles, and motor-driven cycles.

(1) A motor vehicle, except a motorcycle, quadricycle, motor-driven cycle, or farm tractor, must be equipped with a front windshield meeting the requirements of 61-9-408, unless the driver wears safety glasses, goggles, or face shields at all times during the operation of the motor vehicle.

(2) A person may not drive a motor vehicle with:

(a) a sign, poster, substance, or other nontransparent material upon the front windshield, side wings, or side or rear windows of the vehicle that materially obstructs, obscures, or impairs the driver's clear view of the highway or an intersecting highway; or

(b) a windshield that is shattered or in such a defective condition that it materially impairs or obstructs the driver's clear view.

(3) The windshield on a motor vehicle must be equipped with a device for clearing rain, snow, or other moisture from the windshield.

The device must be maintained in good working order.

(4) A person may not operate a motor vehicle that is required to be registered in this state upon a highway if:

(a) the windshield has sunscreening material that is not clear and transparent below the AS-1 line or if it has a sunscreening material that is red, yellow, or amber in color above the AS-1 line;

(c) the rear window or side windows behind the front seat have sunscreening or other transparent material that has a luminous reflectance of more than 35% or has light transmission of less than 14%, except for the rear window or side windows behind the front seat on a multipurpose vehicle, van, or bus; or

(d) the windows of a camper, motor home, pickup cover, slide-in camper, or other motor vehicle do not meet the standards for safety glazing material specified by federal law in 49 CFR 571.205.

(5) As used in 61-9-428, 61-9-429, and this section, the following definitions apply:

(a) "Camper" means a structure designed to be mounted in the cargo area of a truck or attached to an incomplete vehicle for the purpose of providing shelter for persons.

(b) "Glass-plastic glazing material" means a laminate of one or more layers of glass and one or more layers of plastic in which a plastic surface of the glazing faces inward when the glazing is installed in a vehicle.

(c) "Light transmission" means the ratio of the amount of total light, expressed in percentages, that is allowed to pass through the sunscreening or transparent material to the amount of total light falling on the motor vehicle window.

(d) "Luminous reflectance" means the ratio of the amount of total light, expressed in percentages, that is reflected outward by the sunscreening or transparent material to the amount of total light falling on the motor vehicle window.

(e) "Motor home" means a multipurpose passenger vehicle that provides living accommodations.

(f) "Multipurpose vehicle" means a motor vehicle designed to carry 10 or fewer passengers that is constructed on a truck chassis or with special features for occasional off-road use.

(g) "Pickup cover" means a camper having a roof and sides but without a floor designed to be mounted on and removable from the cargo area of a pickup truck by the user.

(h) "Slide-in camper" means a camper having a roof, floor, and sides designed to be mounted on and removable from the cargo area of a truck by the user.

(i) "Sunscreening material" means a film, material, tint, or device applied to motor vehicle windows for the purpose of reducing the effects of the sun.

(6) Except as provided in subsection (7), subsection (4) applies to all vehicles that are equipped with tinted windows, including windows with less than 100% light transmission to which additional sunscreening material has been applied.

(7) Subsection (4) does not apply to a multipurpose vehicle that is equipped with tinted windows that were installed by the manufacturer of the vehicle or to a hearse, ambulance, government vehicle, or any other vehicle to which a currently valid certificate of waiver is affixed as specified under 61-9-428. A certificate of waiver must be issued by the department for a vehicle that was registered in this state on October 1, 1991, and was equipped with a sunscreening device or other material prohibited under subsection (4) on October 1, 1991.

61-9-406. Restrictions as to tire equipment — particular tires, chains, or traction equipment. (1) A solid rubber tire on a vehicle must have rubber on its entire traction surface at least 1 inch thick above the edge of the flange of the entire periphery.

(2) A person may not operate or move on a highway a motor vehicle, trailer, or semitrailer having a metal tire in contact with the roadway.

(3) A tire on a vehicle moved on a highway may not have on its periphery a block, stud, flange, cleat, or spike, or other protuberance of a material other than rubber that projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery with tires having protuberances that will not injure the highway. It is also permissible to use tire chains of reasonable proportions or pneumatic tires, the traction surfaces of which have been embedded with material, such as wood, wire, plastic or metal, that may not protrude more than one-sixteenth of an inch beyond the tire tread or that are clearly marked by the manufacturer on the sidewall "all season m&s" (or "all season mud and snow"), upon a vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. The use of pneumatic tires embedded as provided in this section is permitted only between October 1 and May 31 of each year, except that one of those tires may be used for a spare in case of tire failure. School buses equipped with such embedded pneumatic tires may operate from August 15 through the following June 15.

(4) The department of transportation and local authorities in their respective jurisdictions may in their discretion issue special permits authorizing the operation upon a highway of farm tractors or other farm machinery or of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks, the operation of which upon the highway would otherwise be prohibited under this section.

(5) If the department of transportation determines at any time that dangerous or unsafe conditions on a highway require particular tires, tire chains, or traction equipment for vehicles in addition to or beyond the ordinary pneumatic rubber tires, the department may establish the following recommendations or requirements with respect to the use of the equipment for all vehicles using the highway:

(a) chains or other approved traction devices recommended for driver wheels;

(b) chains or other approved traction devices required for driver wheels; or

(c) chains required for driver wheels.

(6) Equipment required by subsection (5)(b) or (5)(c) must conform to rules established by the department of justice.

(7) The department of transportation shall place and maintain signs and other traffic-control devices on a highway designated under subsection (5) that indicate the tire, tire chain, or traction equipment recommendation or requirement determined for vehicles. The signs or traffic-control devices may not prohibit the use of pneumatic tires embedded as provided in subsection (3) between October 1 and May 31 of each year, but when the department of transportation determines that chains are required and that no other traction equipment will suffice, the requirement is applicable to tires on driver wheels of one axle of a

vehicle, including embedded tires. The signs or traffic-control devices may differentiate in recommendations or requirements for four-wheel-drive vehicles in gear.

(1) A person may not move, or permit to be moved, a vehicle, except a motorcycle, quadricycle, motor-driven cycle, or farm tractor, as defined in this title, upon the public highways without having first equipped the rearmost wheels or set of wheels of the vehicle with fenders, splash aprons, or flaps. The fenders, splash aprons, or flaps must be designed, constructed, and attached to the vehicle in a manner that arrests and deflects dirt, mud, water, rocks, and other substances that may be picked up by the rear wheels of the vehicle and thrown into the air, as follows:

(a) If the vehicle is equipped with fenders, the fenders must extend in full width from a point above and forward of the center of the tire or tires over and to the rear of the tires.

(b) If the vehicle is equipped with splash aprons or flaps, the splash aprons or flaps must extend downward in full width from a point not lower than halfway between the center of the tire or tires and the top of the tire or tires and to the rear of the tires.

(c) If the vehicle is in excess of 8,000 pounds gross vehicle weight or rating, the fenders, splash aprons, or flaps must extend downward to a point that is not more than 10 inches above the surface of the highway when the vehicle is empty.

(d) If the vehicle is 8,000 pounds or less gross vehicle weight or rating, the fenders, splash aprons, or flaps must extend downward to a point that is not more than 20 inches above the surface of the highway when the vehicle is empty.

(2) Fenders, splash aprons, or flaps, as used in subsection (1), must be constructed as follows:

(a) when measured on the cross-sections of the tread of the wheel or on the combined cross-sections of the treads of multiple wheels, the fender, splash apron, or flap extends at least to each side of the width of the tire or of the combined width of the multiple tires; and

(b) the fender, splash apron, or flap is capable at all times of arresting and deflecting dirt, mud, water, or other substance that may be picked up and carried by the wheel or wheels.

(3) This section does not apply to street rod vehicles; motor vehicles not originally equipped with fenders, splash aprons, or flaps; or motor vehicles for which fenders, splash aprons, or flaps were not required by federal law or regulation at the time of manufacture.

(4) For purposes of 61-9-430 and this section, "street rod" means a vehicle manufactured before 1949 that has been modified in body style or design.

These provisions apply to all passenger-type motor vehicles, including passenger buses and school buses. With respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows, and windshields in the driver's compartments of the vehicles.

(2) The term "safety glazing materials" means glazing materials constructed, treated, or combined with other materials to reduce substantially in comparison with ordinary sheet glass or plate glass the likelihood of injury to persons by objects from exterior sources or by these safety glazing materials when they may be cracked or broken.

(1) A truck or truck trailer combination, except pole trailers, actively engaged in transporting logs must be equipped with chains, cables, steel straps, or fiber webbing with working load limits that meet or exceed the manufacturer's marked value. The number of tie-down assemblies must be determined by the working load limits and the total weight of the load. The working load limits must equal or exceed 1 ½ times the total weight of the load.

(2) A pole trailer actively engaged in transporting logs upon the highways of the state must be equipped as follows:

(a) At least three wrappers are required as standard equipment. The wrappers must:
(i) be made of steel chain, steel cable, or a combination of steel chain and steel cable;

(ii) The complete wrapper and binder assembly must have a working load limit of at least 3,000 pounds.

(iii) The handle, or leverage portion of the binder, when in use in tightening and holding the wrapper, must be securely fastened to the wrapper or to the binder so that it cannot be accidentally loosened.

(c) At least two wrappers must be in use on all loads. The wrappers must be placed as close as reasonably possible to the front and rear bunks.

(d) If short logs are loaded on top of longer logs, sufficient wrappers must be used to secure both ends of the short logs to the main body of the load. A log may not extend laterally beyond the stakes that form the outer boundary of the load at the top of the stakes. Logs or poles loaded above the tops of the stakes must be loaded in a pyramidal fashion.

(3) For the purposes of this section:

(a) "binder" means a device attached to a wrapper that provides tension on and secures a wrapper; and

(b) "wrapper" means an indirect tie-down device, the tension of which is intended to secure a stack of logs.

(b) in an area in which the posted speed limit is more than 45 miles an hour or no speed limit is posted, 1,000 feet in advance of the hazard, except on a divided highway where the hazard does not cause disruption of traffic traveling on the opposite side of the divided highway, and an equal distance to the rear of the hazard.

(4) A local government unit may adopt an ordinance exempting an operator of a commercial tow truck from the requirements of subsection (2) within the limits of an incorporated city or town.

Part 1
Standards, Permits, and Fees

61-10-101. Standards of maximum dimensions, weights, etc. The standards provided for in 61-10-102 through 61-10-104 and 61-10-106 through 61-10-110 govern the maximum dimensions, weights, and other characteristics of motor vehicles operating over the highways in the state to the exclusion of other standards or other requirements respecting the subject matter.

History: En. 32-1123.1 by Sec. 12, Ch. 316, L. 1974; R.C.M. 1947, 32-1123.1; amd. Sec. 1, Ch. 236, L. 1995.

Cross-References

61-10-102. Width. (1) Except as provided in subsection (2), a vehicle, including a bus, unloaded or with load, may not have a total outside width in excess of 102 inches. This width for buses is allowed only on paved highways 20 feet or more in width.

(2) (a) Subsection (1) does not apply to an implement of husbandry or a vehicle used for hauling hay that is moved or propelled upon the highway during daylight hours for a distance of not more than 100 miles if the movement is incidental to the farming operations of the owner of the implement of husbandry or the vehicle used for hauling hay. If the implement or vehicle is more than 12 ½ feet wide, it must be preceded by flag vehicle escorts to warn other highway users. This restriction does not apply to dual-wheel tractors under 15 feet overall width that are used in farming operations or to movement on a county road within 100 miles of the farming operation of the owner of an implement of husbandry or a vehicle used for hauling hay. Lights that meet the requirements of 61-9-219(4) must be displayed on the rear of the implement of husbandry or vehicle used for hauling hay. However, if the highway passes through a hazardous area, the implements or vehicles must be preceded and followed by flag vehicle escorts unless the movement of the implements or vehicles is restricted to a county road within 100 miles of the farming operation of the owner.

(b) An implement of husbandry or a vehicle used for hauling hay that exceeds 16 ½ feet in width and that is traveling on an interstate or a four-lane highway must be followed by a flag vehicle escort.

(c) A commercial vehicle that is hauling hay but does not qualify under subsection (2)(a) may be granted a permit subject to the provisions of 61-10-121 through 61-10-127 and the following requirements:

(i) travel during daylight hours only for an oversize shipment of large round bales of hay, whether the vehicle is loaded or with an empty hay rack, up to 144 inches; when empty, a square red or orange flag measuring 12 inches on each side must be attached to each corner of the hay rack; and

(ii) travel day or night for any other shipment of baled hay, whether the vehicle is loaded or with an empty hay rack, up to 114 inches.

(d) Subsection (1) does not apply to a commercial hay grinder moved or propelled upon the highway during daylight hours for a distance of not more than 100 miles if the movement is incidental to operations of the commercial hay grinder. A commercial hay grinder exceeding 102 inches in width must have a permit issued under 61-10-124. If the commercial hay grinder is more than 12 ½ feet wide, it must be preceded by flag vehicle escorts to warn other highway users. Lights that meet the requirements of 61-9-219(4) must be displayed on the rear of the commercial hay grinder. Movement of a commercial hay grinder that does not exceed 138 inches in width may occur on any day of the week, including holidays, and is restricted to movement during daylight hours. Movement of a commercial hay grinder may not exceed the posted speed limit, including the speed limit on an interstate highway.

(3) A safety device that the department determines by rule adopted pursuant to 61-9-504 to be necessary for safe and efficient operation of motor vehicles is not included in the calculation of width provided in subsection (1).

(4) For the purposes of this section, "county road" has the same meaning as the term is defined in 60-1-103.

61-10-104. Length — definitions. (1) A single truck, bus, or self-propelled vehicle, unladen or with load, may not have an overall length, inclusive of front and rear bumpers, in excess of 55 feet.

(2) (a) When used in a truck tractor-semitrailer combination, the semitrailer may not exceed 53 feet in length, excluding those portions not designed to carry a load, except as provided by 61-10-124. When used in a truck tractor-semitrailer-trailer or a truck

tractor-semitrailer-semitrailer combination, the semitrailer and trailer or the two semitrailers may not exceed 28 ½ feet each in length or 61 feet in combined trailer length, excluding those portions not designed to carry a load, except as provided by 61-10-124. Truck tractor-semitrailer, truck tractor-semitrailer-trailer, and truck tractor-semitrailer-semitrailer combinations are not subject to a combination length limit.

(b) A stinger-steered automobile or boat transporter may not exceed 75 feet in length plus a maximum 3 feet of front overhang and 4 feet of rear overhang, except as provided by 61-10-124. "Stinger-steered automobile or boat transporter" means a truck tractor-semitrailer combination that has a fifth wheel on a drop frame located behind and below the rear axle of the truck tractor and that is designed and used for the transportation of vehicles or assembled boats or boat hulls.

(c) All other combinations of vehicles may not have a combination length in excess of 75 feet, except as provided by 61-10-124. If the combination consists of more than two units, the rear units of the combination must be equipped with breakaway brakes.

(3) A motor vehicle may not tow more than one motor vehicle, and a motor vehicle may not draw more than three motor vehicles attached to it by the triple saddle-mount method (that is, by mounting the front wheels of one vehicle on the bed of another, leaving only the rear wheels of the vehicle in contact with the roadway), and this combination may not have a combination length in excess of 75 feet.

(4) A passenger vehicle or truck of less than 2,000 pounds "manufacturer's rated capacity" may not tow more than one trailer or semitrailer, and this combination may not have a length in excess of 65 feet.

(5) (a) The length of a vehicle combination consisting of a truck or truck-tractor and one pole trailer or semitrailer hauling raw logs may not exceed 75 feet in overall length. As used in this subsection (5)(a), the term "length" means the total length of the vehicle combination beginning at the front of the front bumper of the truck or truck-tractor and extending to the most distant end of the logs being hauled. A term permit for an overlength vehicle combination, as provided in 61-10-124(2), does not apply to the vehicle combination described in this subsection (5)(a). A vehicle combination exceeding 75 feet must have a trip permit.

(b) The maximum overhang of any log may not exceed 15 feet, except by special, single-trip permit. Overhang is measured from the center of the rear-most axle to the most distant end of the logs being hauled.

(c) The provisions in subsections (5)(a) and (5)(b) do not apply to a vehicle combination hauling utility poles.

(6) As used in this chapter, the following definitions apply:

(a) "Combination length" means the total length of a combination of vehicles, such as a truck tractor-semitrailer-trailer combination, measured from the front bumper of the motor vehicle to the back bumper or rear extremity of the last trailer, including the connection tongues.

(b) "Combined trailer length" means the total length of a combination of trailers measured from the front of the first trailer to the back of the last trailer, including the connection tongues and loads.

(c) "Length", except as provided in subsection (5)(a), means the total longitudinal dimension of a single vehicle, a trailer, or a semitrailer. The length of a trailer or semitrailer is measured from the front of the cargo-carrying unit to its rear, exclusive of safety or energy efficiency devices, air-conditioning units, air compressors, flexible fender extensions, splash and spray suppressant devices, bolsters, mechanical fastening devices, and hydraulic lift gates.

(d) "Rocky Mountain double" means a combination of vehicles that includes a truck tractor pulling a long semitrailer and a shorter trailer.

61-10-107. Maximum gross weight. (1) An axle may not carry a load in excess of 20,000 pounds, and no two consecutive axles more than 40 inches or less than 96 inches apart may carry a load in excess of 34,000 pounds. An axle load is the total load transmitted to the road by all wheels whose centers are included between two parallel transverse vertical planes 40 inches apart, extending across the full width of the vehicle. For purposes of this section, axles 40 inches or less apart are considered to be a single axle. The maximum gross weight allowed on a vehicle, group of axles, or combination of vehicles must be determined by the formula:

$$W = 500((LN/(N - 1)) + 12N + 36)$$

in which W equals gross weight, L equals wheel base in feet, and N equals number of axles, except that two consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more. The maximum gross weight allowed on a vehicle may not exceed the weight limits adopted by the department. The department shall adopt rules for weight limits based upon the most recent version of 23 CFR, part 658, appendix c, for vehicles operating in Montana.

(2) (a) Notwithstanding a vehicle's conformance with the requirements of subsection (1), except for the steering axle, all axles weighing over 11,000 pounds must have at least four tires or have wide-base tires. The maximum load on an axle, other than a steering axle, equipped with wide-base tires is limited to 500 pounds for each inch of tire width.

(b) The provisions of subsection (2)(a) do not apply to passenger buses.

(c) For the purposes of this section, wide-base tires are tires that are 14 or more inches in nominal width. The maximum tire weight limit is computed for wide-base tires based on the number of inches shown on the tire marking, or if the tire marking is shown by metric size, the tire weight limit is computed by conversion of the metric size.

(3) This section does not apply to highways that are a part of the national system of interstate and defense highways (as referred to in 23 U.S.C. 127) when application of this section would prevent this state from receiving federal funds for highway purposes.

(b) for a specified, limited period of time; and

61-10-114 through 61-10-120 reserved.

61-10-121. Permits for excess size and weight — agents. (1) (a) Upon application and with good cause shown, the department of transportation, or its agent under subsection (3), and local authorities in their respective jurisdictions may issue telephonically or in writing a special permit authorizing the applicant to operate or move a vehicle, combination of vehicles, load, object, or other thing of a size or weight exceeding the maximum specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110 upon a highway under the jurisdiction of and for the maintenance of which the body granting the permit is responsible. However, only the department may issue permits for movement of a vehicle or combination of vehicles carrying built-up or reducible loads in excess of 9 feet in width or exceeding the length, height, or weight specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110. This permit must be issued in the public interest. A carrier receiving this permit must have public liability and property damage insurance for the protection of the traveling public as a whole. A permit may not be issued for a period greater than the period for which the GVW license is valid, including grace periods, as provided in this title. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department, purchase permits to expire with their registration. A license required by the state governs the issuance of a special permit.

(b) The department may issue to dealers in implements of husbandry and self-propelled machinery oversize permits. The permits may be transferred from unit to unit by the dealer, for the fee set forth in 61-10-124. These oversize permits may not restrict dealers in implements of husbandry and self-propelled machinery from traveling on a Saturday or Sunday and expire on December 31 of each year, with no grace period. For the purposes of this section, a dealer in implements of husbandry or self-propelled machinery must be a resident of the state. A post-office box number is not a permanent address under this section.

(2) The applicant for a special permit shall specifically describe the powered vehicle or towing vehicle and generally describe the type of vehicle, combination of vehicles, load, object, or other thing to be operated or moved and the particular state highways over which the vehicle, combination of vehicles, load, object, or other thing is to be moved and whether the permit is required for a single trip or for continuous operation.

(3) The department may enter into a contract with a private party to act as an agent of the department for the purpose of issuing, in writing, a special permit allowed under this section.

61-10-122. Discretion of issuer — conditions. The department of transportation or local authority may issue or withhold a special permit at its discretion or, if the permit is issued, limit the number of trips or establish seasonal or other time limitations within which the vehicle, combination of vehicles, load, object, or other thing described may be operated on the public highways indicated, or otherwise limit or prescribe conditions of operation of the vehicle, combination of vehicles, load, object, or other thing when necessary to assure against damage to the road foundation, surfaces, or structures or safety of traffic, and may require an undertaking or other security considered necessary to compensate for injury to a roadway or road structure. During harvest no permit may be denied to oversize harvest or harvest-related agricultural machinery solely on the grounds that the travel takes place on a Saturday or Sunday. No permit may be denied to dealers in implements of husbandry and self-propelled machinery solely on the grounds that the travel may take place on a Saturday or Sunday.

(2) A single load may not be moved on the vehicle a distance greater than 75 miles from the point of origin on public roads.

(3) When the vehicle is hauling a load, it shall be accompanied by two pilot cars. One car shall precede the vehicle by not less than 100 yards or more than one-fourth mile, and one shall follow the vehicle at a distance not less than 100 yards or more than one-fourth mile. The following pilot car shall be in radio contact with the vehicle at all times.

(4) The speed of the vehicle shall be reasonable and proper but not in excess of 35 miles per hour.

(5) The vehicle shall be operated only between the hours of sunrise and sunset.

(6) The vehicle may not be operated on an interstate or controlled-access highway.

(7) A term or blanket permit may be issued for the vehicle.

(1) Except as provided in subsections (2)(b), (2)(d), and (4), in addition to the regular registration and gross vehicle weight fees, a fee of $10 for each trip permit and a fee of $75 for each term permit issued for size in excess of that specified in 61-10-101 through 61-10-104 must be paid for all movements under special permits on the public highways under the jurisdiction of the department of transportation.

(2) (a) Except as provided in subsections (2)(b), (2)(d), (2)(f), (4), and (5), term or blanket permits may not be issued for an overwidth vehicle, combination of vehicles, load, or other thing in excess of 15 feet; an overlength vehicle, combination of vehicles, load, object, or other thing in excess of 95 feet; or an overheight vehicle, combination of vehicles, load, or other thing in excess of 14 feet or of a limit determined by the department. A vehicle, combination of vehicles, load, or other thing in excess of these dimensions is limited to trip permits. A Rocky Mountain double may not exceed 81 feet in combined trailer length. A Rocky Mountain double is not subject to a combination length limit. Special permits for vehicle combinations of more than two trailers or more than two units designed for or used to carry a load are not permitted except as provided in subsections (4) and (5). Special permits for vehicle combinations may specify and special permits under subsections (4) and (5) must specify highway routing and otherwise limit or prescribe conditions of operation of the vehicle or combination, including but not limited to required equipment, speed, stability, operational procedures, and insurance.

(b) A term permit may be issued to a dealer in implements of husbandry and self-propelled machinery for an overwidth or overlength vehicle referred to in subsection (2)(a). The fee for this permit is $75. This permit expires on December 31 of each year, with no grace period.

(c) With payment of the appropriate gross weight fees required by 61-10-201 and with payment of the fee prescribed in subsection (1), allowable gross weight of a five-axle combination logging vehicle is 80,000 pounds.

(d) A term permit may be issued for any combination of vehicles that exceeds 95 feet in length but does not exceed 100 feet in combination length, except a truck-trailer-trailer or a truck tractor-semitrailer-trailer-trailer combination, for travel only on highways that are part of the federal-aid interstate system, as defined in 60-1-103, or on other highways within a 2-mile radius of an interchange on the interstate system in order to obtain necessary services or to load or unload at a terminal. When a terminal is beyond a 2-mile radius, the department may authorize travel between the terminal and the interchange. The fee for this permit is $125.

(e) A term permit may be issued for a truck tractor-semitrailer combination when the semitrailer exceeds 53 feet in length but does not exceed 57 feet in length.

(f) (i) An annual permit may be issued for nondivisible loads up to 120 feet in length. The fee for this permit is $125.

(ii) Portions of a nondivisible load hauled on a public road off of the interstate highway may be detached and reloaded on the same hauling unit if the separate pieces are necessary to the operation of the machine or equipment that is being hauled and if the arrangement does not exceed limits for which a permit may be issued.

(iii) An applicant for a nondivisible load permit for use as provided in subsection (6)(b) is responsible for providing information regarding the number of work hours required to dismantle the load.

(iv) For use as provided in subsection (6)(b) and for the purposes of this section, emergency response vehicles and casks designed and used for the transport of spent nuclear materials are considered nondivisible loads.

(3) Except as provided in subsection (2)(b), a permit may not be issued for a period of time greater than the period for which the GVW license is valid as provided in this title, including grace periods allowed by this title. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department of transportation, purchase permits to expire with their registration. A license required by the state governs the issuance of a special permit.

(4) The department may issue special permits to the operating company for a truck-trailer-trailer or truck tractor-semitrailer-trailer-trailer combination of vehicles under the following conditions:

(a) the combination may be operated only on highways that are part of the federal-aid interstate system, as defined in 60-1-103, and within a 2-mile radius of an interchange on the interstate system on other highways only in order to obtain necessary services or to load or unload at a terminal. When a terminal is beyond a 2-mile radius, the department may authorize travel between the terminal and the interchange.

(b) the combined trailer length may not exceed 95 feet;

(c) an individual cargo unit of the combination may not exceed 28 ½ feet in length and 102 inches in width;

(d) gross weight fees under 61-10-201 must be paid on the truck or truck tractor for the declared registered gross weight of the special vehicle combination, but not to exceed the formula in 61-10-107;

(e) the combination must have a special overlength permit issued at a fee of $200 for a term permit or $20 for each trip permit;

(f) travel of the combination may be restricted to specific routes, hours of operation, specific days, or seasonal periods; and

(g) the department may enforce any other restrictions determined by the department to be necessary. The permit is not transferable, and the fee for the permit is $200.

(5) The department of transportation may issue special permits under subsection (4) for vehicle combinations that consist of a truck-trailer-trailer if:

(a) the vehicle combination's overall length, inclusive of front and rear bumpers, is not more than 95 feet; and

(b) the person, firm, or corporation applying for the permit:

(i) restricts truck-trailer-trailer operations authorized by the permit to the hauling of talc ore, chlorite, dolomite, limestone, and custom combine equipment;

(ii) operated the truck-trailer-trailer combination before July 1, 1987;

(iii) restricts the truck-trailer-trailer operations authorized by the permit to the specified routes that those vehicles used before July 1, 1987; and

(iv) provides the department of transportation with an affidavit confirming the routes used before July 1, 1987, for truck-trailer-trailer operations.

(6) For the purposes of this section, a "nondivisible load" is:

(a) on public roads off of interstate highways, a load that cannot be readily or reasonably dismantled and that is reduced to a minimum practical size and weight;

(b) on interstate highways, a load or vehicle exceeding applicable length or weight limits that, if separated into smaller loads or vehicles, would:

(i) compromise the intended use of the vehicle;

(ii) destroy the value of the load or vehicle; or

(iii) require more than 8 work hours to dismantle using appropriate equipment.

(b) The fees provided in subsection (2)(a) are annual fees but may be prorated on a quarterly basis and may be paid quarterly, semiannually, or annually. However, if the fee is paid other than annually, there is an additional fee of $10 each time a fee is paid.

(c) A permit issued under this subsection (2) is valid for a period of no less than 1 calendar quarter and no more than 1 calendar year.

(d) The department or its agent may not issue a term permit for loads that exceed 10,000 pounds in excess axle weight unless the person applying for the term permit has obtained approval from the department, through a weight analysis, for the configuration of the vehicle.

(3) There is charged for a permit to move a load that exceeds the single axle, tandem axle, or axle group limits set forth in 61-10-107(1) the following fee based upon the sum of excess in axle or axle group weights:

(4) For purposes of subsection (3):

(a) mileage must be rounded off in units of 25 miles and mileage in excess of a 25-mile increment must be assessed at the next higher 25-mile increment; and

(b) weight must be rounded off in 5,000-pound increments and weight in excess of a 5,000-pound increment must be assessed at the next higher 5,000-pound increment.

61-10-130. Custom combiner's special permit — fee — collection — distribution — not transferable. (1) In lieu of the taxes required by 15-24-301 and in lieu of motor vehicle license fees, gross vehicle weight fees, and overwidth, overlength, and overheight permits provided for in Title 61, a nonresident engaged in the business of custom combining who brings equipment into the state may pay a special permit fee of $40 for each unit. A unit includes:

(a) one truck suitable for hauling grain;

(b) one header trailer or one combine trailer; and

(c) pickup trucks and all other equipment, except combines, used by a nonresident and brought into the state as part of the nonresident's business of custom combining.

(2) In lieu of gross vehicle weight fees and overwidth, overlength, and overheight permits, Montana residents engaged in the business of custom combining may pay the annual farm gross vehicle weight fees and a special permit fee of $20 for each unit. A unit includes:

(a) one truck suitable for hauling grain;

(b) one header trailer or one combine trailer; and

(c) pickup trucks used by the resident in the resident's business of custom combining.

(3) When used to transport agricultural products, a truck authorized to be used under a custom combiner's special permit may be operated only within a 100-mile radius from the harvested field to the point of first unloading. The truck may not haul agricultural products from one commercial elevator to another commercial elevator. The truck may be operated on any highway, except a highway that is part of the federal-aid interstate system, without incurring excess weight penalties under 61-10-145 if the total gross weight of the truck does not exceed allowable weight limitations by more than 20% for each axle and the maximum load for each inch of tire width does not exceed 670 pounds. A trip permit is not required. If the truck exceeds the tolerance provided under this subsection, the fine or penalty imposed applies to all weight over the legal limit allowed by 61-10-107.

(4) A combine trailer authorized to be used under subsection (1)(b) or (2)(b) may be operated under the same limitations, except that the 100-mile limitation does not apply and the combine trailer may be used upon any highway of the state, including a highway that is part of the federal-aid interstate system. If the combine trailer exceeds the tolerance provided under subsection (3), the fine or penalty imposed applies to all weight over the legal limit allowed by 61-10-107.

(5) The fee required by this section must be collected by the department of transportation. Upon payment of the fee, the department of transportation shall provide an identifying device to be displayed on each truck, header trailer, or combine trailer and other equipment used by the nonresident or resident in the person's business of custom combining in the state. The device is valid for the calendar year in which the fee is collected.

(6) All fees collected under this section must be distributed not later than January 31 immediately following the period of licensure as follows:

(a) 62 ½% to the state general fund; and

(b) 37 ½% to the state special revenue fund for the department of transportation.

(7) The identifying devices and fee paid for each unit are not transferable from one vehicle to another or transferable on the sale or change of ownership.

(8) The department of transportation may adopt rules, as provided in Title 2, chapter 4, to implement the provisions of this section.

2001 Amendments — Composite Section: Chapter 369 in (3) and (4) in first sentences increased distance to 100-mile radius from 50-mile radius; in (3) deleted former fourth sentence that read: "The truck may not be operated in excess of 40 miles per hour"; and made minor changes in style. Amendment effective July 1, 2001.

Chapter 574 in (4) near beginning after "limitations" deleted "and until July 1, 1991, may be operated within the same tolerances granted trucks under subsection (3)"; at end of (6)(a) substituted "state general fund" for "county general fund in the county in which the permittee declares the greatest amount of time will be spent to operate"; and made minor changes in style. 61-10-131 through 61-10-140 reserved.

61-10-141. *(Temporary)* **Officers authorized to weigh vehicles and require removal of excessive loads — enforcement of motor carrier safety standards — duty to obtain bills of lading for agricultural seeds — authority to inspect diesel-powered vehicles.** (1) A peace officer, officer of the highway patrol, or employee of the department of transportation may weigh any vehicle regulated by 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110, except recreational vehicles as defined in 61-1-132, by means of either portable or stationary scales and may require that the vehicle be driven to the nearest scales if those scales are within 2 miles. That person may then require the driver to unload at a designated facility that portion of the load necessary to decrease the weight of the vehicle to conform to the maximum allowable weights specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110. If the excess weight does not exceed 10,000 pounds, an excess weight permit may be issued in accordance with 61-10-121. The permit authorizes the driver of the excess weight load to proceed to a designated facility where the load can be safely reduced to legal limits.

(2) Commodities and material unloaded as required by this section must be cared for by the owner or operator of the vehicle at the risk of that owner or operator. Commodities or material unloaded as required by this section may not be left on the highway right-of-way.

(3) The department of transportation may establish, maintain, and operate weigh stations, either intermittently or on a continuous schedule, and may require vehicles, except passenger cars and pickup trucks under 14,000 pounds GVW and recreational vehicles as defined in 61-1-132 (that are not new or used recreational vehicles traveling into or through Montana for delivery to a distributor or a dealer), to enter for the purpose of weighing and inspection for compliance with all laws pertaining to their operation and safety requirements. The department may require vehicles over 10,000 pounds to be inspected and weighed by portable scale crews.

(4) The department of transportation shall work with the highway patrol in the enforcement of safety standards adopted pursuant to 44-1-1005. For the purposes of the joint enforcement, the highway patrol is designated as the lead agency. The highway patrol and the department of transportation shall cooperate to ensure minimum duplication and maximum coordination of enforcement effort.

(5) In order to enforce compliance with safety standards adopted pursuant to 44-1-1005, the department of transportation shall designate employees as peace officers. The designated employees must be employed in the administration of the motor carrier services functions of the department of transportation. Each employee designated as a peace officer may:

(a) issue citations and make arrests in connection with violations of safety standards adopted under 44-1-1005;

(b) issue summons;

(c) accept bail;

(d) serve warrants for arrest;

(e) make reasonable inspections of cargo carried by commercial motor vehicles;

(f) make reasonable safety inspections of commercial motor vehicles used by motor carriers; and

(g) require production of documents relating to the cargo, driver, routing, or ownership of the commercial motor vehicles.

(6) In addition to other enforcement duties assigned under this section, an employee of the department of transportation who is appointed pursuant to 61-12-201 has:

(a) the same authority to enforce provisions of the motor carriers law as that granted the public service commission under 69-12-203;

(b) the duty to secure or make copies, or both, of all bills of lading or other evidence of delivery for shipment of agricultural seeds as defined in 80-5-120 that have been sold or are intended for sale in Montana and to forward the copies to the department of agriculture within 24 hours of the date the bill of lading was obtained; and

(c) the authority, if probable cause exists, to stop and inspect a supply tank connected to the engine of any diesel-powered motor vehicle operating on the public highways of this state in order to determine compliance with Title 15, chapter 70, part 3.

(7) The department of transportation shall report to the revenue and transportation interim committee at least once each year on its enforcement, pursuant to the authority provided in subsection (6)(c), of the provisions of Title 15, chapter 70, part 3, and on any impacts that enforcement has had on the state special revenue fund. *(Terminates July 1, 2003—sec. 2, Ch. 206, L. 2001.)*

61-10-141. *(Effective July 1, 2003)* **Officers authorized to weigh vehicles and require removal of excessive loads — enforcement of motor carrier safety standards**

— duty to obtain bills of lading for agricultural seeds. (1) A peace officer, officer of the highway patrol, or employee of the department of transportation may weigh any vehicle regulated by 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110, except recreational vehicles as defined in 61-1-132, by means of either portable or stationary scales, and may require that the vehicle be driven to the nearest scales if those scales are within 2 miles. That person may then require the driver to unload at a designated facility that portion of the load necessary to decrease the weight of the vehicle to conform to the maximum allowable weights specified in 61-10-101 through 61-10-104 and 61-10-106 through 61-10-110. If the excess weight does not exceed 10,000 pounds, an excess weight permit may be issued in accordance with 61-10-121. The permit authorizes the driver of the excess weight load to proceed to a designated facility where the load can be safely reduced to legal limits.

(2) Commodities and material unloaded as required by this section must be cared for by the owner or operator of the vehicle at the risk of that owner or operator. Commodities or material unloaded as required by this section may not be left on the highway right-of-way.

(3) The department of transportation may establish, maintain, and operate weigh stations, either intermittently or on a continuous schedule, and may require vehicles, except passenger cars and pickup trucks under 14,000 pounds GVW and recreational vehicles as defined in 61-1-132 (that are not new or used recreational vehicles traveling into or through Montana for delivery to a distributor or a dealer), to enter for the purpose of weighing and inspection for compliance with all laws pertaining to their operation and safety requirements. The department may require vehicles over 10,000 pounds to be inspected and weighed by portable scale crews.

(4) The department of transportation shall work with the highway patrol in the enforcement of safety standards adopted pursuant to 44-1-1005. For the purposes of the joint enforcement, the highway patrol is designated as the lead agency. The highway patrol and the department of transportation shall cooperate to ensure minimum duplication and maximum coordination of enforcement effort.

(5) In order to enforce compliance with safety standards adopted pursuant to 44-1-1005, the department of transportation shall designate employees as peace officers. The designated employees must be employed in the administration of the motor carrier services functions of the department of transportation. Each employee designated as a peace officer may:

(a) issue citations and make arrests in connection with violations of safety standards adopted under 44-1-1005;

(b) issue summons;

(c) accept bail;

(d) serve warrants for arrest;

(e) make reasonable inspections of cargo carried by commercial motor vehicles;

(f) make reasonable safety inspections of commercial motor vehicles used by motor carriers; and

(g) require production of documents relating to the cargo, driver, routing, or ownership of the commercial motor vehicles.

(6) In addition to other enforcement duties assigned under this section, an employee of the department of transportation has:

(a) the same authority to enforce provisions of the motor carriers law as that granted the public service commission under 69-12-203; and

(b) the duty to secure or make copies, or both, of all bills of lading or other evidence of delivery for shipment of agricultural seeds as defined in 80-5-120 that have been sold or are intended for sale in Montana and to forward the copies to the department of agriculture within 24 hours of the date the bill of lading was obtained.

(2) The operator of a vehicle or combination of vehicles may move over the highways to the first open state scale, permanent or portable, without incurring the excess weight penalties set forth in 61-10-145 if the total gross weight of the vehicle or combination of vehicles does not exceed allowable total gross weight limitations by more than 10% and if the weight carried by any axle or combination of axles does not exceed the allowable axle weight limitations by more than 10%. If the vehicle or combination of vehicles is not in excess of the allowable total gross or axle weight limitations by more than 10%, the department may issue a single trip permit for the fee of $10, allowing the vehicle or combination of vehicles to move over the highways to the first facility where its load can be safely adjusted or to its destination. Violations of total gross or axle weight limitations in excess of 10% are subject to the fines provided in 61-10-145, and all loads in excess of 10% of the total gross or axle weight limitations:

(a) may be required to be adjusted or reduced to conform to the size and weight limitations before the vehicle or combination of vehicles is moved from the point of weighing; or

(3) Farm vehicles transporting agricultural products from a harvesting combine or other harvesting machinery may be operated on any highway, except a highway that is part of the federal-aid interstate system, within a 100-mile radius of the harvested field to the point of first unloading without incurring excess weight penalties under 61-10-145 if the total gross weight of the farm vehicle or combination of vehicles does not exceed allowable weight limitations by more than 20% for each axle and the maximum load for each inch of tire width does not exceed 670 pounds. A single trip permit, as required in subsection (2), is not applicable to the farm

vehicle or combination of vehicles. When a farm vehicle or combination of vehicles violates any of the provisions of this subsection, the fine or penalty imposed applies to that portion of the load above the legal limit.

Multistate Highway Transportation Agreement

Interstate cooperative agreements for collection of taxes and fees, 60-2-311.

61-10-1101. Multistate Highway Transportation Agreement — enactment and text. The Multistate Highway Transportation Agreement is hereby enacted into law and entered into with all other jurisdictions legally joining in the agreement in the form substantially as follows:

MULTISTATE HIGHWAY TRANSPORTATION AGREEMENT

Pursuant to and in conformity with the laws of their respective jurisdictions, the participating jurisdictions, acting by and through their officials lawfully authorized to execute this agreement, do mutually agree as follows:

Article I. Findings and Purposes

Section 1. Findings. The participating jurisdictions find that:

(a) the expanding regional economy depends on expanding transportation capacity;

(b) highway transportation is the major mode for movement of people and goods in the western states;

(c) uniform application in the West of more adequate vehicle size and weight standards will result in a reduction of pollution, congestion, fuel consumption, and related transportation costs, which are necessary to permit increased productivity;

(d) a number of western states, already having adopted substantially the 1964 bureau of public roads recommended vehicle size and weight standards, still find current federal limits more restrictive; and

(e) the participating jurisdictions are most capable of developing vehicle size and weight standards most appropriate for the regional economy and transportation requirements, consistent with and in recognition of principles of highway safety.

Section 2. Purposes. The purposes of this agreement are to:

(a) adhere to the principle that each participating jurisdiction should have the freedom to develop vehicle size and weight standards that it determines to be most appropriate to its economy and highway system;

(b) establish a system authorizing the operation of vehicles traveling between two or more participating jurisdictions at more adequate size and weight standards;

(c) promote uniformity among participating jurisdictions in vehicle size and weight standards on the basis of the objectives set forth in this agreement;

(d) secure uniformity, insofar as possible, of administrative procedures in the enforcement of recommended vehicle size and weight standards;

(e) provide means for the encouragement and utilization of research that will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in section 1 of this article; and

(f) facilitate communication between legislators, state transportation administrators, and commercial industry representatives in addressing the emerging highway transportation issues in participating jurisdictions.

Article II. Definitions

Section 1. As used in this agreement:

(a) "cooperating committee" means a committee composed of the designated representatives from the participating jurisdictions;

(b) "designated representative" means a legislator or other person authorized under Article XII to represent the jurisdiction;

(c) "jurisdiction" means a state of the United States or the District of Columbia;

(d) "vehicle" means any vehicle defined by statute as subject to size and weight standards that operates in two or more participating jurisdictions.

Article III. General Provisions

Section 1. Qualifications for membership. Participation in this agreement is open to jurisdictions that subscribe to the findings, purposes, and objectives of this agreement and will seek legislation necessary to accomplish these objectives.

Section 2. Cooperation. The participating jurisdictions, working through their designated representatives, shall cooperate and assist each other in achieving the desired goals of this agreement pursuant to appropriate statutory authority.

Section 3. Effect of headings. Article and section headings contained in this agreement may not be considered to govern, limit, modify, or in any manner affect the scope, meaning, or intent of the provisions of any article or section of the agreement.

Section 4. Vehicle laws and regulations. This agreement does not authorize the operation of a vehicle in any participating jurisdiction contrary to the laws or regulations of the jurisdiction.

Section 5. Interpretation. The final decision regarding interpretation of questions at issue relating to this agreement must be reached by unanimous joint action of the participating jurisdictions, acting through the designated representatives. Results of all actions must be placed in writing.

Section 6. Amendment. This agreement may be amended by unanimous joint action of the participating jurisdictions, acting through the officials of the jurisdictions authorized to enter into this agreement, subject to the requirements of section 4, Article III. Any amendment must be placed in writing and become a part of the agreement.

Section 7. Restrictions, conditions, or limitations. Any jurisdiction entering this agreement shall provide each other participating jurisdiction with a list of any restriction, condition, or limitation on the general terms of this agreement, if any.

Section 8. Additional jurisdictions. Additional jurisdictions may become members of this agreement by signing and accepting the terms of the agreement.

Article IV. Cooperating Committee

Section 1. Each participating jurisdiction must have two designated representatives. Pursuant to section 2, Article III, the designated representatives of the participating jurisdictions constitute the cooperating committee that may:

(a) collect, correlate, analyze, and evaluate information resulting or derivable from research and testing activities in relation to vehicle size and weight related matters;

(b) recommend and encourage the undertaking of research and testing in any aspect of vehicle size and weight or related matter when, in their collective judgment, appropriate or sufficient research or testing has not been undertaken;

(c) recommend changes in law or policy with emphasis on compatibility of laws and uniformity of administrative rules that would promote effective governmental action or coordination in the field of vehicle size and weight related matters;

(d) recommend improvements in highway operations, in vehicular safety, and in state administration of highway transportation laws; and

(e) perform functions necessary to facilitate the purposes of this agreement.

Section 2. Each designated representative of a participating jurisdiction is entitled to one vote only. An action of the committee may not be approved unless a majority of the total number of votes cast by the designated representatives of the participating jurisdictions are in favor of the action.

Section 3. The committee shall meet at least once annually and shall elect, from among its members, a presiding officer, a vice presiding officer, and a secretary.

Section 4. The committee shall submit annually to the legislature of each participating jurisdiction a report setting forth the work of the committee during the preceding year and including recommendations developed by the committee. The committee may submit additional reports as it considers appropriate or desirable.

Article V. Objectives of the Participating Jurisdictions

Section 1. Objectives. The participating jurisdictions hereby declare that:

(a) it is the objective of the participating jurisdictions to obtain more efficient and more economical transportation by motor vehicles between and among the participating jurisdictions by encouraging the adoption of standards that will, as minimums, allow the operation on all state highways, except those determined through engineering evaluation to be inadequate, with a single-axle weight not in excess of 20,000 pounds, a tandem-axle weight not in excess of 34,000 pounds, and a gross vehicle or combination weight not in excess of that resulting from application of the formula:

$$W = 500((LN/(N - 1)) + 12N + 36)$$

where

W = maximum weight in pounds carried on any group of two or more consecutive axles computed to nearest 500 pounds;

L = distance in feet between the extremes of any group of two or more consecutive axles;

N = number of axles in group under consideration;

(b) it is the further objective of the participating jurisdictions that the operation of a vehicle or combination of vehicles in interstate commerce according to the provisions of subsection (a) of this section be authorized under special permit authority by each participating jurisdiction for vehicle combinations in excess of statutory weight of 80,000 pounds or statutory lengths;

(c) it is the further objective of the participating jurisdictions to facilitate and expedite the operation of any vehicle or combination of vehicles between and among the participating jurisdictions under the provisions of subsection (a) or (b) of this section, and to that end the participating jurisdictions hereby agree, through their designated representatives, to meet and cooperate in the consideration of vehicle size and weight related matters including but not limited to the development of uniform enforcement procedures; additional vehicle size and weight standards; operational standards; agreements or compacts to facilitate regional application and administration of vehicle size and weight standards; uniform permit procedures; uniform application forms; rules for the operation of vehicles, including equipment requirements, driver qualifications, and operating practices; and other matters as may be pertinent;

(d) the cooperating committee may recommend that the participating jurisdictions jointly secure congressional approval of this agreement and specifically of the vehicle size and weight standards set forth in subsection (a) of this section;

(e) it is the further objective of the participating jurisdictions to:

(1) establish transportation laws and regulations to meet regional and economic needs and to promote an efficient, safe, and compatible transportation network;

(2) develop standards that facilitate the most efficient and environmentally sound operation of vehicles on highways consistent with and in recognition of principles of highway safety; and

(3) establish programs to increase productivity and reduce congestion, fuel consumption, and related transportation costs and enhance air quality through the uniform application of state vehicle regulations and laws.

Article VI. Entry Into Force and Withdrawal

Section 1. This agreement becomes effective when enacted into law by any two or more jurisdictions. Thereafter, this agreement becomes effective as to any other jurisdiction upon its enactment of the agreement, except as otherwise provided in section 8, Article III.

Section 2. Any participating jurisdiction may withdraw from this agreement by canceling it but a withdrawal may not take effect until 30 days after the designated representative of the withdrawing jurisdiction has given notice in writing of the withdrawal to all other participating jurisdictions.

Article VII. Construction and Severability

Section 1. This agreement must be liberally construed so as to effectuate the purposes of the agreement.

Section 2. The provisions of this agreement are severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any participating jurisdiction or the applicability of this agreement to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement is not affected. If this agreement is held contrary to the constitution of any jurisdiction participating in the agreement, the agreement remains in full force and effect as to the jurisdictions affected as to all severable matters.

Article VIII. Filing of Documents

Section 1. A copy of this agreement, its amendments, and rules promulgated under the agreement and interpretations of the agreement must be filed in the highway department in each participating jurisdiction and must be made available for review by interested parties.

61-11-210. Appeals. (1) A person declared to be a habitual traffic offender may file a petition in the district court in the county in which the person resides, or in Lewis and Clark County if the person is not a resident of the state, challenging the declaration and revocation. The petition must be filed within 30 days after the person received notice under 61-11-204. Receipt under 61-11-204 is presumed to be on the third day after the date of mailing. After the petition is filed, a copy must be promptly served on the county attorney of the county in which the petition was filed. The county attorney shall represent the department in the proceeding. Proof of service must be filed with the clerk of the court prior to a hearing or grant of relief. Untimely service or lack of service upon the county attorney waives the right to a hearing. The filing of the petition does not stay enforcement of the revocation.

(2) Upon receipt from the county attorney of notice of the petition, the department shall give the county attorney a certified copy of the abstracts of the records of convictions and bond forfeitures upon which the habitual traffic offender declaration was based.

(3) A hearing date must be set and at least 10 days' notice of the date must be given to the parties. The scope of the hearing is limited to whether the petitioner is the person named in the certified abstracts of convictions and bond forfeitures upon which the habitual traffic offender declaration was based and whether the petitioner is a habitual traffic offender. The petitioner has the burden of proving that the department's actions are invalid or that its records are erroneous.

(4) If the court finds that the petitioner is the person declared by the department to be a habitual traffic offender and that the petitioner is a habitual traffic offender, the court shall dismiss the petition. If the court finds that the petitioner is not the person declared by the department to be a habitual traffic offender or that the petitioner is not a habitual traffic offender, the court shall grant the petition and provide the petitioner with appropriate relief, which must include an order that the department reimburse the petitioner for court fees paid by the petitioner.

(5) Upon a finding adverse to the petitioner, the clerk of the court shall file with the department a copy of the court's order, together with the petitioner's driver's license if the

license has not been previously surrendered. If the petition is granted, the clerk of the court shall file with the department a copy of the court's order granting the petition. The order must state the grounds upon which the relief was granted and must specify the court findings on the conviction points, if any, that have been accrued by the petitioner. The department shall then correct the petitioner's driving record to comport with the court's specific findings.

67-1-204. Lawfulness of flight and landings. (1) Flight in aircraft over the lands and waters of this state is lawful, unless it is at such a low altitude as to interfere with the then-existing use to which the land or water or the space over the land or water is put by the owner or unless conducted as to be imminently dangerous to persons or property lawfully on the land or water or in violation of the air commerce regulations that have been or may be promulgated by the department of transportation of the United States.

(2) Aircraft landings and takeoffs from the public waters of this state are lawful if proper safety precautions regarding public waters, as prescribed in 14 CFR, part 91, are taken prior to the landing or takeoff, except as otherwise provided by this section.

(3) Aircraft landings and takeoffs from public roads in this state are lawful if proper safety precautions, as approved by the governing jurisdiction of the roads, are taken prior to the landing or takeoff, except as otherwise provided in this section. However, the local governing jurisdiction may not incur liability as a result of an approval under this subsection.

(4) A person may not operate an aircraft, as pilot of the aircraft, either in the air, on the water, or on the ground, in a careless or reckless manner so as to endanger the life or property of others, including the aircraft being operated and passengers carried in the aircraft.

(5) The willful and malicious use of aircraft in stunting or diving over livestock in a manner calculated to frighten or stampede them is an unlawful use of aircraft, and actual and punitive damages, in addition to the penalties provided by this part, may be recovered in an action for damages caused by the willful and malicious use of the aircraft. As used in this subsection, "livestock" includes ostriches, rheas, and emus.

(a) acquire real or personal property by purchase, gift, devise, lease, condemnation proceedings pursuant to Title 70, chapter 30, or otherwise for the purpose of establishing and constructing airports, restricted landing areas, and other air navigation facilities;

(b) acquire in like manner, own, control, establish, construct, enlarge, improve, maintain, equip, operate, regulate, and police airports, restricted landing areas, and other air navigation facilities either within or outside of this state;

(c) prior to acquisition, make investigations, surveys, and plans;

(e) dispose of any property, airport, restricted landing area, or other air navigation facility by sale, lease, or otherwise in accordance with the laws of this state governing the disposition of other similar property of the state.

(2) The department may not acquire or take over an airport, restricted landing area, or other air navigation facility owned or controlled by a municipality of this state without the consent of the municipality. The department may erect, equip, operate, and maintain at an airport all buildings and equipment necessary and proper to establish, maintain, and conduct the airport and air navigation facilities connected with the airport.

(3) When necessary, in order to provide unobstructed air space for the landing and taking off of aircraft utilizing airports and restricted landing areas acquired or operated under the provisions of this title, the department may acquire, in the manner provided for the acquisition of property for airport purposes, easements through or other interests in air space over land or water, interests in airport hazards outside the boundaries of the airports or restricted landing areas, and other airport protection privileges that are necessary to ensure safe approaches to the landing areas of airports and restricted landing areas and the safe and efficient operation of them. The department may also acquire in the same manner the right or easement, for a term of years or perpetually, to place or maintain suitable marks for the daytime marking and suitable lights for the nighttime marking of airport hazards, including the right of ingress and egress to or from the airport hazards for the purpose of maintaining and repairing the lights and marks. This authority does not limit the right, power, or authority of the state or a municipality to zone property adjacent to an airport or restricted landing area pursuant to a law of this state.

(4) The department may engage in the activities listed in subsections (1) through (3) jointly with the United States, with other states, and with municipalities or other agencies of this state.

(2) It shall report to the appropriate federal agency all accidents in aeronautics in this state of which it is informed and preserve, protect, and prevent the removal of the component parts of any aircraft involved in an accident being investigated by it until a federal agency

begins an investigation. It shall report to the appropriate federal agency all refusals by it to register federal licenses, certificates, or permits; all revocations of certificates of registration; the reasons for its action; and all penalties of which it has knowledge imposed upon aircrews for violations of the laws of this state relating to aeronautics or for violations of the rules or orders of the department.

(1) The department may cooperate with the government of the United States and any agency or department thereof in the acquisition, construction, improvement, maintenance, and operation of airports and other air navigation facilities in this state and may comply with the laws of the United States and any regulations made under those laws for the expenditure of federal moneys upon airports and other navigation facilities.

(2) The department may accept, receive, and receipt for federal moneys and other moneys, either public or private, for and in behalf of this state or a municipality of this state, for the acquisition, construction, improvement, maintenance, and operation of airports and other air navigation facilities, whether the work is to be done by the state or by the municipalities or jointly, aided by grants of aid from the United States upon terms and conditions prescribed by the laws of the United States and any rules made under them. The department may act as agent of a municipality of this state upon the request of the municipality in accepting, receiving, and receipting for moneys in its behalf for airports or other air navigation facility purposes and in contracting for the acquisition, construction, improvement, maintenance, or operation of airports or other air navigation facilities financed either in whole or in part by federal moneys. The governing body of a municipality may designate the department as its agent for those purposes and enter into an agreement with it prescribing the terms and conditions of the agency in accordance with federal laws and rules. (4) All moneys accepted for disbursement by the department under subsection (2) of this section shall be deposited in the state treasury and, unless otherwise prescribed by the authority from which the money is received, kept in separate funds, designated according to the purposes for which the moneys were made available, and held by the state in trust for those purposes. All those moneys are appropriated for the purposes for which they were made available, to be spent in accordance with federal laws and regulations and with this title. The department may, whether acting for this state or as the agent of any of its municipalities or when requested by the United States government or an agency or department of the United

States, disburse the moneys for the designated purposes, but this does not preclude any other authorized method of disbursement.

General Provisions

67-3-101. Regulation and licensing — general provisions. In order to promote the general public interest and safety and to carry out the purposes of this title, the department may:

(1) require the annual registration of federal licenses, permits, or certificates of civil aircraft engaged in air navigation within this state, of aircrews engaged in aeronautics within this state, and of aeronautics instructors giving instruction in flying subjects and may issue certificates of registration. The certificates of registration constitute licenses of the aircraft, aircrews, and instructors for operations within this state to the extent permitted by the federal licenses, certificates, or permits so registered. The department may charge a fee for the registration of each federal license, certificate, or permit not exceeding $10. It may accept as evidence of the holding of a federal license, certificate, or permit the verified application of the owner of the aircraft, a member of the aircrew, or the instructor. The application shall contain information which the department may by rule or order prescribe.

(2) register aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation and license aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation, air schools, and aeronautics instructors giving instruction in ground subjects, in accordance with rules to be adopted by the department, and may annually renew these licenses. It may charge for the original licensing of aircraft repair shops, aircraft, aircraft parts and sales dealers, and other persons operating in aviation, air schools, and aeronautics instructors not more than $10 and for the renewal of a license not more than $10.

(3) upon notification by the federal aviation administration that it has revoked the license or certificate of an aircraft, aircrew member, air school, or aeronautics instructor, temporarily or permanently revoke the license or certificate of registration issued for that aircraft, aircrew member, air school, or aeronautics instructor, giving reasons for the action.

(1) There is an account in the state special revenue fund to which must be credited all money received from fees paid in lieu of tax on aircraft as required in this part and 15-24-304 and all penalties collected for registration violations as provided in 67-3-202.

(2) Money in the account is allocated as follows:

(a) 90% to the state general fund; and

(b) 10% to the department for the purpose of administering and enforcing aircraft registration.

(3) The allocations required in subsection (2)(a) must be made twice annually by the department. The first allocation must be made between March 15 and March 30 and the second allocation must be made between July 1 and July 15.

(4) The allocation required in subsection (2)(b) must be made on July 1 of each year.

History: En. Sec. 3, Ch. 453, L. 1987; amd. Sec. 8, Ch. 628, L. 1989; amd. Sec. 182, Ch. 574, L. 2001.

2001 Amendment: Chapter 574 in (2)(a) at end substituted "state general fund" for "counties in the proportion that each county's collections bear to the total collections statewide"; and deleted former (5) and (6) that read: "(5) On receipt of the money allocated as provided in subsection (2)(a), the county treasurer shall distribute the money in the relative proportions required by the levies for state, county, school district, and municipal purposes in the same manner as personal property taxes are distributed.

(6) The allocations required in subsection (2)(a) are considered statutory appropriations as described in 17-7-502." Amendment effective July 1, 2001.

67-3-206. Schedule of fees in lieu of tax for aircraft. (1) The appropriate fee in lieu of tax imposed on aircraft is based on the age and type of aircraft and must be determined from the following schedule:

	YEARS				
	0 - 5	6 - 10	11 - 20	21 - 30	31 - 40
Single engine, fixed gear, 200 horsepower and under	$ 300	$ 175	$100	$ 50	$ 25

Single engine, retractable gear, 200 horsepower and under	600	300	175	100	75
Single engine, retractable gear, over 200 horsepower	700	400	200	125	100
Multi-engine, piston engine	800	500	250	175	150
Helicopter, piston engine	700	450	225	150	125

Multi-engine jet helicopter, prop jet	2,000	1,000	600	400	200
Jet engine, no propeller	3,000	1,500	800	500	250

(2) (a) Except as provided in subsection (2)(b), the age of an aircraft is determined by subtracting the manufacturer's designated model year from the current calendar year.

(b) If the purchase year of an aircraft precedes the designated model year of the aircraft and the aircraft is originally titled in Montana, then the purchase year is considered the model year for the purposes of calculating the fee in lieu of tax.

(3) The fee in lieu of tax imposed on any glider, ultralight, gyrocopter, balloon, homebuilt aircraft, antiques, or any aircraft over 40 years old is $20.

Air Operators and Air Carriers

67-3-401. Commercial air operators — insurance. The department shall require every commercial air operator to procure and continue in effect, as long as the commercial air operator continues to offer its services for compensation, adequate protection against liability imposed by law upon a commercial air operator for the payment of damages for personal bodily injuries, including death resulting from those injuries, and property damage as a result of an accident.

67-3-402. Amount of insurance. The department, after a public hearing, shall set the amount of liability insurance, required by 67-3-401, which is reasonably necessary to provide adequate compensation for damage incurred through an accident involving a commercial air operator.
History: En. Sec. 5, Ch. 122, L. 1967; amd. Sec. 20, Ch. 348, L. 1974; R.C.M. 1947, 1-315.

67-3-403. Evidence of insurance. (1) The protection required under 67-3-401, covering each aircraft used or to be used in commercial operations for compensation, shall be evidenced by providing one of the following to the department:

(a) a copy of the policy of insurance issued by a company authorized to write the insurance in the state;

(b) a bond of a surety company authorized to write surety bonds in the state; or

(c) evidence of the qualification of the commercial air operator as a self-insurer as may be authorized by the department.

(2) With the consent of the department, a copy of an insurance policy, certified by the company issuing it to be a true copy of the original policy, a photostatic copy of the original policy, an abstract of the provisions of the policy, or a certificate of insurance issued by the company issuing the policy may be filed with the department instead of the original or a duplicate or counterpart of the policy.

(3) The department may accept policies of insurance written by unauthorized insurers if the policies of insurance meet the rules adopted by the department.

Part 1
General Provisions

67-4-101. Legislative finding and purpose. It is hereby found that tall trees and structures and certain types of development located in the vicinity of airports endanger the lives and property of users of the airport and of occupants of land in its vicinity. It is also found that the location of tall trees and structures and certain types of development near airports reduce the area available for landing, taking off, and maneuvering aircraft and increase the likelihood of legal action against a local government for noise nuisance, thus destroying the utility of the airports and the public investment in them. It is therefore the purpose of this chapter to promote the public health, safety, and general welfare by the development of compatible noise, height, and land use regulations.

History: En. 1-724 by Sec. 1, Ch. 551, L. 1977; R.C.M. 1947, 1-724.

67-4-102. Definitions. (1) The definitions in 67-1-101 apply to this chapter.

(2) In this chapter the following definitions also apply:

(a) "Airport" means, for the purpose of this chapter, only those airports included on the national airport system plan.

(b) "Airport influence area" means all land in the proximity of an airport, the use of which may be affected by the airport's existence.

(c) "Local government" means any county or incorporated city or town having an airport influence area partially or entirely within its jurisdictional limits.

History: En. 1-725 by Sec. 2, Ch. 551, L. 1977; R.C.M. 1947, 1-725.

Part 2
Airport Influence Areas

67-4-201. Designation of airport influence areas. (1) A local government with an airport shall designate an airport influence area around the airport. The designation must be based on federal aviation administration rules and guidelines. However, an airport influence area may not extend more than 10,000 feet out from the thresholds of the primary instrument approach runway or exceed 1 mile in width on each side of the primary instrument approach runway and its extended centerline. A public hearing must be held by the local government following the procedure prescribed in 67-4-302.

(2) A map of the designation must be filed with the county clerk and recorders of the affected counties and the city clerks of the affected cities and towns.

History: En. 1-726 by Sec. 3, Ch. 551, L. 1977; R.C.M. 1947, 1-726; amd. Sec. 2, Ch. 279, L. 1993.

67-4-202. Temporary effect of designation. Upon the designation of an airport influence area, the use of land within the airport influence area shall be restricted as to height consistent with part 77, federal aeronautics regulations, until rules are adopted pursuant to this chapter. This restriction does not affect nonconforming uses and areas already zoned on July 1, 1977, and may not be imposed for a period of more than 1 year. After the designation of an airport influence area, a person may not recover from a local government, an airport authority, an airport operator, or an airport owner damages caused by noise and vibrations from normal and anticipated normal airport operations.

History: En. 1-727 by Sec. 4, Ch. 551, L. 1977; R.C.M. 1947, 1-727; amd. Sec. 3, Ch. 279, L. 1993.

Cross-References

67-4-203. Development of criteria for regulation of influence area. (1) The local government shall devise criteria and guidelines for regulation of the airport influence area.

(2) The criteria and guidelines for noise regulations shall be designed to promote the public health, safety, and general welfare, and the criteria and guidelines for height and land

use regulations shall be designed solely to promote the public safety. The criteria and guidelines shall, at the minimum, give reasonable consideration to, among other things:

(a) the safety of airport users and persons and property in the vicinity of the airport;

(b) the character of the flying operations conducted or expected to be conducted at the airport;

(c) the magnitude and duration of noise produced by aircraft and the number of aircraft flybys;

(d) the nature of the terrain;

(e) the future development of the airport;

(f) the views and mandates of the federal agency charged with the fostering of civil aeronautics as to the aerial surfaces necessary for safe flying operations.

History: En. 1-728 by Sec. 5, Ch. 551, L. 1977; R.C.M. 1947, 1-728.

67-4-204. Amendment of criteria — redesignation of influence area. (1) When circumstance so requires, the local government may amend the criteria and guidelines.

(2) The local government may redefine the boundaries of the influence area of an airport whenever an amendment to the criteria and guidelines so requires or whenever the airport site boundaries are altered.

History: En. 1-732 by Sec. 9, Ch. 551, L. 1977; R.C.M. 1947, 1-732.

67-4-205 through 67-4-210 reserved.

67-4-211. State lands. When an airport influence area lies partially or entirely on state-owned lands, the department of natural resources and conservation shall administer the affected lands in conformance with the criteria and guidelines prescribed by the local governing body.

History: En. 1-731 by Sec. 8, Ch. 551, L. 1977; R.C.M. 1947, 1-731; amd. Sec. 172, Ch. 418, L. 1995.

67-4-301. Local government to adopt rules. Within 1 year of the designation of an airport influence area, each local government affected shall adopt and provide for the administration of rules restricting the height to which structures may be erected and trees allowed to grow within the airport influence area.

History: En. 1-729 by Sec. 6, Ch. 551, L. 1977; R.C.M. 1947, 1-729.

67-4-302. Rulemaking — notice and hearing. Before a local government adopts or amends rules governing the airport influence area, it must hold a public hearing thereon. Unless otherwise specifically provided, when notice of a hearing or other official act is required by this title, the following shall apply:

(1) The notice shall be published two times with at least 7 days separating each publication. The first publication shall be no more than 21 days prior to the action and the last no less than 3 days prior to the action.

(2) The published notice shall contain:

(a) the date, time, and place at which the hearing or other action will occur;

(b) a brief statement of the action to be taken.

History: En. 1-730 by Sec. 7, Ch. 551, L. 1977; R.C.M. 1947, 1-730.

67-4-303. Rules to be reasonable — prior nonconforming uses. All rules adopted under this chapter shall be reasonable and may not require the removal or alteration of any structure or tree lawfully in existence when the rules become effective. Such uses are to be treated as prior nonconforming uses which may continue, but rules may prohibit their expansion or their reconstruction or replacement following destruction or substantial damage.

Rules may further require that trees in place at the time the rules take effect be maintained by the local government, at its expense, at heights attained at that time. Land in existing residential subdivisions or platted for residential subdivision at the time rules are adopted may continue to be used for residential purposes.

History: En. 1-738 by Sec. 15, Ch. 551, L. 1977; R.C.M. 1947, 1-738.

67-4-304. Rules relative to zoning ordinances. (1) If a local government has adopted a zoning ordinance, any rules adopted under this chapter may be made a part of the zoning ordinance and may be administered and enforced in connection with it. However, the zoning ordinance may not limit the effectiveness or scope of the rules adopted pursuant to this chapter.

(2) Where a conflict exists between the rules adopted pursuant to this chapter and any zoning ordinances or resolutions applicable to the same area, the more stringent limitation or requirement shall prevail.

67-4-311. Permit system. (1) The rules adopted pursuant to this chapter shall provide for a permit system for erecting new structures, changing uses of land or structures, and substantially altering, repairing, or replacing existing structures within the airport influence area.

(2) No material change may be made in the use of land and no structure or tree may be erected, altered, planted, or otherwise established in an airport influence area unless a permit for the use has been granted.

(3) No permit may be granted which would allow the establishment of an airport hazard or that would allow a nonconforming use, structure, or tree to become a greater hazard to air navigation than it was on the effective date of the designation of the airport influence area or any subsequent revisions to it or than it was prior to the application for a permit.

History: En. 1-734 by Sec. 11, Ch. 551, L. 1977; R.C.M. 1947, 1-734.

67-4-312. Board of adjustment. (1) All rules adopted pursuant to this chapter shall provide for a board of airport hazard adjustment consisting of five members to be appointed for terms and in the manner provided in 76-2-321 through 76-2-328.

(2) All of the provisions of 76-2-321 through 76-2-328 relating to appeals and judicial review are applicable to grievances relating to rules, variances, or permits.

(3) Where a local government has appointed a board of adjustment under the provisions of 76-2-221 through 76-2-228 or 76-2-321 through 76-2-328, the local government may designate the members of that board as the board of airport hazard adjustment required by this chapter, in which case the terms of such members for purposes of this chapter are concurrent with their terms as members of the board of adjustment.

History: En. 1-736 by Sec. 13, Ch. 551, L. 1977; R.C.M. 1947, 1-736.

67-4-313. Variance. (1) Any person desiring to erect or increase the height of a structure, permit the growth of a tree, or use property in violation of the rules adopted pursuant to this chapter may apply to the board of airport hazard adjustment for a variance from the rules.

(2) A variance must be granted where a literal application or enforcement of the rules would result in substantial practical difficulty or unnecessary hardship and where the variance would not be contrary to the public interest.

(3) A variance must be granted for a nonconforming use where there is no immediate hazard to safe flying operations or persons and property in the vicinity of the airport and where the noise or vibrations from normal and anticipated normal operations of the airport would not be likely to cause structural damage.

(4) Within an airport influence area a person who obtains a variance for building a structure which is a nonconforming use under rules adopted pursuant to this chapter or a person who takes or buys property subject to a variance is on notice that the airport existed before the variance was granted and that normal and anticipated normal operations of the airport will result in noise and vibrations being projected over the property. A person using a

structure built under a variance may not collect damages from a local government, an airport authority, an airport operator, or an airport owner for interference with the enjoyment of that structure caused by noise and vibrations from normal and anticipated normal airport operations.

History: En. 1-733 by Sec. 10, Ch. 551, L. 1977; R.C.M. 1947, 1-733; amd. Sec. 4, Ch. 279, L. 1993.

General Provisions

67-5-101. Purpose. For the purpose of ensuring safety from death or injury for aeronauts and passengers, to protect the property of those engaged in aeronautics, and to encourage and promote air travel and transportation of mail, passengers, express, and freight by air, it is considered necessary to eliminate dangerous obstructions of air space in the vicinity of airports or landing fields which may now be or which may hereafter be acquired, owned, operated, controlled, or maintained by the United States, the state of Montana or any county or municipality thereof. In order to promote the public order, health, and safety by providing unobstructed air space for the safe descent, landing, ascent, and operation of aircraft utilizing public airports in the state of Montana, the height of buildings and other structures in the vicinity of the airports and landing fields in the state of Montana owned, leased, operated, maintained, or controlled by any of those public authorities shall be regulated and restricted as hereafter provided.

History: En. Sec. 1, Ch. 12, L. 1939; amd. Sec. 3, Ch. 232, L. 1977; R.C.M. 1947, 1-701.

67-5-102. Exception — emergency landing strips. This chapter shall not apply to any landing fields or strips now established or hereafter established by the civil aeronautics authority of the United States government, known as "emergency landing strips", which do not provide at least 1,800 feet of landing area in all directions and which do not provide facilities for the housing, supply, and servicing of aircraft.

History: En. Sec. 7, Ch. 12, L. 1939; R.C.M. 1947, 1-707.

Part 2
Regulation and Restriction

67-5-201. Regulation of building heights. (1) The height of buildings and other structures shall be regulated for the purposes set forth in 67-5-101, considering among other things:

(a) requirements and facilities necessary to secure the safe descent, landing, ascent, and operation of aircraft utilizing the public airports and landing fields in the state of Montana;

(b) hazards from the obstruction of air space and the relation of the height of buildings and other structures in the vicinity of such airports and landing fields to such hazards;

(c) the area within which buildings and other structures may dangerously obstruct air space in the vicinity of public airports and landing fields and the height of buildings or other structures within such area which is consistent with the safe use of such airports and landing fields; and

(d) the maintenance and use of either obstruction markers or lights, or both, upon buildings and other structures within such area as safety devices.

(2) The height of buildings and other structures is regulated and restricted within a distance of 2 miles from any public airport or landing field, measured at a right angle from any side or in a radial line from any corner of the established boundary line thereof, in any and all directions, as follows:

(a) The trapezoidal portion of the total 2-mile zone area, 500 feet in width at the boundary of the field or airport and broadening to a width of 2,500 feet 2 miles distant, the centerline of which is a continuation of the centerline of each runway at and upon such public airports and landing fields, known as the approach zone, may have no building or other structure or natural feature or object of any kind therein, the height of which is more than one-twentieth its distance from the nearest boundary of the airport or landing field.

(b) The remaining portion of the 2-mile zone area surrounding such public airports and landing fields, lying between the approach zones and known as turning zones, may have no building or other structure or natural feature or object of any kind therein, the height of which is more than one-seventh its distance from the nearest boundary of the airport or landing field.

(3) In measuring distances and heights to determine the zone standard, measurements shall be taken from the nearest side of the building or structure or other object to the nearest side of the airport or landing field. In the event of airports having boundaries not regular, the nearest established perimeter of such port and field shall be used, as distinguished from the actual boundary.

History: En. Sec. 2, Ch. 12, L. 1939; amd. Sec. 4, Ch. 232, L. 1977; R.C.M. 1947, 1-702.

67-5-202. Regulation of existing structures — power of acquisition. A building or other structure existing on February 7, 1939, that does not conform to the height regulations of this chapter is subject to acquisition by the governmental entity owning or operating an airport or landing field. In order to protect its own airports and landing fields and to implement this chapter, the governmental authority may acquire by purchase, grant, or condemnation pursuant to Title 70, chapter 30, an estate or interest in any building, structure, or other object, whether a natural object or not, and in the lands upon which it is situated that is necessary to vest full control in perpetuity of the space above the land. The acquisition is limited to the extent necessary to correct the height of any nonconforming building, other structure, or object to meet the requirements of this chapter with respect to height limitation within the designated zones.

History: En. Sec. 5, Ch. 12, L. 1939; R.C.M. 1947, 1-705; amd. Sec. 37, Ch. 125, L. 2001.

2001 Amendment: Chapter 125 in first sentence inserted reference to Title 70, chapter 30; and made minor changes in style. Amendment effective October 1, 2001.

67-5-203. Duty to acquire permit. (1) Each person, firm, or corporation in this state proposing to erect, establish, or maintain any building or other structure that would exceed the height limit established by law or to grow any natural object that would exceed such limit when grown, whenever the proposed erection or growth is within 2 miles of a public airport or landing field, shall apply to the proper officer of the United States or the state of Montana or any county or municipality thereof, whichever of those bodies has control of the airport or landing field affecting the area, for a permit to erect, establish, or maintain the structure, building, or object proposed.

(2) No permit may be granted unless the specifications of the building or other structure or object reveal that the total height does not or will not exceed the height limits fixed by law for the zone in which the same is to be established.

(3) No permit may be issued in violation of this section, and any permit which is issued in violation of this section is void.

History: En. Sec. 4, Ch. 12, L. 1939; amd. Sec. 5, Ch. 232, L. 1977; R.C.M. 1947, 1-704.

67-5-204. Restriction — lights. No searchlight, beacon light, or other glaring light shall be used, maintained, or operated within said Montana airport zoning areas so that the same shall reflect, glare, or shine upon or in the direction of the airports.

History: En. Sec. 8, Ch. 12, L. 1939; R.C.M. 1947, 1-708.

67-5-205 through 67-5-210 reserved.

67-5-211. Enforcement. A public body or governmental authority owning, operating, or maintaining a public airport or landing field or that creates a municipal or regional airport authority for that purpose shall enforce the provisions of this chapter as it pertains to areas surrounding the particular airport under the control of the body or authority. This chapter must be enforced in either a court of law or of equity in the state of Montana having jurisdiction of the action. Cases must be instituted in the name of the governmental body charged with the enforcement of this chapter. An action may be brought to prevent the erection, construction, or maintenance of buildings or other structures or parts of buildings or structures as may exceed the height limits fixed by this law or to restrain, correct, or abate any violation and to prevent the occupancy and use of any part of a building or structure erected in violation of this law.

History: En. Sec. 3, Ch. 12, L. 1939; R.C.M. 1947, 1-703; amd. Sec. 5, Ch. 279, L. 1993.

Part 1
General Provisions

67-6-101. Short title. This chapter shall be known and may be cited as the "Airport Zoning Act".

History: En. Sec. 14, Ch. 287, L. 1947; R.C.M. 1947, 1-723.

67-6-102. Legislative finding and purpose. (1) It is hereby found that an airport hazard endangers the lives and property of users of the airport and of occupants of land in its vicinity and also, if of the obstruction type, in effect reduces the size of the area available for the landing, taking off, and maneuvering of aircraft, thus tending to destroy or impair the utility of the airport and the public investment therein.

(2) Accordingly, it is hereby declared:

(a) that the creation or establishment of an airport hazard is a public nuisance and an injury to the community served by the airport in question;

(b) that it is therefore necessary in the interest of the public health, public safety, and general welfare that the creation or establishment of airport hazards be prevented; and

(c) that this should be accomplished, to the extent legally possible, by exercise of the police power, without compensation.

(3) It is further declared that both the prevention of the creation or establishment of airport hazards and the elimination, removal, alteration, mitigation, or marking and lighting of existing airport hazards are public purposes for which political subdivisions may raise and expend public funds and acquire land or property interests therein.

History: En. Sec. 2, Ch. 287, L. 1947; R.C.M. 1947, 1-711.

67-6-103. Constitutional restriction. In any case in which airport zoning regulations adopted under this chapter, although generally reasonable, are held by a court to interfere with the use or enjoyment of a particular structure or parcel of land to such an extent or to be so onerous in their application to such a structure or parcel of land as to constitute a taking or deprivation of that property in violation of the constitution of this state or the constitution of the United States, such holding shall not affect the application of such regulations to other structures and parcels of land.

67-6-201. Airport zoning power. (1) In order to prevent the creation or establishment of airport hazards, every political subdivision having an airport hazard area within its territorial limits may adopt, administer, and enforce, under the police power and in the manner and upon the conditions prescribed, airport zoning regulations for such airport hazard area, which regulations may divide such area into zones and, within such zones, specify the land uses permitted and regulate and restrict the height to which structures and trees may be erected or allowed to grow.

(2) Where an airport is owned or controlled by a political subdivision and any airport hazard area appertaining to such airport is located outside the territorial limits of said political subdivision, within or without the state, the political subdivision owning or controlling the airport and the political subdivision within which the airport hazard area is located may, by ordinance or resolution duly adopted, create a joint airport zoning board, which board shall have the same power to adopt, administer, and enforce airport zoning regulations applicable to the airport hazard area in question as that vested by subsection (1) in the political subdivision within which such area is located. Each such joint board shall have as members two representatives appointed by each political subdivision participating in its creation and in addition a chairman elected by a majority of the members so appointed.

(3) If in the judgment of a political subdivision owning or controlling an airport, the political subdivision within which is located an airport hazard area appertaining to that airport has failed to adopt or enforce reasonably adequate airport zoning regulations for such area under subsection (1) and if that political subdivision has refused to join in creating a joint airport zoning board as authorized in subsection (2), the political subdivision owning or controlling the airport may itself adopt, administer, and enforce airport zoning regulations for the airport hazard area in question. In the event of conflict between such regulations and any airport zoning regulations adopted by the political subdivision within which the airport hazard area is located, the regulations of the political subdivision owning or controlling the airport shall govern and prevail.

History: En. Sec. 3, Ch. 287, L. 1947; R.C.M. 1947, 1-712.

67-6-202. Airport zoning regulations — procedure — commission. (1) In adopting, amending, and repealing airport zoning regulations under this chapter, the political subdivision or joint airport zoning board shall follow the procedure prescribed by the laws of this state for the adoption, amendment, or repeal of comprehensive zoning regulations, as provided in Title 76, chapter 2, part 3.

(2) Prior to the initial zoning of any airport hazard area under this chapter, the political subdivision or joint airport zoning board which is to adopt the regulations shall appoint a commission, to be known as the airport zoning commission, to recommend the boundaries of the various zones to be established and the regulations to be adopted therefor. Such commission shall make a preliminary report and hold public hearings thereon before submitting its final report, and the legislative body of the political subdivision or the joint airport zoning board shall not hold its public hearings or take other action until it has received the final report of such commission. Where a city planning commission or comprehensive zoning commission already exists, it may be appointed as the airport zoning commission.

History: En. Sec. 5, Ch. 287, L. 1947; R.C.M. 1947, 1-714.

67-6-203. Airport zoning regulations — requirements. (1) All airport zoning regulations adopted under this chapter shall be reasonable, and none shall impose any requirement or restriction which is not reasonably necessary to effectuate the purposes of this chapter. In determining what regulations it may adopt, each political subdivision and joint airport zoning board shall consider, among other things, the character of the flying operations expected to be conducted at the airport, the nature of the terrain within the airport hazard area, the character of the neighborhood, and the uses to which the property to be zoned is put and adaptable.

(2) No airport zoning regulations adopted under this chapter shall require the removal, lowering, or other change or alteration of any structure or tree not conforming to the regulations when adopted or amended or otherwise interfere with the continuance of any nonconforming use, except as provided in 67-6-207(3).

History: En. Sec. 6, Ch. 287, L. 1947; R.C.M. 1947, 1-715.

67-6-204. Zoning regulations — merger or conflict. (1) In the event that a political subdivision had adopted or hereafter adopts a comprehensive zoning ordinance regulating, among other things, the height of buildings, any airport zoning regulations applicable to the same area or portion thereof may be incorporated in and made a part of such comprehensive zoning regulations and be administered and enforced in connection therewith.

(2) In the event of conflict between any airport zoning regulations adopted under this chapter and any other regulations applicable to the same area, whether the conflict be with respect to the height of structures or trees, the use of land, or any other matter and whether such other regulations were adopted by the airport zoning regulations or by some other political subdivision, the more stringent limitation or requirement shall govern and prevail.

History: En. Sec. 4, Ch. 287, L. 1947; R.C.M. 1947, 1-713.

67-6-205. Airport zoning regulations — administration. All airport zoning regulations adopted under this chapter shall provide for the administration and enforcement of such regulations by an administrative agency which may be an agency created by such regulations or any official, board, or other existing agency of the political subdivision adopting the regulations or of one of the political subdivisions which participated in the creation of the joint airport zoning board adopting the regulations, if satisfactory to that political subdivision; but in no case shall such administrative agency be or include any member of the board of adjustment. The duties of any administrative agency designated pursuant to this chapter shall include that of hearing and deciding all permits under 67-6-207(1), but such agency shall not have or exercise any of the powers herein delegated to the board of adjustment.

History: En. Sec. 8, Ch. 287, L. 1947; R.C.M. 1947, 1-717.

67-6-206. Board of adjustment. All airport zoning regulations adopted under this chapter shall provide for a board of adjustment to be appointed in the manner and have and exercise all the powers provided in 76-2-321 through 76-2-328, and each and all of the provisions of said sections relating to appeals and judicial review shall be applicable to this chapter.

History: En. Sec. 9, Ch. 287, L. 1947; R.C.M. 1947, 1-718.

67-6-207. Permits — variances. (1) When advisable to facilitate the enforcement of this chapter, a system may be established for granting permits to establish or construct new structures and other uses. In any event, before any nonconforming structure may be replaced with a taller one or any nonconforming tree allowed to grow higher or be replanted, a permit must be secured from the administrative agency authorized to administer and enforce the regulations authorizing such replacement or change. No such permit shall be granted that would allow the structure to become a greater hazard to air navigation than it was when the applicable regulation was adopted. Whenever the administrative agency determines that a nonconforming structure or tree has been abandoned or more than 80% torn down, destroyed, deteriorated, or decayed, no permit shall be granted that would allow said structure or tree to exceed the applicable height limit or otherwise deviate from the zoning regulations. Except as indicated, all applications for permits for replacement, change, or repair of nonconforming uses shall be granted.

(2) Any person desiring to erect any structure, increase the height of any structure, permit the growth of any tree, or otherwise use his property in violation of airport zoning regulations

adopted under this chapter may apply to the board of adjustment for a variance from the zoning regulations in question. Such variances shall be allowed where a literal application or enforcement of the regulations would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest but do substantial justice and be in accordance with the spirit of the regulations and this chapter. Any variance may be allowed subject to any reasonable conditions that the board of adjustment may deem necessary to effectuate the purposes of this chapter.

(3) In granting any permit or variance under this section, the administrative agency or board of adjustment may, if it deems such action advisable to effectuate the purposes of this chapter and reasonable in the circumstances, so condition such permit or variance as to require the owner of the structure or tree in question to permit the political subdivision, at its own expense, to install, operate, and maintain thereon such markers and lights as may be necessary to indicate to flyers the presence of an airport hazard.

Each violation of this chapter or of any regulations, orders, or rulings promulgated or made pursuant to this chapter shall constitute a misdemeanor and shall be punishable by a fine of not more than $500 or imprisonment for not more than 6 months or by both such fine and imprisonment, and each day a violation continues to exist shall constitute a separate offense. In addition the political subdivision or agency adopting zoning regulations under this chapter may institute in any court of competent jurisdiction an action to prevent, restrain, correct, or abate any violation of this chapter or of airport zoning regulations adopted under this chapter or of any order or ruling made in connection with their administration or enforcement; and the court shall adjudge to the plaintiff such relief, by way of injunction (which may be mandatory) or otherwise, as may be proper under all the facts and circumstances of the case, in order fully to effectuate the purposes of this chapter and of the regulations adopted and orders and rulings made pursuant thereto.

Part 3
Miscellaneous Provisions

67-6-301. Acquisition of property rights when zoning not sufficient. The political subdivision within which the property or nonconforming use is located or the political subdivision owning the airport or served by the airport may acquire, by purchase, grant, or condemnation pursuant to Title 70, chapter 30, an air right, aviation easement, or other estate or interest in the property or nonconforming structure or use that is necessary to effectuate the purposes of this chapter. The governmental entity may acquire an interest when:

(1) it is desirable to remove, lower, or otherwise terminate a nonconforming structure or use;

(2) the necessary approach protection cannot, because of constitutional limitations, be provided by airport zoning regulations under this chapter; or

(3) it appears advisable that the necessary approach protection be provided by acquisition of property rights rather than by airport zoning regulations.

67-10-201. General municipal powers. (1) A municipality may, out of any appropriations or other money made available for airport purposes, plan, establish, develop, construct, enlarge, improve, maintain, equip, operate, regulate, protect, and police airports and air navigation facilities, either within or outside of the territorial limits of the municipality and within or outside of the territorial boundaries of this state. The airport purposes include the construction, installation, equipping, maintenance, and operation at airports of buildings and other facilities for the servicing of aircraft or for the comfort and accommodation of air travelers and the purchase and sale of supplies, goods, and commodities as an incident to the operation of its airport properties. A municipality may use any available property that it owns or controls for airport purposes. A municipality may acquire real or personal property or any interest in property by purchase, gift, devise, lease, eminent domain proceedings pursuant to Title 70, chapter 30, or otherwise. A municipality may also acquire property interests, including easements, in airport hazards or land outside the boundaries of an airport or airport site that are necessary to:

(a) permit safe and efficient operation of the airport;

(b) permit the removal, elimination, obstruction-marking, or obstruction-lighting of airport hazards; or

(c) prevent the establishment of airport hazards.

(2) The municipality may, by purchase, gift, devise, lease, eminent domain proceedings pursuant to Title 70, chapter 30, or otherwise, acquire existing airports and air navigation facilities. However, a municipality may not acquire any airport or air navigation facility owned or controlled by another municipality or public agency of this or any other state without the consent of the municipality or public agency.

(3) For the purposes of this chapter, a municipality may establish or acquire and maintain, within or bordering upon the territorial limits of the municipality, airports in, over, and upon any public waters of this state, any submerged lands under public waters, and any artificial or reclaimed lands that before the artificial making or reclamation constituted a portion of the submerged lands under the public waters. A municipality may construct and maintain terminal buildings, landing floats, causeways, roadways, and bridges for approaches to or connecting with any airport and may construct and maintain landing floats and breakwaters for the protection of the other improvements.

(4) All air navigation facilities established or operated by municipalities must be supplementary to and coordinated in design and operation with air navigation facilities established and operated by the federal and state governments.

(5) A municipality may enter into any contracts necessary for the purposes provided by this chapter.

(2) For the purpose of meeting the charges mentioned when the airport or landing field is such joint venture, a joint fund shall be created and maintained into which each of the political subdivisions interested shall deposit its proportionate share in accordance with the predetermination of the board of county commissioners and council or councils affected.

(3) All disbursements from such fund shall be made by order of such joint board or body, if one be created as authorized, otherwise under such rules as the joint control by the commissioners and council or councils may adopt.

If any municipality determines that the public interest and the interests of the municipality will be served by assisting any other municipality or municipalities in exercising the powers and authority granted by this chapter, such municipality may furnish assistance by gift of real or personal property or lease or loan thereof with or without charge or interest. In appropriating such property or money and providing for such assistance by taxation, the issuance of bonds, or other means, the municipality may exercise all of its powers as though used for its own direct purposes as provided in this chapter.

If not otherwise authorized by law, any agency of the state government when acting jointly with any municipality may exercise and enjoy all of the powers, privileges, and authority conferred by this chapter upon a municipality.

(3) Any two or more public agencies may enter into agreements with each other for joint action pursuant to the provisions of 67-10-204 through 67-10-206. Concurrent action by ordinance, resolution, or otherwise of the governing bodies of the participating public agencies constitutes joint action. Each such agreement shall specify its duration; the proportionate interest which each public agency has in the property, facilities, and privileges involved; the proportion to be borne by each public agency of preliminary costs and costs of acquisition, establishment, construction, enlargement, improvement, and equipment of the airport or air navigation facility; the proportion of the expenses of maintenance, operation, regulation, and protection thereof to be borne by each; and such other terms as are required by the provisions of 67-10-204 through 67-10-206. The agreement may also provide for amendments thereof and conditions and methods of termination of the agreement; the disposal of all or any of the

Per diem and mileage of the joint board may be set by resolution of the board of county commissioners. The number of members to be appointed and their terms must be provided for in the joint agreement. A joint board shall organize, select officers for terms to be fixed by the agreement, and from time to time adopt and amend rules for its own procedure. The joint board may plan, acquire, establish, develop, construct, enlarge, improve, maintain, equip, operate, regulate, protect, and police any airport or air navigation facility or airport hazard to be jointly acquired, controlled, and operated. Subject to subsection (2), the board may exercise on behalf of its constituent public agencies all the powers of each public agency with respect to the airport, air navigation facility, or airport hazard.

(2) (a) The total expenditures to be made by the joint board for any purpose in any calendar year must be determined by a budget approved by the governing bodies of its constituent public agencies.

(b) An airport, air navigation facility, airport hazard, or real or personal property, the cost of which is in excess of sums fixed by the joint agreement or allotted in the annual budget, may not be acquired by the joint board without the approval of the governing bodies of its constituent public agencies.

(c) Eminent domain proceedings authorized under 67-10-204 through 67-10-206 and conducted as provided in Title 70, chapter 30, may be instituted only by authority of the governing bodies of the constituent public agencies of the joint board. If authorized, eminent domain proceedings must be instituted in the names of the constituent public agencies jointly, and the property acquired must be held by the public agencies as tenants in common until conveyed by them to the joint board.

(d) The joint board may not dispose of any airport, air navigation facility, or real property under its jurisdiction except with the consent of the governing bodies of its constituent public agencies. However, the joint board may, without consent, enter into the contract, lease, or other arrangements contemplated by 67-10-302.

(e) Any resolutions, rules, or orders of the joint board that deal with subjects authorized by 67-10-301 are effective only upon approval of the governing bodies of the constituent public agencies. Upon approval, the resolutions, rules, or orders of the joint board have the same force and effect in the territories or jurisdictions involved that the ordinance, resolutions, rules, or orders of each public agency would have in its own territory or jurisdiction.

(1) Subject to 15-10-420 and for the purpose of establishing, constructing, equipping, maintaining, and operating airports, landing fields, and ports under the provisions of this chapter and as provided in Title 7, chapter 14, part 11, the county commissioners or the city or town council may each year assess and levy, in addition to the annual levy for general administrative purposes or the all-purpose mill levy authorized by 7-6-4451, a tax on the taxable value of all taxable property in the county, city, or town for airports and landing fields and for ports.

(2) In the event of a jointly established airport, landing field, or port, the county commissioners and the city or town council or councils involved shall determine in advance the levy necessary for those purposes and the proportion that each political subdivision joining in the venture is required to pay.

(3) If the levy is insufficient for the purposes enumerated in subsection (1), the commissioners and councils are authorized and empowered to contract an indebtedness on behalf of the county, city, or town by borrowing money or issuing bonds for those purposes. However, bonds may not be issued until the proposition has been submitted to the qualified electors and approved by a majority vote, except as provided in subsection (4).

(b) the necessity to resurface or improve runways by overlays or similar methods periodically is based upon competent engineering estimates; and

(c) the funds are expended at least within each 10-year period.

(5) The reserve fund may not exceed at any time a competent engineering estimate of the cost of resurfacing or overlaying the existing runways, taxiways, and ramps of any one airport for each fund. The governing body of the airport or port, if in its judgment it considers it advantageous, may invest the fund in any interest-bearing deposits in a state or national bank insured by the FDIC or obligations of the United States of America, either short-term or long-term. Interest earned from the investments must be credited to the operations and maintenance budget of the airport or port governing body. Due to the uniqueness of the subject

matter, the provisions of this section are declared necessary in the interests of the public health and safety.

67-11-102. Municipal airport authority. Any municipality may, by resolution of its governing body, create a public body, corporate and politic, to be known as a municipal airport authority which shall be authorized to exercise its functions upon the appointment and qualification of the first commissioners thereof; or the governing body may by resolution determine to exercise any or all powers granted to such authorities in this chapter until or unless such powers are or have been conferred upon a municipal or regional airport authority. Upon the adoption of a resolution creating a municipal airport authority, the governing body of the municipality shall, pursuant to the resolution, appoint not less than five persons as commissioners of the authority. The commissioners who are first appointed shall be designated to serve for terms of 1, 2, 3, 4, and 5 years, respectively, but thereafter each commissioner shall be appointed for a term of 5 years, except that vacancies occurring otherwise than by expiration of the term shall be filled for the unexpired term by the governing body.

History: En. 1-904 by Sec. 4, Ch. 433, L. 1971; amd. Sec. 1, Ch. 57, L. 1975; R.C.M. 1947, 1-904.

67-11-103. Regional airport authority. (1) Two or more municipalities may by joint resolution create a public body, corporate and politic, to be known as a regional airport authority. The resolution creating a regional airport authority shall create a board of not less than five commissioners; the number to be appointed, their term and compensation, if any, shall be provided for in the resolution. Each such regional airport authority shall organize, select officers for terms to be fixed by agreement, and adopt and amend from time to time rules for its own procedure not inconsistent with 67-11-104.

(2) A regional airport authority may be increased from time to time to serve one or more additional municipalities if each additional municipality and each of the municipalities then included in the regional authority and the commissioners of the regional authority, respectively, adopt a joint resolution consenting thereto; provided that if a municipal airport authority for any municipality seeking to be included in the regional authority is then in existence, the commissioners of the municipal authority must consent to the inclusion of the municipality in the regional authority. Upon the inclusion of any municipality in the regional authority, all rights, contracts, obligations, and property, real and personal, of the municipal authority shall be in the name of and vest in the regional authority.

(3) A regional airport authority may be decreased if each of the municipalities then included in the regional authority and the commissioners of the regional authority consent to the decrease and make provisions for the retention or disposition of its assets and liabilities.

(4) A municipality shall not adopt any resolution authorized by this section without a public hearing thereon. Notice thereof shall be given at least 10 days prior thereto in a newspaper published in the municipality or, if there is no newspaper published therein, then in a newspaper having general circulation in the municipality.

(5) For the purpose of this chapter a regional airport authority shall have the same powers as all other political subdivisions in the adoption and enforcement of comprehensive airport zoning regulations as provided for by the laws of this state.

A majority of the commissioners of an authority shall constitute a quorum for the purpose of conducting business of the authority and exercising its powers and for all other purposes. Action may be taken by the authority upon a vote of not less than a majority of the commissioners present.

(2) There shall be elected a chairman and vice-chairman from among the commissioners. An authority may employ an executive director, secretary, technical experts, and such other officers, agents, and employees, permanent and temporary, as it may require and shall determine their qualifications, duties, and compensation. An authority may delegate to one or more of its agents or employees such powers or duties as it may deem proper.

67-11-301. Municipal tax levy. The airport authority may certify annually to the governing bodies the amount of tax requested to be levied by each municipality participating in the creation of the airport authority, and subject to 15-10-420, the municipality shall levy the amount certified, pursuant to provisions of law authorizing cities and other political subdivisions of this state to levy taxes for airport purposes. The levy may not exceed the maximum levy that may have been established by the municipality or municipalities in the resolution creating the authority. The municipality shall collect the taxes certified by an airport authority in the same manner as other taxes are levied and collected and make payment to the airport authority. The proceeds of the taxes paid to the airport authority must be deposited in a special account or accounts in which other revenue of the authority is deposited and may be expended by the authority as provided for in this chapter. Prior to the issuance of bonds under 67-11-303, the airport authority or the municipality may by resolution covenant that the total amount of the taxes authorized by law or the portion of the taxes specified by the resolution will, subject to 15-10-420, be certified, levied, and deposited annually until the bonds and interest are fully paid.

67-11-303. Bonds and obligations. (1) An authority may borrow money for any of its corporate purposes and issue its bonds for those purposes, including refunding bonds, in the form and upon the terms that it may determine, payable out of any revenue of the authority, including revenue derived from:

(a) an airport or air navigation facility or facilities;

(b) taxes levied pursuant to 67-11-301 or other law for airport purposes;

(c) grants or contributions from the federal government; or

(d) other sources.

(2) The bonds may be issued by resolution of the authority, without an election and without any limitation of amount, except that bonds may not be issued at any time if the total amount of principal and interest to become due in any year on the bonds and on any then-outstanding bonds for which revenue from the same source or sources is pledged exceeds the amount of revenue to be received in that year as estimated in the resolution authorizing the issuance of the bonds. The authority shall take all action necessary and possible to impose, maintain, and collect rates, charges, rentals, and taxes, if any is pledged, sufficient to make the revenue from the pledged source in the year at least equal to the amount of principal and interest due in that year.

(3) The bonds may be sold at public or private sale and may bear interest as provided in 17-5-102. Except as otherwise provided in this section, any bonds issued pursuant to this chapter by an authority may be payable as to principal and interest solely from revenue of the authority and must state on their face the applicable limitations or restrictions regarding the source from which the principal and interest are payable.

(4) Bonds issued by an authority or municipality pursuant to the provisions of this chapter are declared to be issued for an essential public and governmental purpose by a political subdivision within the meaning of 15-30-111(2)(a).

(5) For the security of bonds, the authority or municipality may by resolution make and enter into any covenant, agreement, or indenture and may exercise any additional powers authorized to be exercised by a municipality under Title 7, chapter 7, parts 44 and 45. The sums required from time to time to pay principal and interest and to create and maintain a reserve for the bonds may be paid from any revenue referred to in this chapter, prior to the payment of current costs of operation and maintenance of the facilities.

(6) Subject to the conditions stated in this subsection, the governing body of any municipality having a population in excess of 10,000, with respect to bonds issued pursuant to this chapter by the municipality or by an authority in which the municipality is included, may by resolution covenant that in the event that at any time all revenue, including taxes, appropriated and collected for the bonds is insufficient to pay principal or interest then due, it shall, subject to 15-10-420, levy a general tax upon all of the taxable property in the municipality for the payment of the deficiency. The governing body may further covenant that at any time a deficiency is likely to occur within 1 year for the payment of principal and interest due on the bonds, it shall, subject to 15-10-420, levy a general tax upon all the taxable property in the municipality for the payment of the deficiency, and the taxes are limited to a rate estimated to be sufficient to produce the amount of the deficiency. In the event that more than one municipality having a population in excess of 10,000 is included in an authority issuing bonds pursuant to this chapter, the municipalities may apportion the obligation to levy taxes for the payment of, or in anticipation of, a deficiency in the revenue appropriated for the bonds in a manner that the municipalities may determine. The resolution must state the principal amount and purpose of the bonds and the substance of the covenant respecting deficiencies. A resolution may not be effective until the question of its approval has been submitted to the qualified electors of the municipality at a special election called for that purpose by the governing body of the municipality and a majority of the electors voting on the question have voted in favor of the resolution. The special election must be held in conjunction with a regular or primary election. The notice and conduct of the election is governed, to the extent applicable, as provided for municipal general obligation bonds in Title 7, chapter 7, part 42, for an election called by cities and towns and as provided for county general obligation bonds in Title 7, chapter 7, part 22, for an election called by counties. If a majority of the electors voting on the issue vote against approval of the resolution, the municipality may not make the covenant or levy a tax for the payment of deficiencies pursuant to this section, but the municipality or authority may issue bonds under this chapter payable solely from the sources referred to in subsection (1).
